2007 and Beyond:

How to Keep Your New Year's Resolutions

"Sleep earlier. Eat more vegetables. Study harder. Learn a new sport. Be more obedient. Get better grades." Watch less TV. These are but some of the things that we want to change or improve on this Year 2007. But in order to really fulfill your resolution, it takes more than just wanting it.

Every New Year is a chance to be a new you. Here's a checklist you could use to make sure your New Year's resolutions are fulfilled.

Narrow it down. Don't overload yourself with a lot of promises to do this and to do that. Choose the top two or three most important ones and note that in your head.

Write it down! Get a pen and a piece of paper. Write down your top priority resolutions. Forgetting is one of the reasons why people fail to carry out their initial promises. By placing this list in a very visible place, you are constantly reminded of this resolution.

Start small and specific. By being particular about your resolution, you have better chances of actually being able to do it. This is handy especially when it comes to studying. You could make a new year's resolution to study for an hour and 30 minutes every day instead of simply saying "I will study more."

Involve other people. The more people know about your wish to improve, the more support you will receive. In times when you fall back, these are the people that will help you along the way. Tell your parents that you are determined to be great at ballet or to brilliantly play a new musical instrument. They will be more than happy to help you.

Reward yourself. It wouldn't hurt to have something to look forward to at the end of the day. The same goes with New Year's Resolutions. By having a reward after continuing to fulfill your promise, you have more driven to put more effort and time into your resolution. Have that much wanted bowl of ice cream after a long day of learning badminton or reward yourself with your favorite TV show after studying for a long time.

Happy New Year Everyone!!!

As the start of a new year, remember that it's also your time to start anew, to make the necessary changes you want in your life-your habits, lifestyle, and even how you look. This issue is packed with tips from the fairies on how to start your new year with a bang!

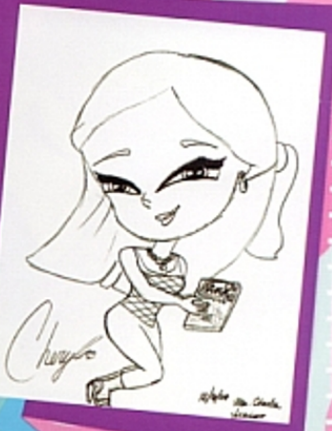
I'd like to extend my heartfelt thanks to the tremendous amount of support from you guys. This year, we look forward to many more fun adventures with the Winx Club!

Do something fantastic to reward yourself, you deserve it.

Love,

Cheryl

P.S. I met the sweetest little girl, eight-year old Ma. Charles Gwynneth Icasiano, our Artwork of the Month winner for Issue 13. Little did I know that while I was talking to her mother or even shuttling in and out of the office, she had been sketching me! And to my amazement, I found this cute little caricature of myself, sitting on my desk-it was exactly what I was wearing, too! Wow, so much talent at such a young age! I was really impressed! She undoubtedly deserved to be our Artwork of the Month! Take a look:



Drop me a line!

The 3 Magic Words

As the New Year rolls around, make the world a better place by remembering how to Reduce, Reuse and Recycle in your own little ways

Reduce

The basic rule is: "Turn if off when not in use." It is time to start reducing or lessening your power usage at home. By simply turning off the lights when you're not in your room, you can help save on your electricity bill.

Don't leave the television on when you're not watching. The noise that the TV makes can be really distracting to the rest of your household. By turning it off when your favorite show isn't on air, you not only lessen noise pollution, but you conserve energy as well.

Reuse

There are so many things at home that can be reused, from old clothes that don't fit you anymore to old books that you don't need or even childhood toys that you've outgrown. Resell these things at a yard sale or give them away to friends and family.

Remember: Don't throw it out; reuse it. You can make use of old Christmas gift wrappers, candy wraps, scrap paper, or old cloth in school and impress your teacher with your creative and resourceful art projects.

Recycle

Watch out for the Recycle logo on the things that you buy. These can be separated from your regular garbage and then brought to a recycling plant nearby. So, save those plastic containers, milk bottles, soft drink cans and the like.

Participate in your school or community recycling activities such as newspaper drives, old book drives or can drives. In doing so, you not only help mother earth, you make new friends in your community as well.

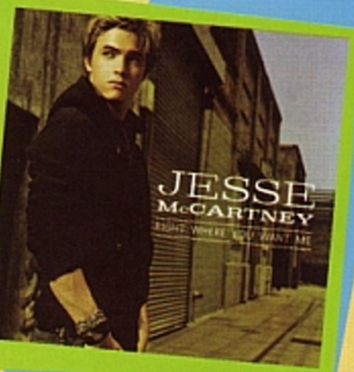
MUSIC BOX

Pop into the New Year with these impressive new albums!

vanessa HUDGENS

VANESSA HUDGENS
V

Your favorite *High School Musical* half- Filipino starlet has released her self-tiled debut album. And yes, she's highly talented, ambitious and has a lot of potential. Proof? Her first single, the catchy, sophisticated "Come Back to Me" has been making airwaves for quite sometime now. Other catchy tracks include "Let's Dance", "Let Go" and "Drive". Vanessa Anne Hudgens is definitely someone worth watching out for—if you're a big fan of *High School Musical*, you'll surely love this girl's solo pop project.



JESSE MCCARTNEY
RIGHT WHERE YOU WANT ME

The 19- year old (with a gazillion teenage fans!) has released his second album, *Right Where You Want Me*, as the follow up to 2004's *Beautiful Soul*. This time, he's a little more grown up but still maintains his nice-guy pop feel that drove hordes of fans (especially female ones!) to fall for him in the first place. The title track has been garnering a lot of airplay but other songs like "Can't Let You Go", "Tell Her" and "Right Back in the Water" are not lagging far behind. Indeed, Jesse McCartney is fast on his way to becoming a worldwide sensation!

THE FRAY
HOW TO SAVE A LIFE

This is melodic pop-rock album is so catchy that if you like one song, you'll surely like the entire album. The Denver-based band has often been compared to bands like Coldplay, Keane, Snow Patrol, Counting Crows and The Wallflowers, but they've certainly been making waves on their own. Hit songs include "Over My Head (Cable Car)" and "How To Save A Life." It's easy-listening rock, an album that's fun to breeze by on the way to and back from school.

LAYLA, TAKE THE WHEEL

Are you tired of walking? Do you have a need for speed? Well, take on some wheels and hit the road! If you don't know what form of wheels suits you best here are some ideas you can use!

SCOOTER:

This two-wheeled footboard has a long handle that you use for support and for controlling direction. It is one of the simplest forms of wheels to use because it easy to balance on it. All you need to do is hold on to the handlebars with both hands while pushing against the floor with one foot. It may sound a bit complicated but you'll surely master this fun hobby in no time!

SKATEBOARD:

If you are a little bit more daring and you fancy yourself to be like Tony Hawk or Bam Margera then you should try skateboarding. A skateboard is very much like a scooter except without the long handle and handlebars. This may make it harder to master than a scooter but a little patience and perseverance can get you grinding and doing jumping tricks just like your skating idols. Just remember to wear a helmet and the proper gear.

ROLLERBLADES:

These are very similar to ice skates except you can use them on the road and not just on the ice. Don't be afraid to try out a pair because they are simply shoes with wheels on the end. The fact that there are wheels on both feet can ensure equal exercise from both your legs unlike with the scooter and skateboard wherein one foot is working more than the other. Experts can usually do various spinning, grinding and jumping tricks—and some people can even dance in them!

BICYCLE:

This vehicle can come as a two-wheeler, or as a two-wheeler with training wheels for beginners. It may be hard to balance at first but riding this may seem relaxing because of the fact that you have a soft cushioned seat to sit on. It is said that once you learn how to ride a bike, you never forget. Be patient while learning how to use this exciting ride and don't be shy to ask your dad or mom for help. Remember, that safety on the road is very important so know your road rules and wear proper gear!

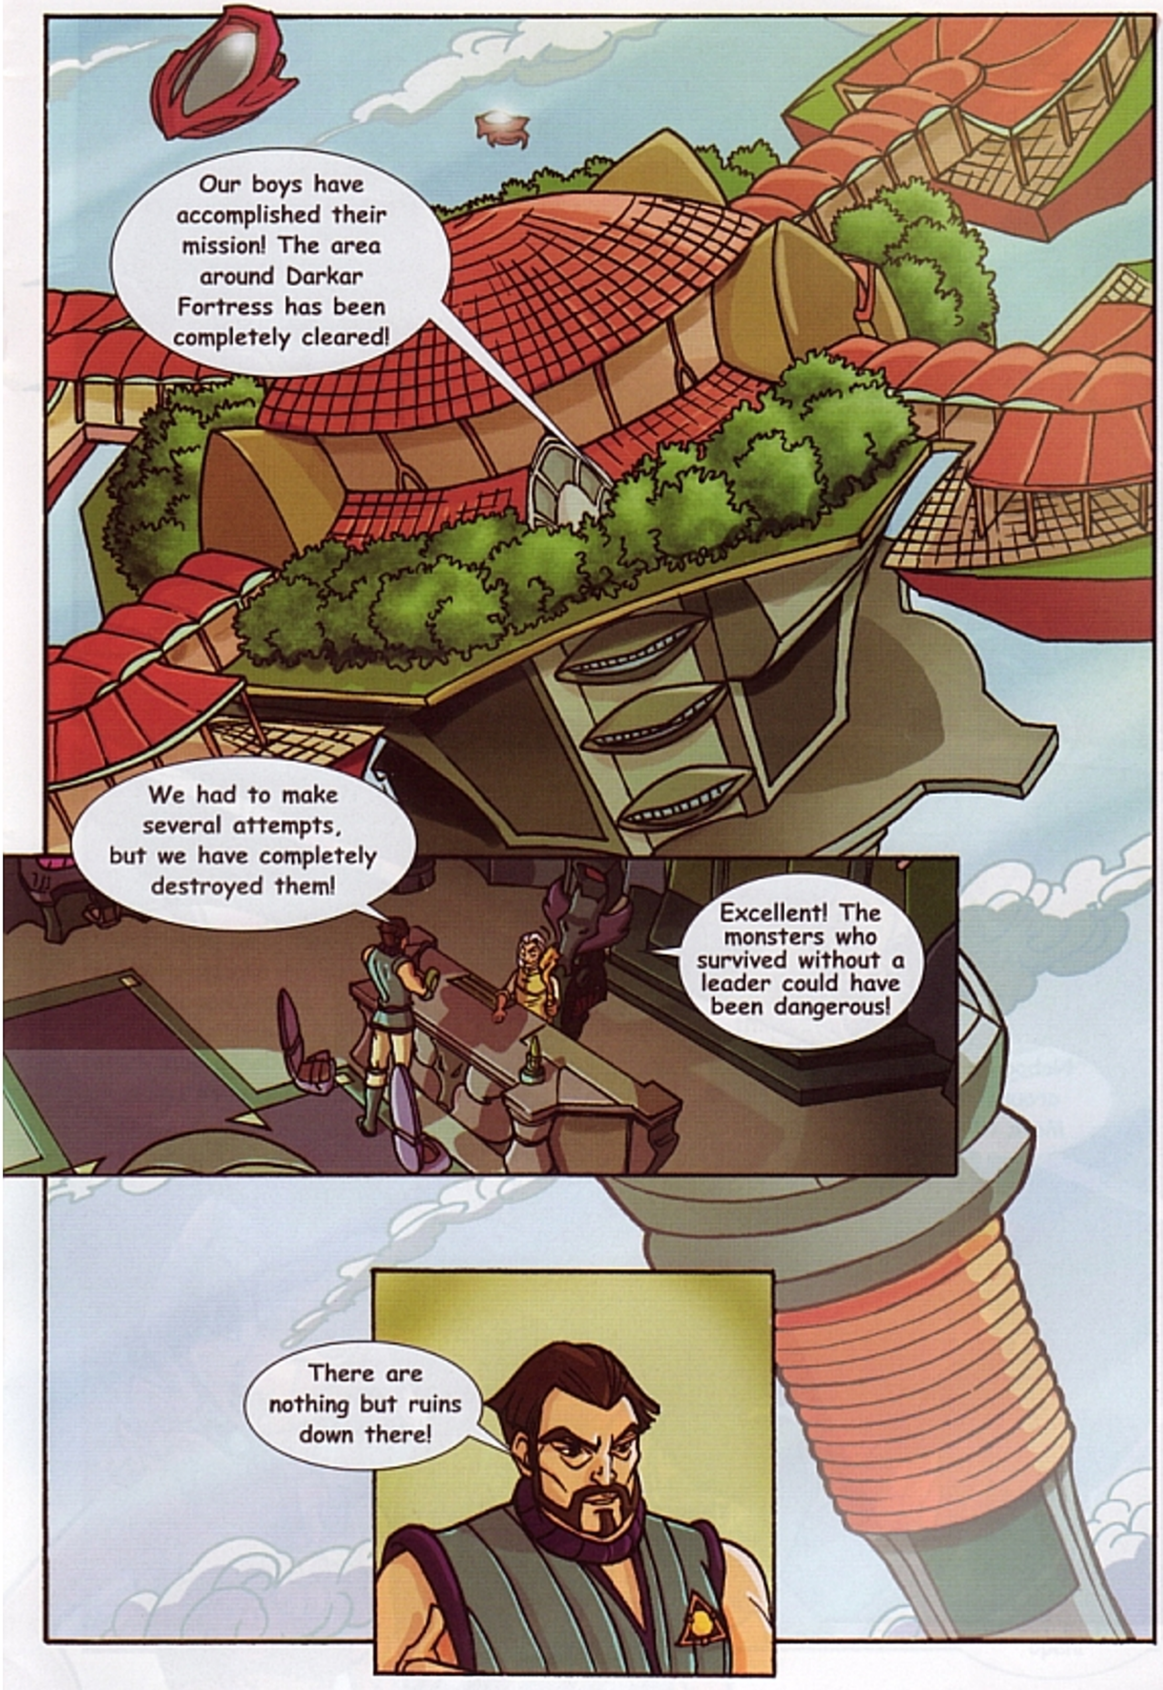
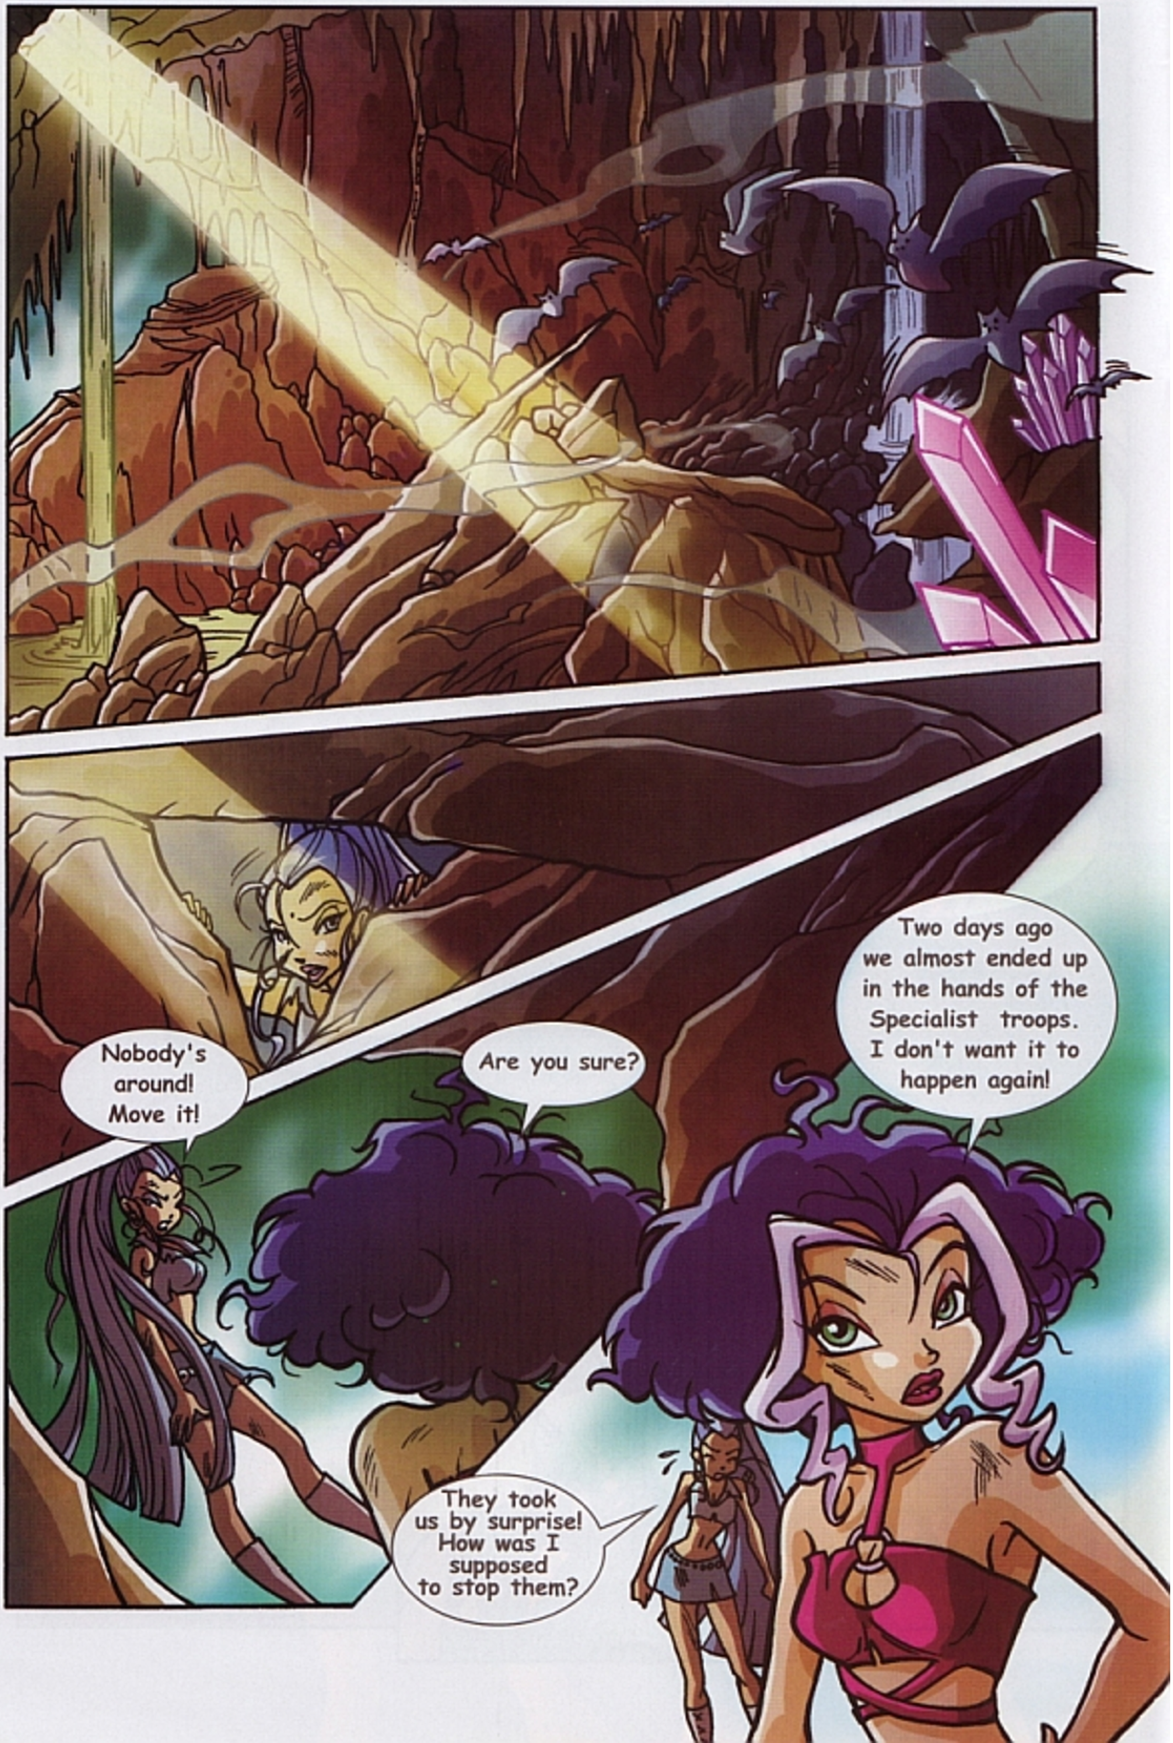
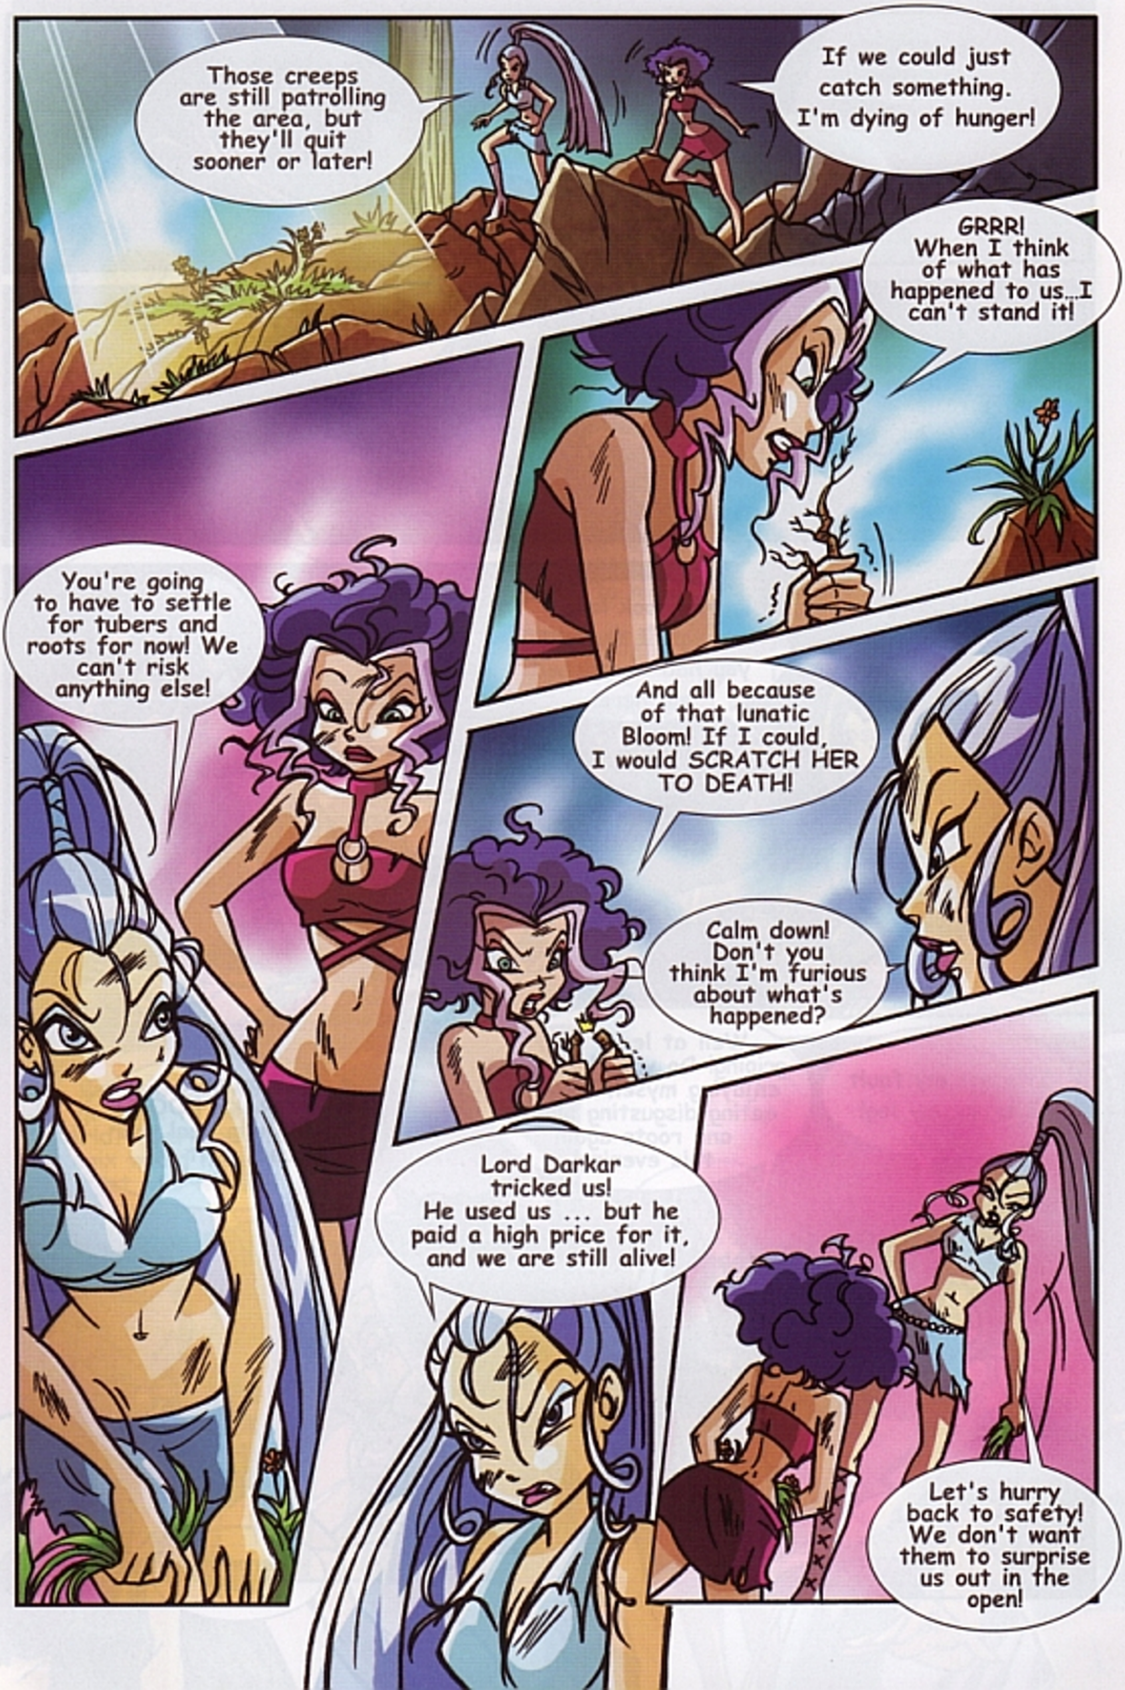
An Evil Wind



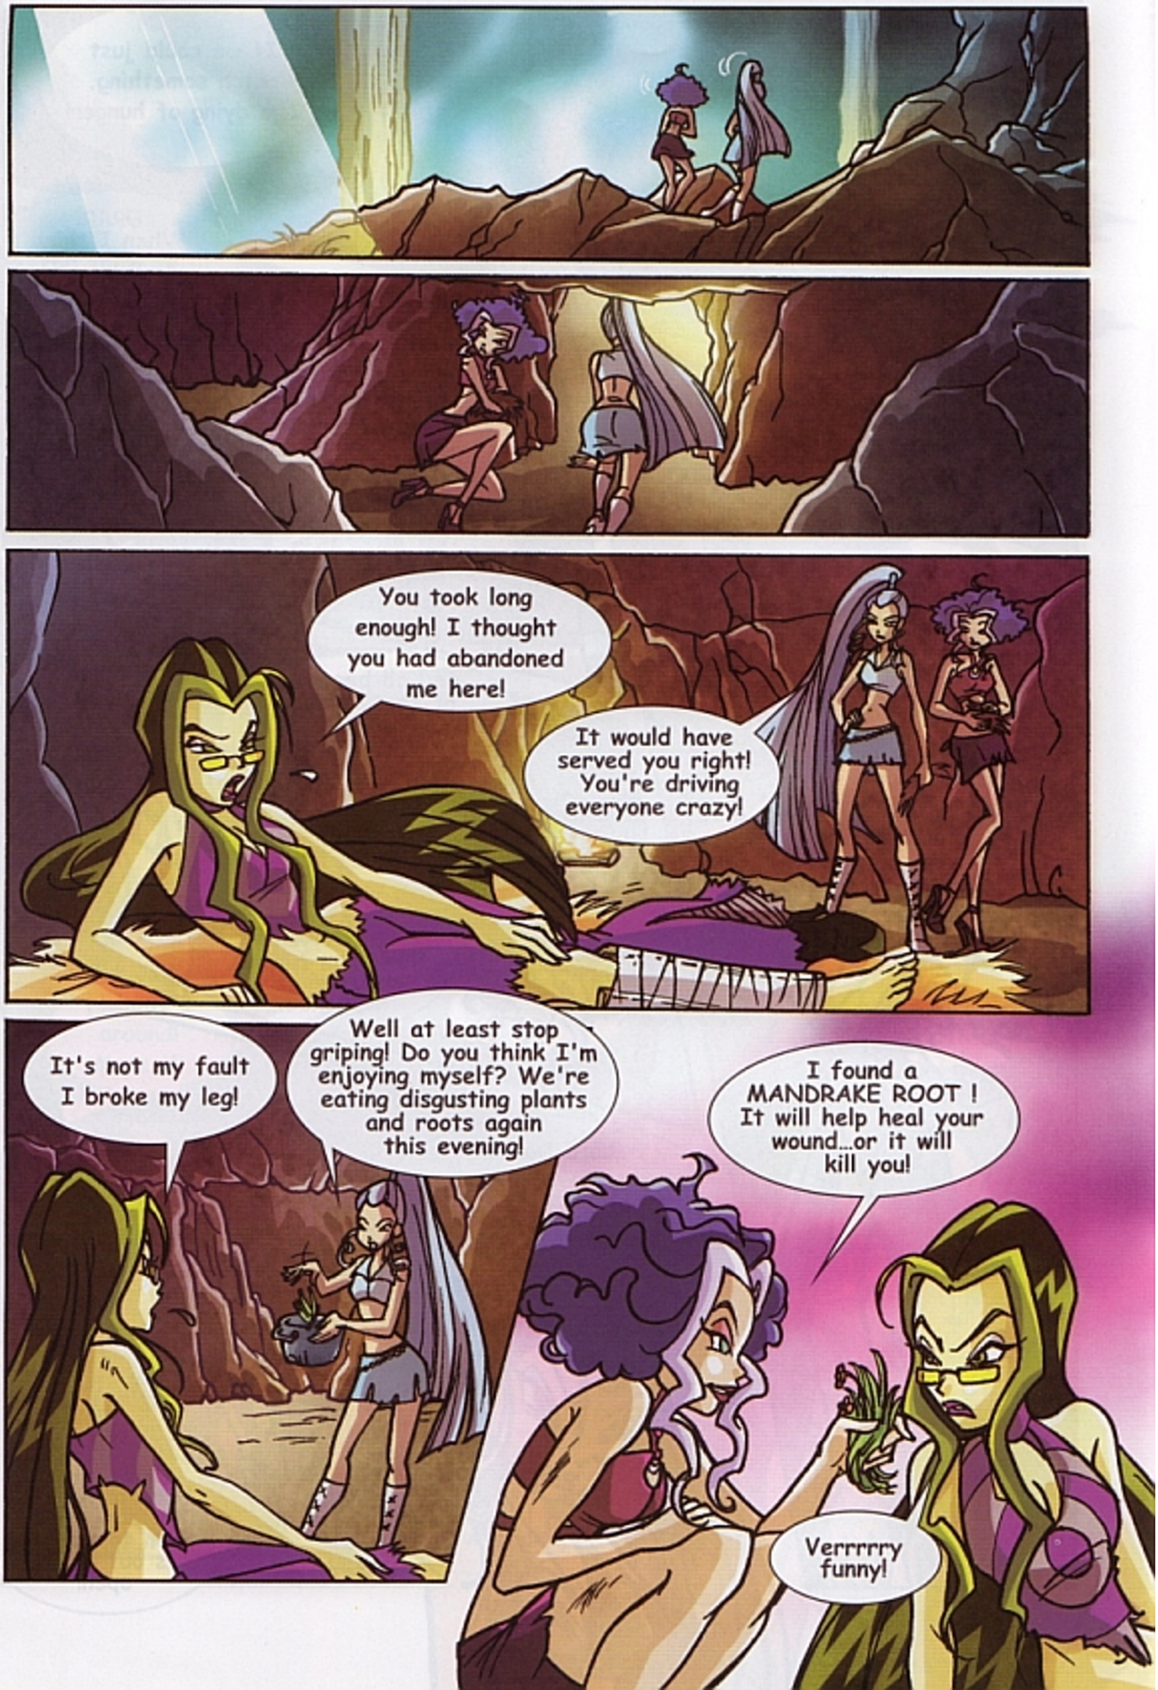
Our boys have accomplished their mission! The area around Darkar Fortress has been completely cleared!
We had to make several attempts, but we have completely destroyed them!
Excellent! The monsters who survived without a leader could have been dangerous!
There are nothing but ruins down there!



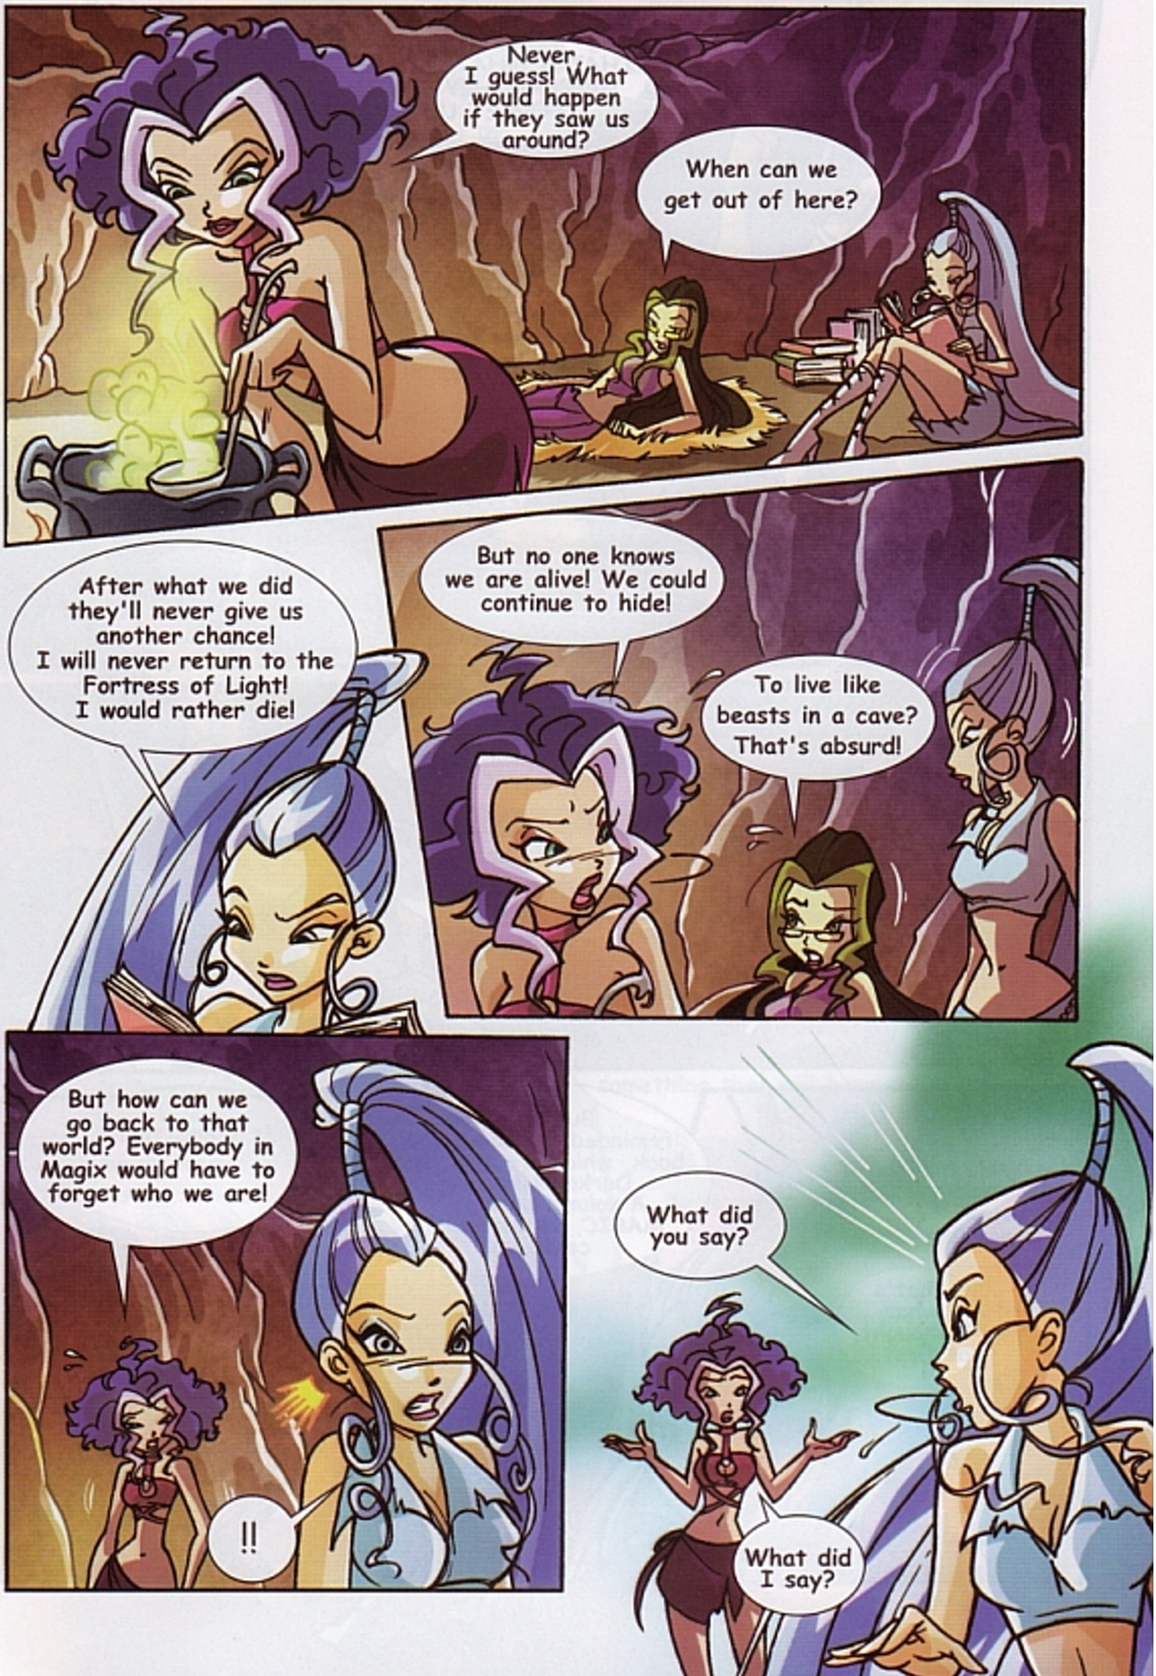
Nobody's around! Move it!
Are you sure?
Two days ago we almost ended up in the hands of the Specialist troops. I don't want it to happen again!
They took us by surprise! How was I supposed to stop them?



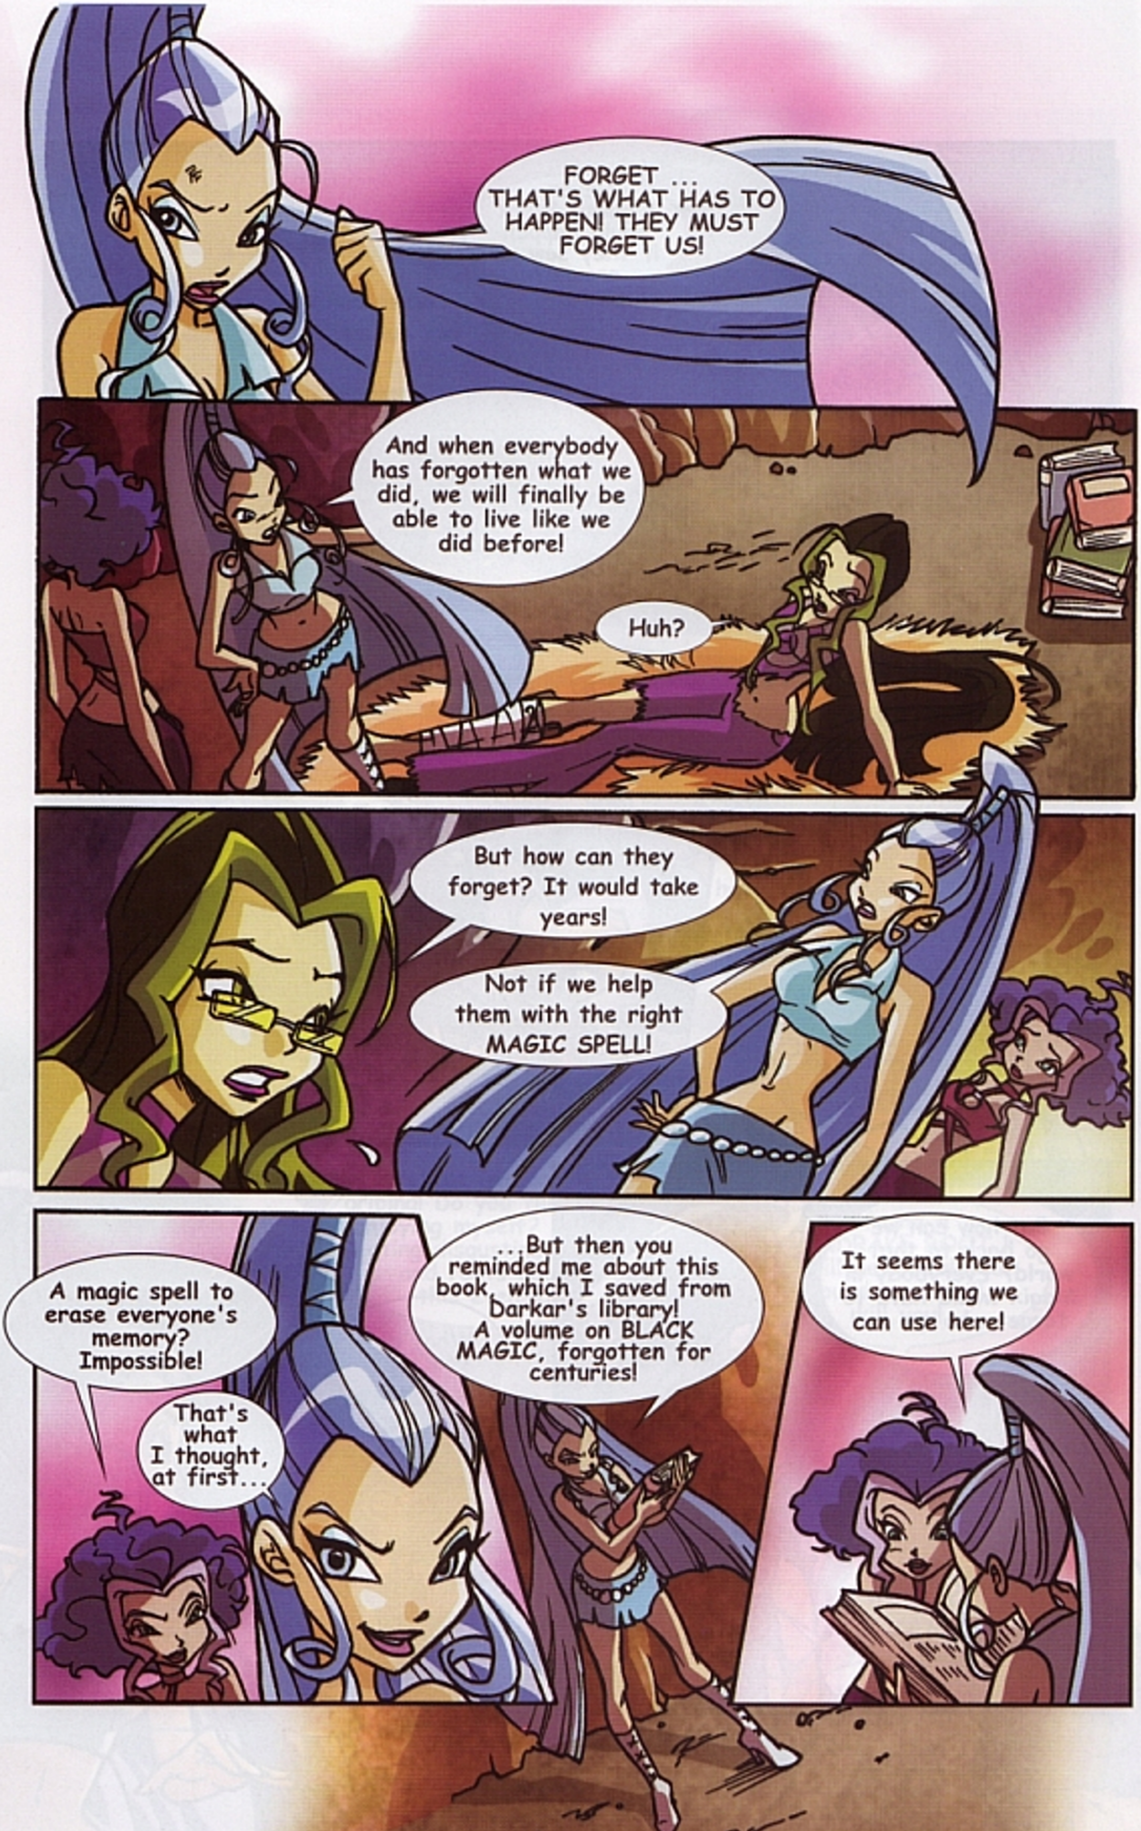
Those creeps are still patrolling the area, but they'll quit sooner or later!
If we could just catch something. I'm dying of hunger!
GRRR! When I think of what has happened to us...I can't stand it!
You're going to have to settle for tubers and roots for now! We can't risk anything else!
And all because of that lunatic Bloom! If I could, I would SCRATCH HER TO DEATH!
Calm down! Don't you think I'm furious about what's happened?
Lord Darkar tricked us! He used us ... but he paid a high price for it, and we are still alive!
Let's hurry back to safety! We don't want them to surprise us out in the open!



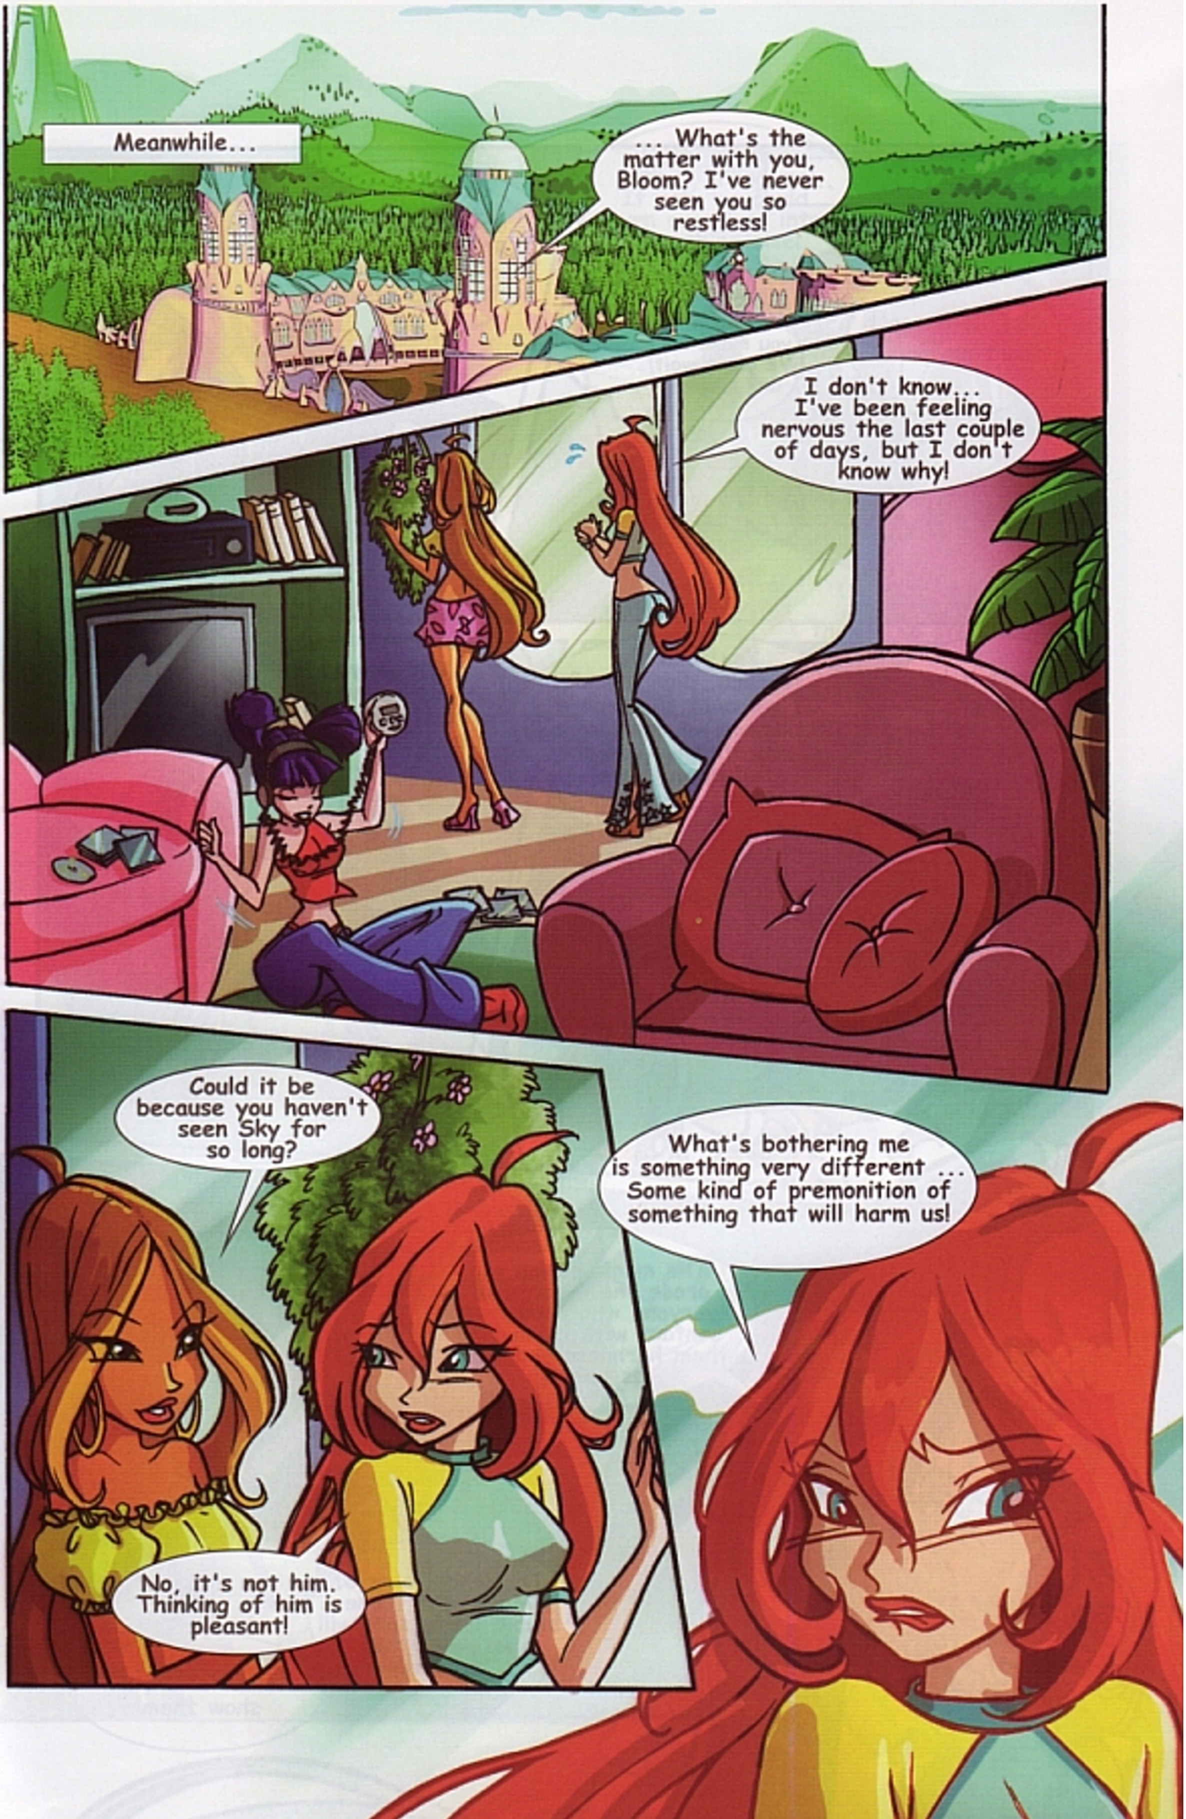
You took long enough! I thought you had abandoned me here!
It would have served you right! You're driving everyone crazy!
It's not my fault I broke my leg!
Well at least stop griping! Do you think I'm enjoying myself? We're eating disgusting plants and roots again this evening!
I found a MANDRAKE ROOT ! It will help heal your wound…or it will kill you!
Verrrrry funny!



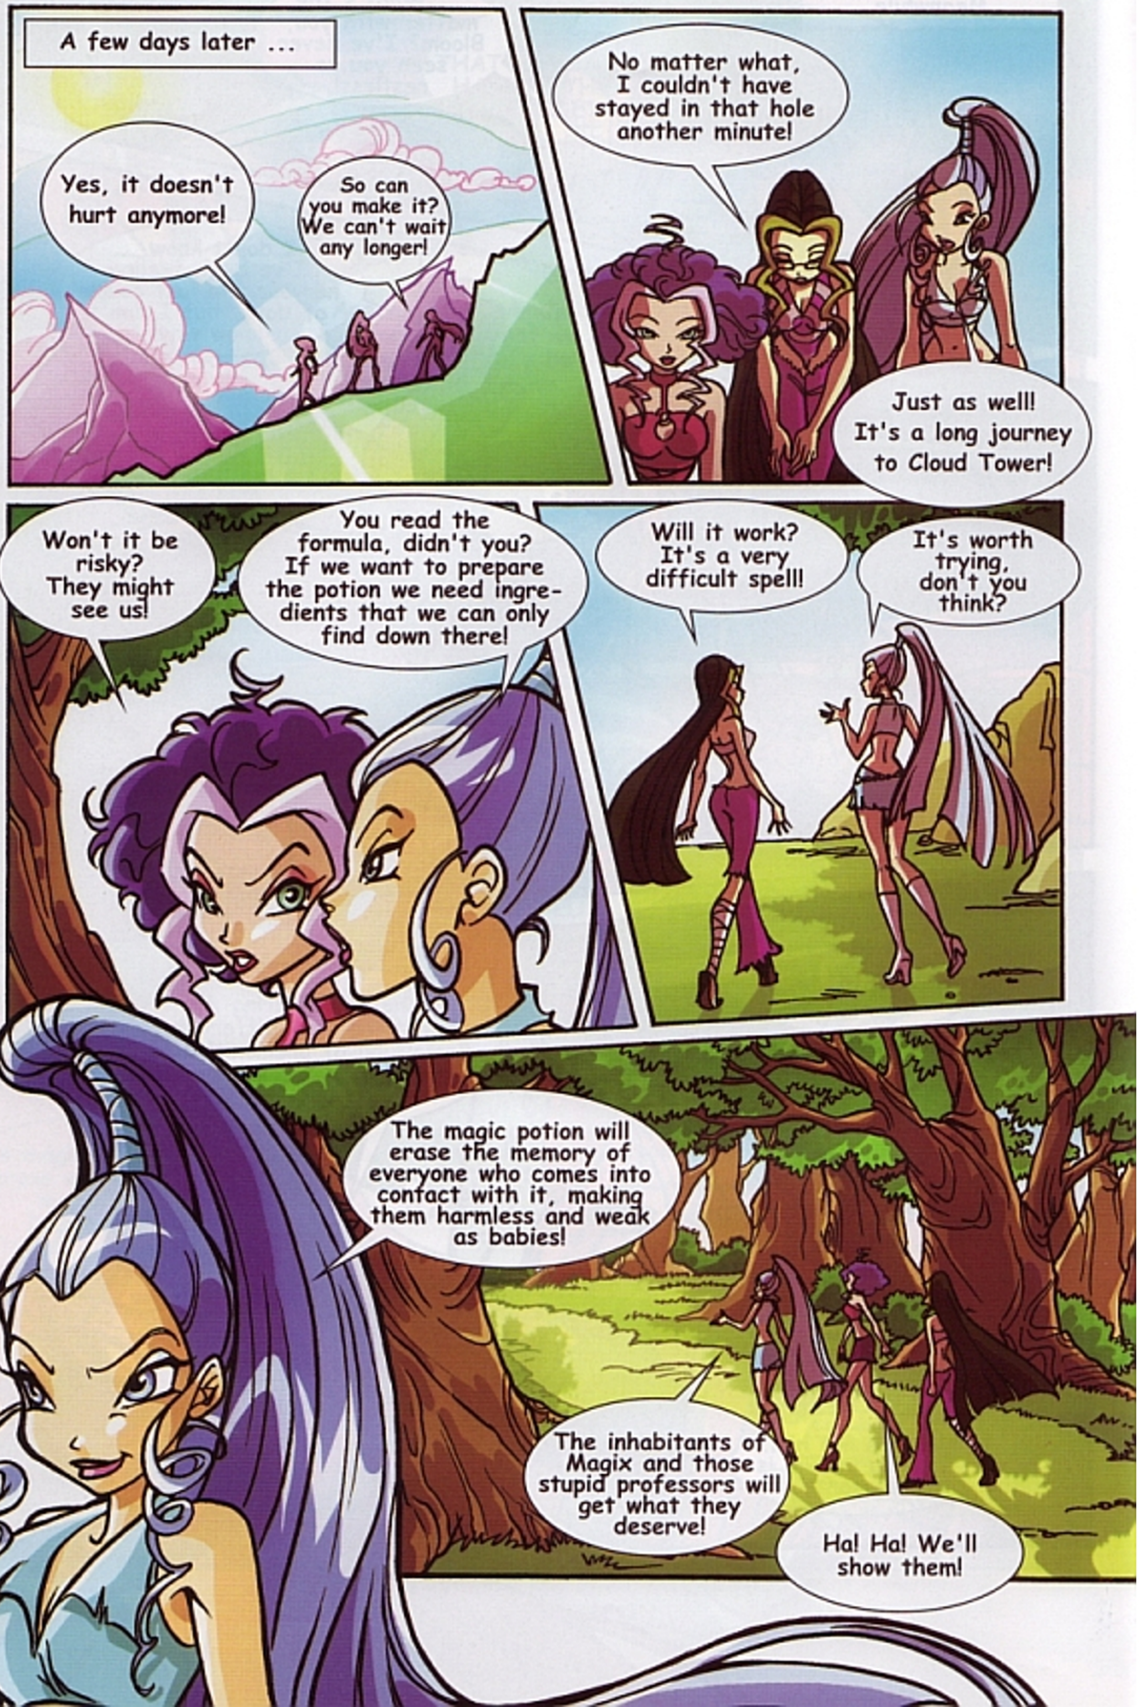
Never, I guess! What would happen if they saw us around?
When can we get out of here?
After what we did they'll never give us another chance! I will never return to the Fortress of Light! I would rather die!
But no one knows we are alive! We could continue to hide!
To live like beasts in a cave? That's absurd!
But how can we go back to that world? Everybody in Magix would have to forget who we are!
!!
What did you say?
What did I say?



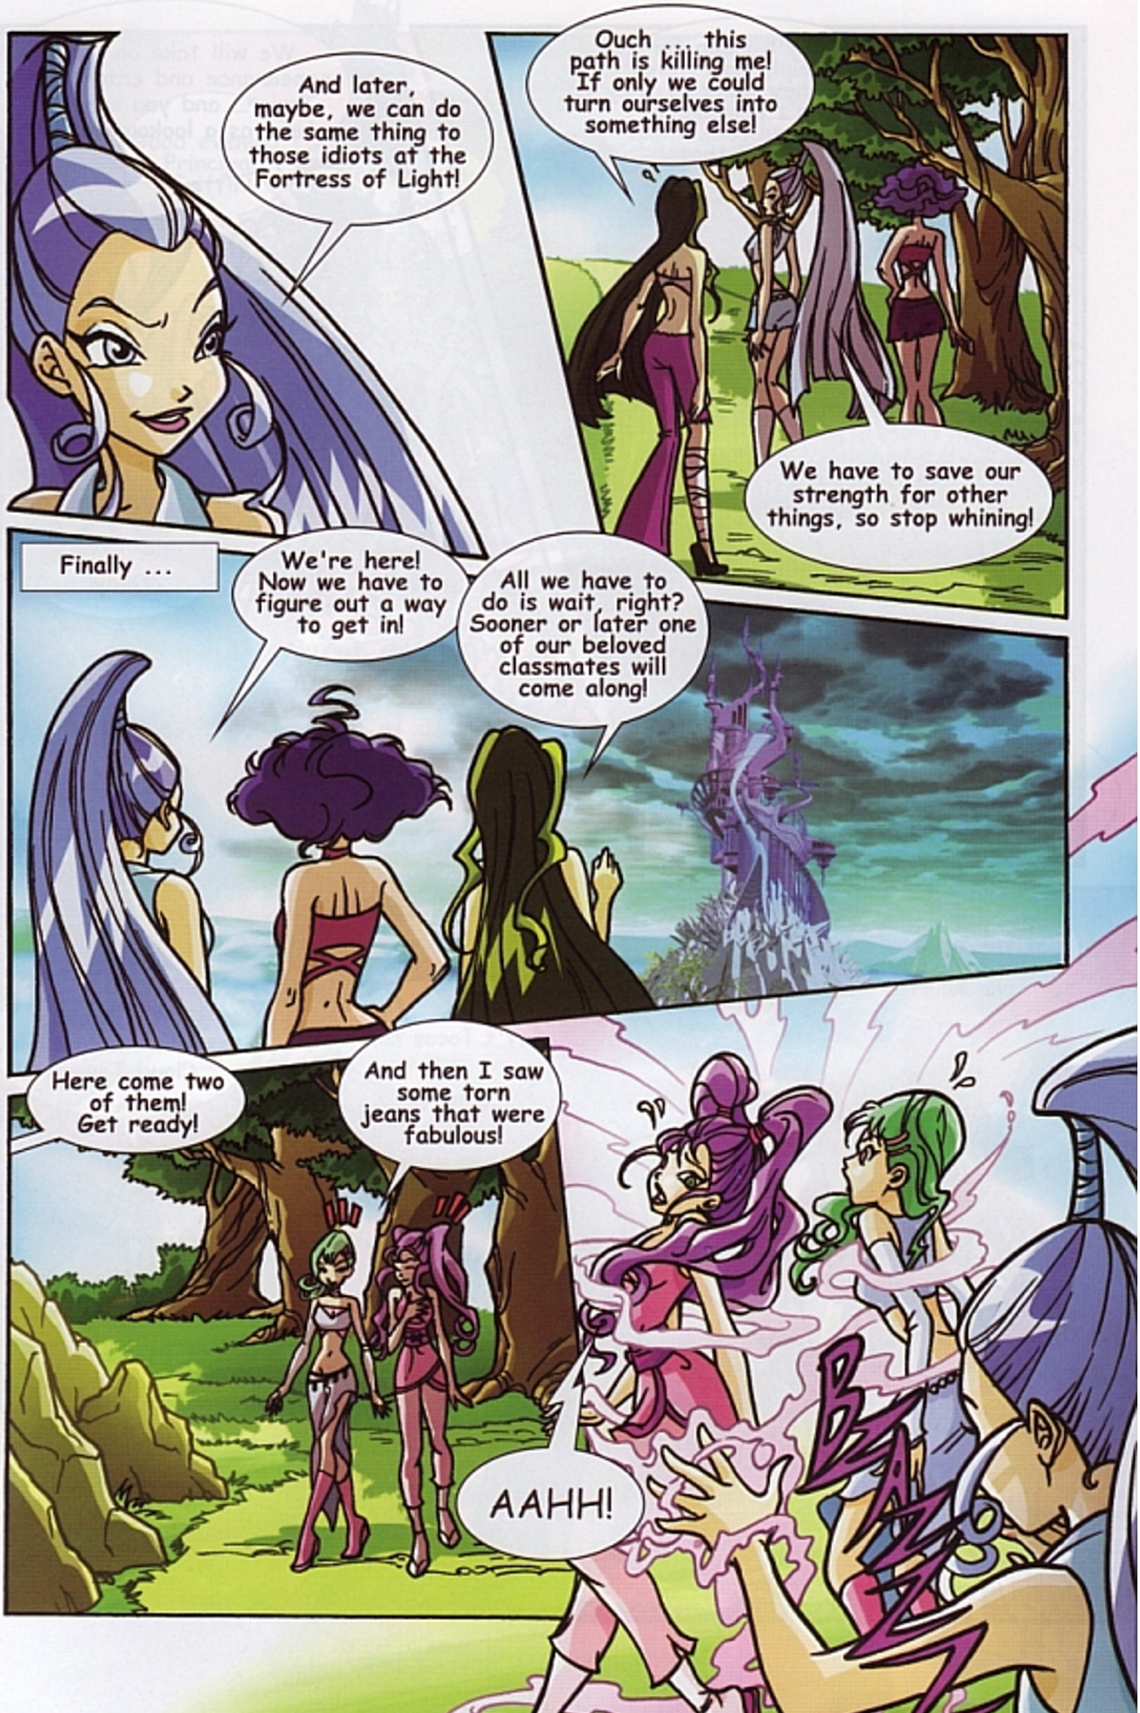
FORGET ... THAT'S WHAT HAS TO HAPPEN! THEY MUST FORGET US!
And when everybody has forgotten what we did, we will finally be able to live like we did before!
Huh?
But how can they forget? It would take years!
Not if we help them with the right MAGIC SPELL!
A magic spell to erase everyone's memory? Impossible!
That's what I thought, at first...
...But then you reminded me about this book, which I saved from Darkar's library! A volume on BLACK MAGIC, forgotten for centuries!
It seems there is something we can use here!



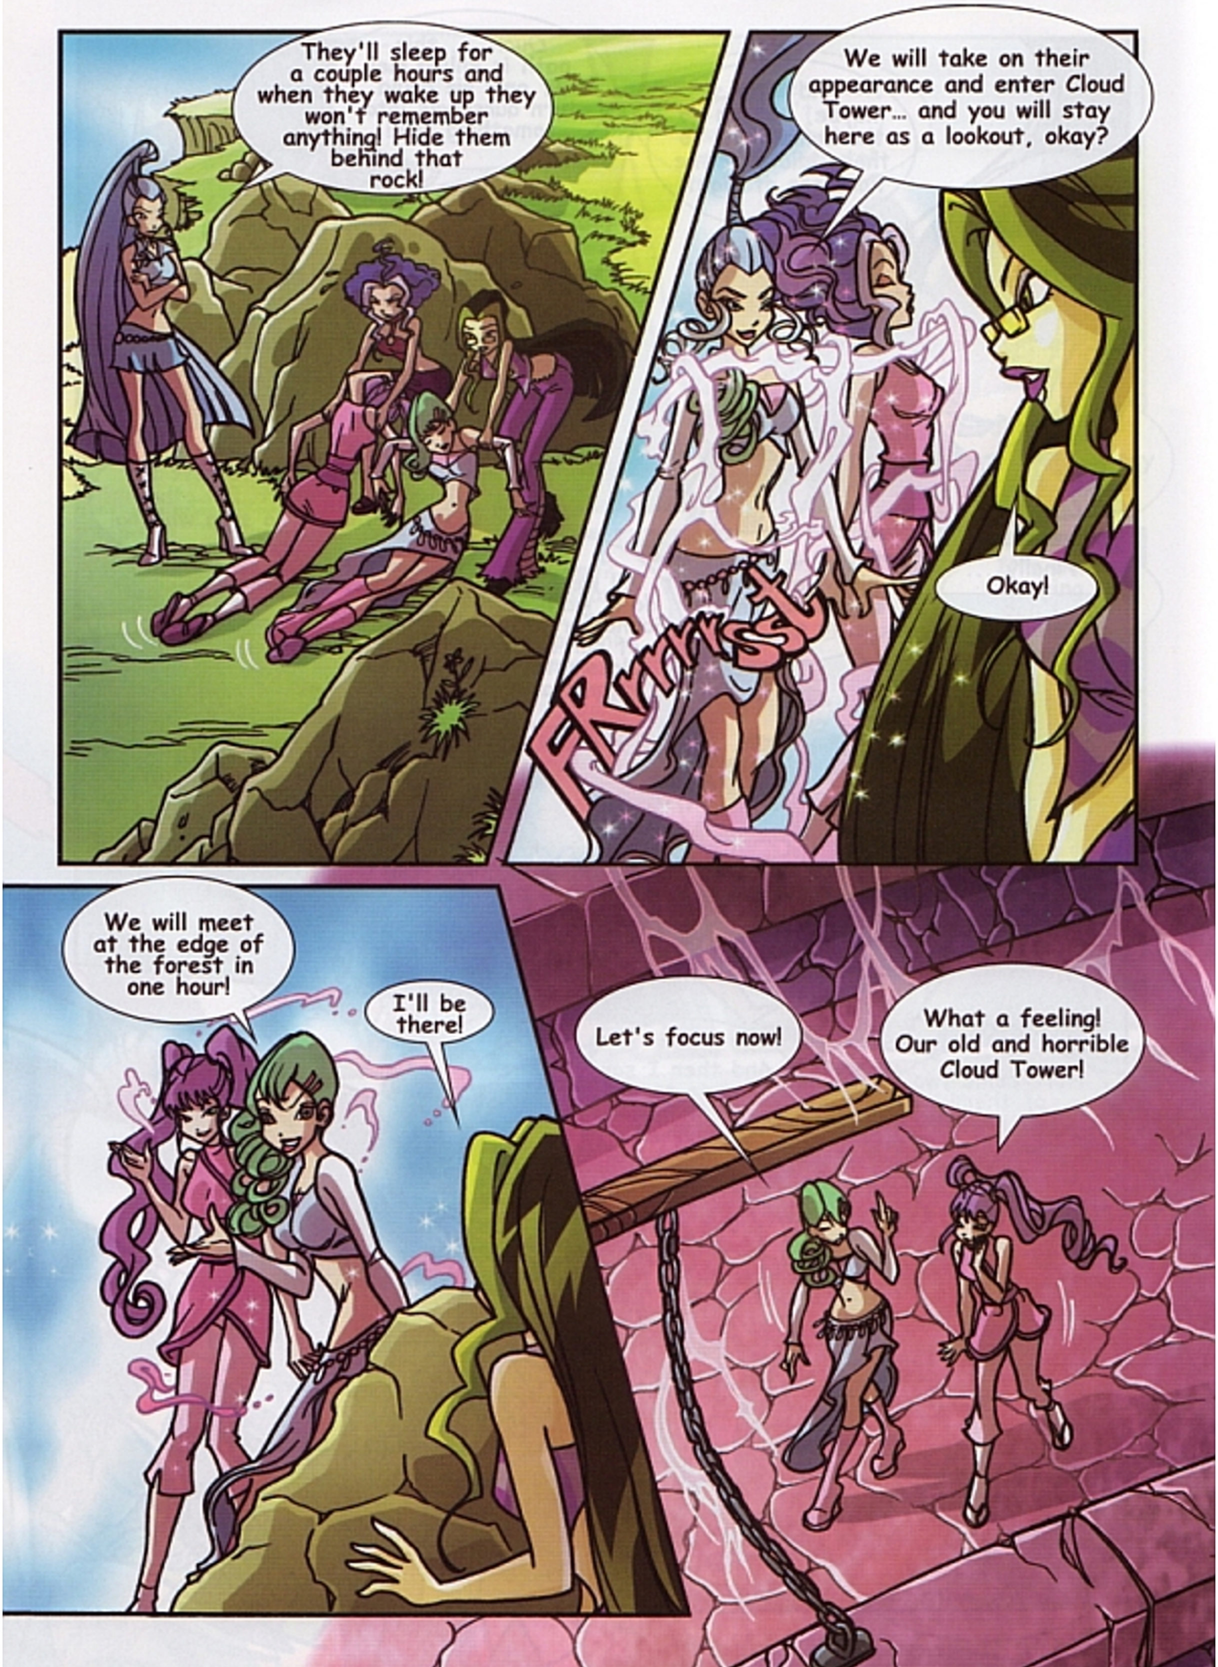
Meanwhile...
... What's the matter with you, Bloom? I've never seen you so restless!
I don't know... I've been feeling nervous the last couple of days, but I don't know why!
Could it be because you haven't seen Sky for so long?
No, it's not him. Thinking of him is pleasant!
What's bothering me is something very different ... Some kind of premonition of something that will harm us!



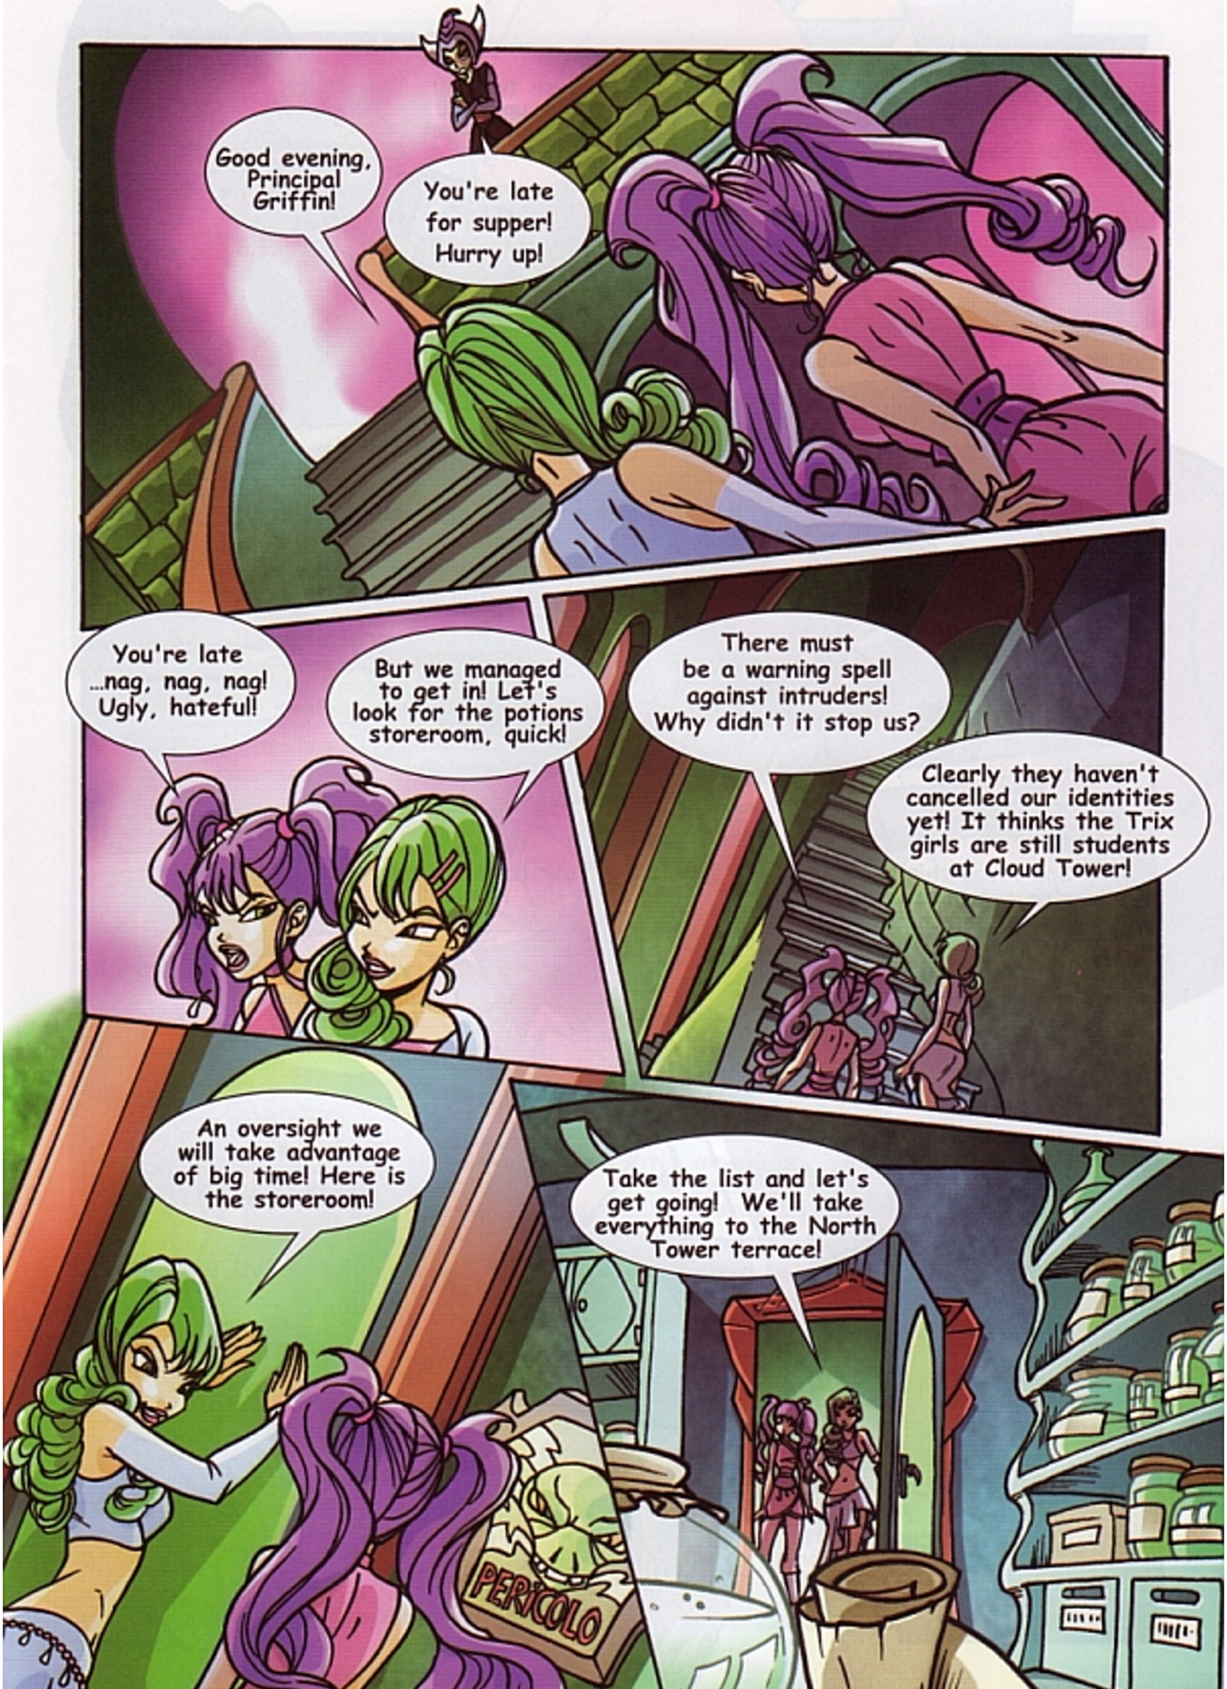
A few days later ...
Yes, it doesn't hurt anymore!
So can you make it? We can't wait any longer!
No matter what, I couldn't have stayed in that hole another minute!
Just as well! It's a long journey to Cloud Tower!
Won't it be risky? They might see us!
You read the formula, didn't you? If we want to prepare the potion we need ingredients that we can only find down there!
Will it work? It's a very difficult spell!
It's worth trying, don't you think?
The magic potion will erase the memory of everyone who comes into contact with it, making them harmless and weak as babies!
The inhabitants of Magix and those stupid professors will get what they deserve!
Ha! Ha! We'll show them!



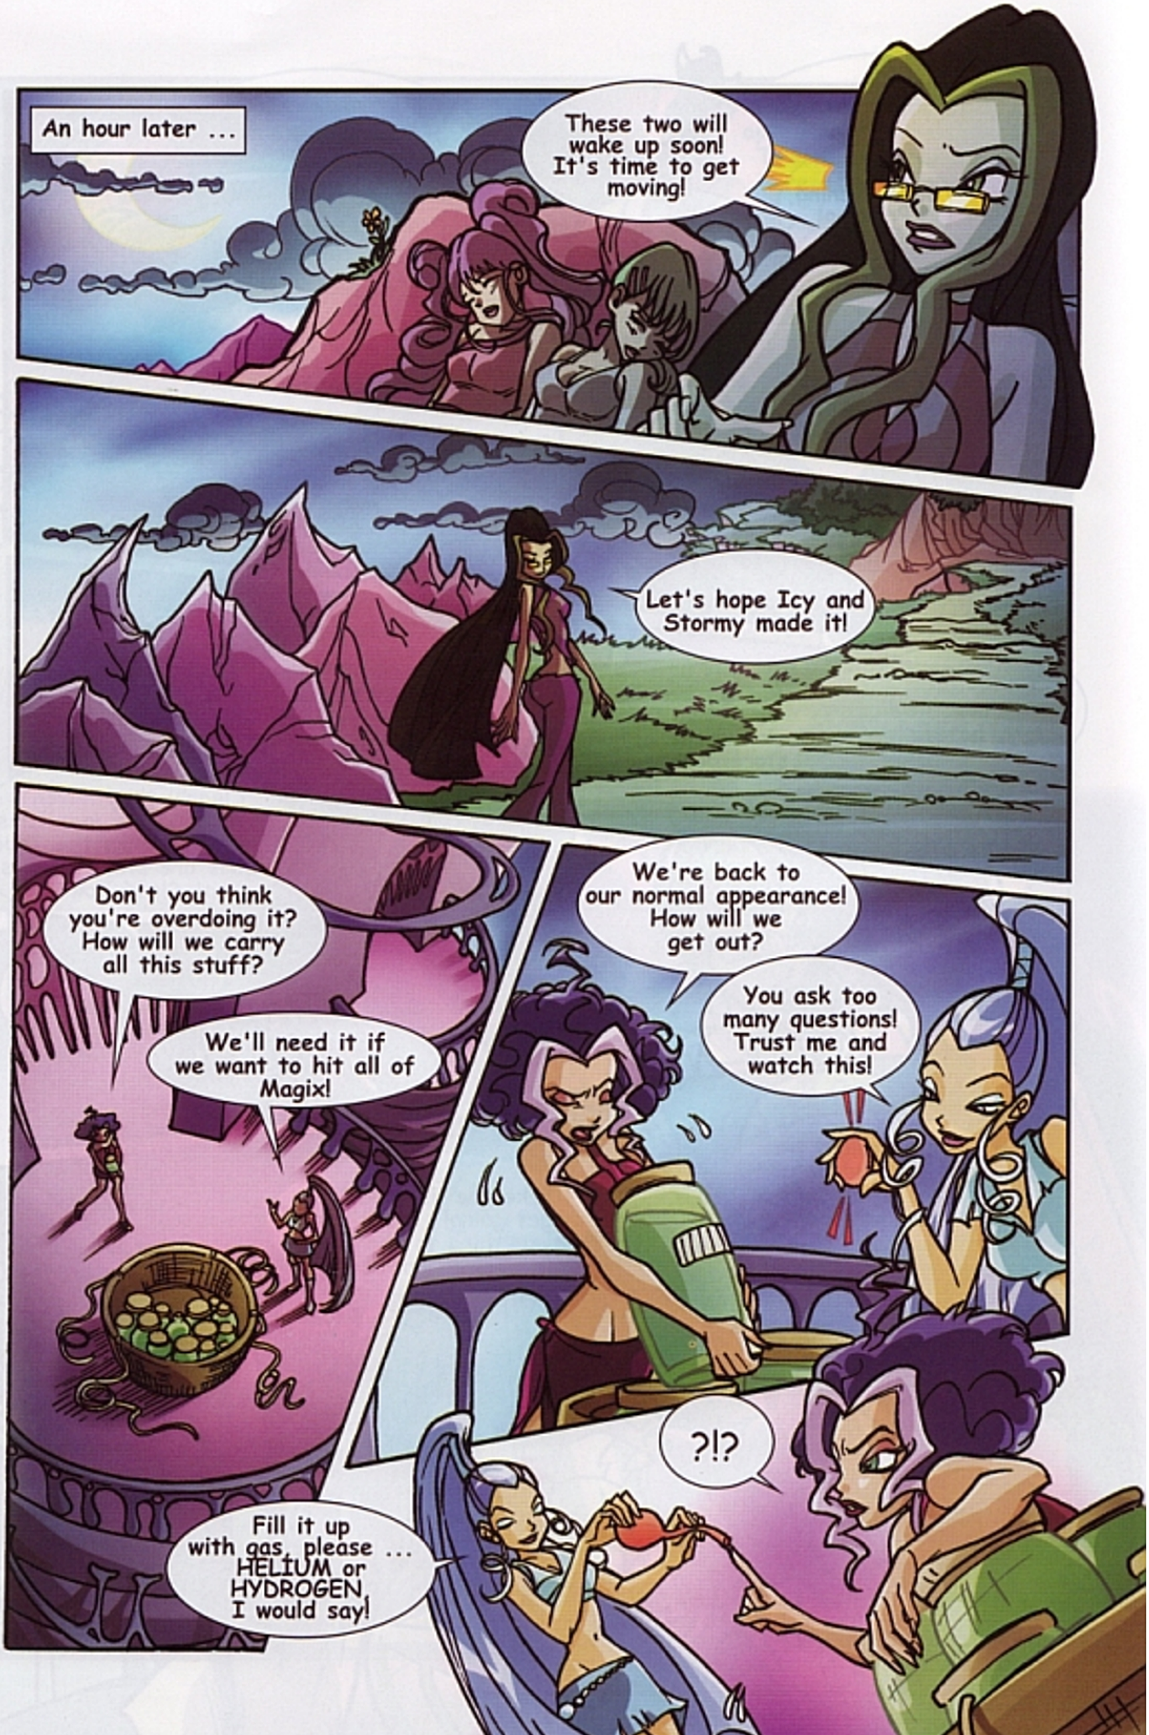
And later, maybe, we can do the same thing to those idiots at the Fortress of Light!
Ouch ... this path is killing me! If only we could turn ourselves into something else!
We have to save our strength for other things, so stop whining!
Finally ...
We're here! Now we have to figure out a way to get in!
All we have to do is wait, right? Sooner or later one of our beloved classmates will come along!
Here come two of them! Get ready!
And then I saw some torn jeans that were fabulous!
AAHH!



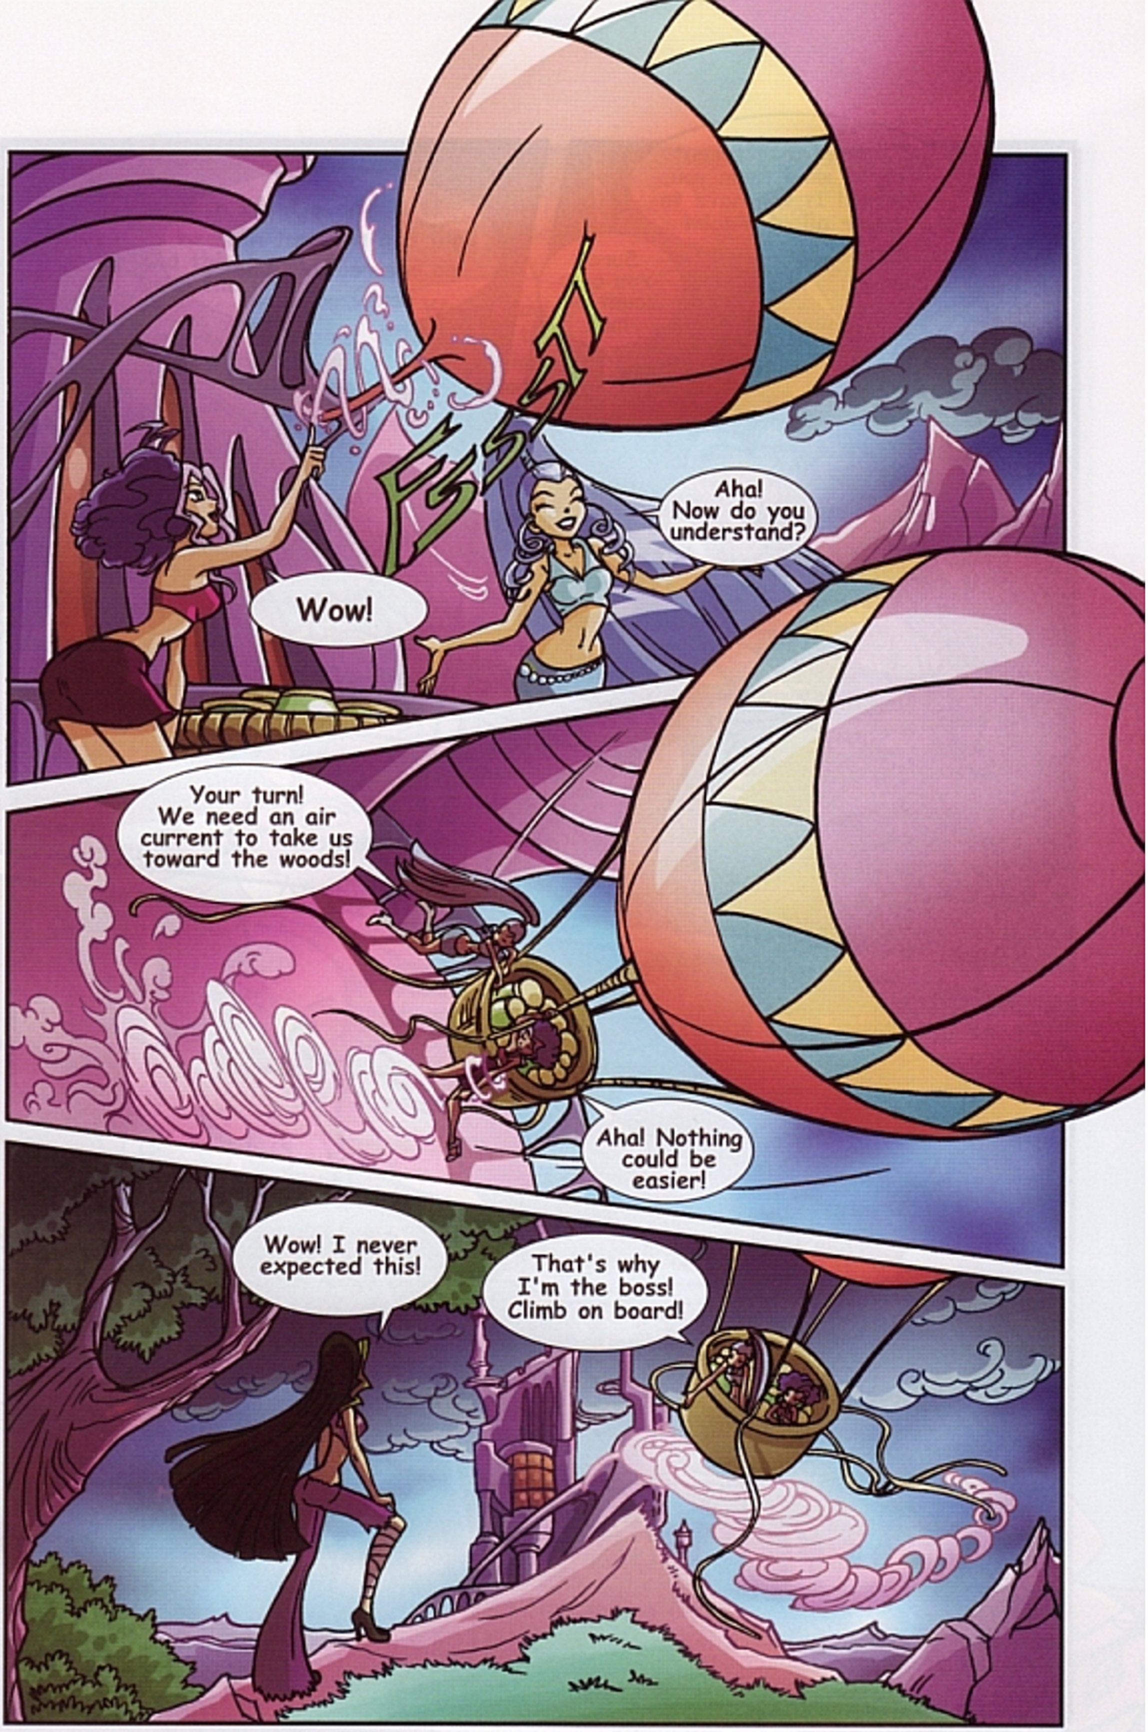
They'll sleep for a couple hours and when they wake up they won't remember anything! Hide them behind that rock!
We will take on their appearance and enter Cloud Tower... and you will stay here as a lookout, okay?
FRrrrsst
Okay!
We will meet at the edge of the forest in one hour!
I'll be there!
Let's focus now!
What a feeling! Our old and horrible Cloud Tower!



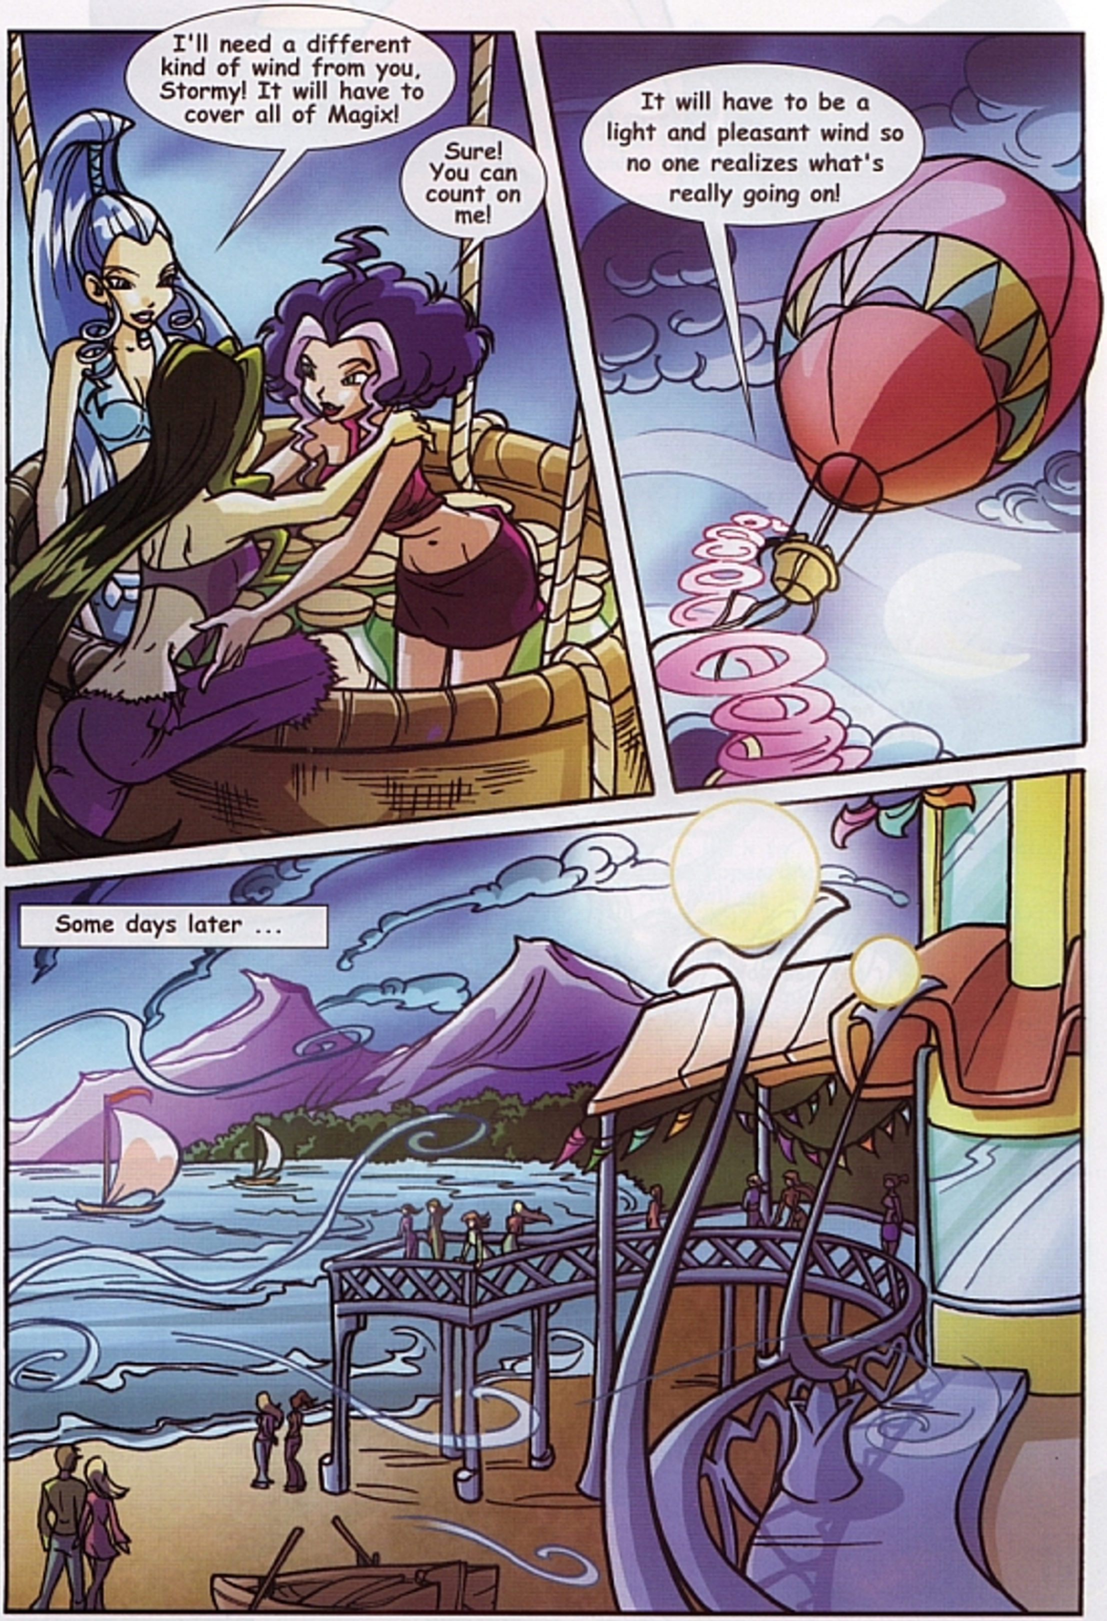
Good evening, Principal Griffin!
You're late for supper! Hurry up!
You're late ...nag, nag, nag! Ugly, hateful!
But we managed to get in! Let's look for the potions storeroom, quick!
There must be a warning spell against intruders! Why didn't it stop us?
Clearly they haven't cancelled our identities yet! It thinks the Trix girls are still students at Cloud Tower!
An oversight we will take advantage of big time! Here is the storeroom!
PERICOLO
Take the list and let's get going! We'll take everything to the North Tower terrace!



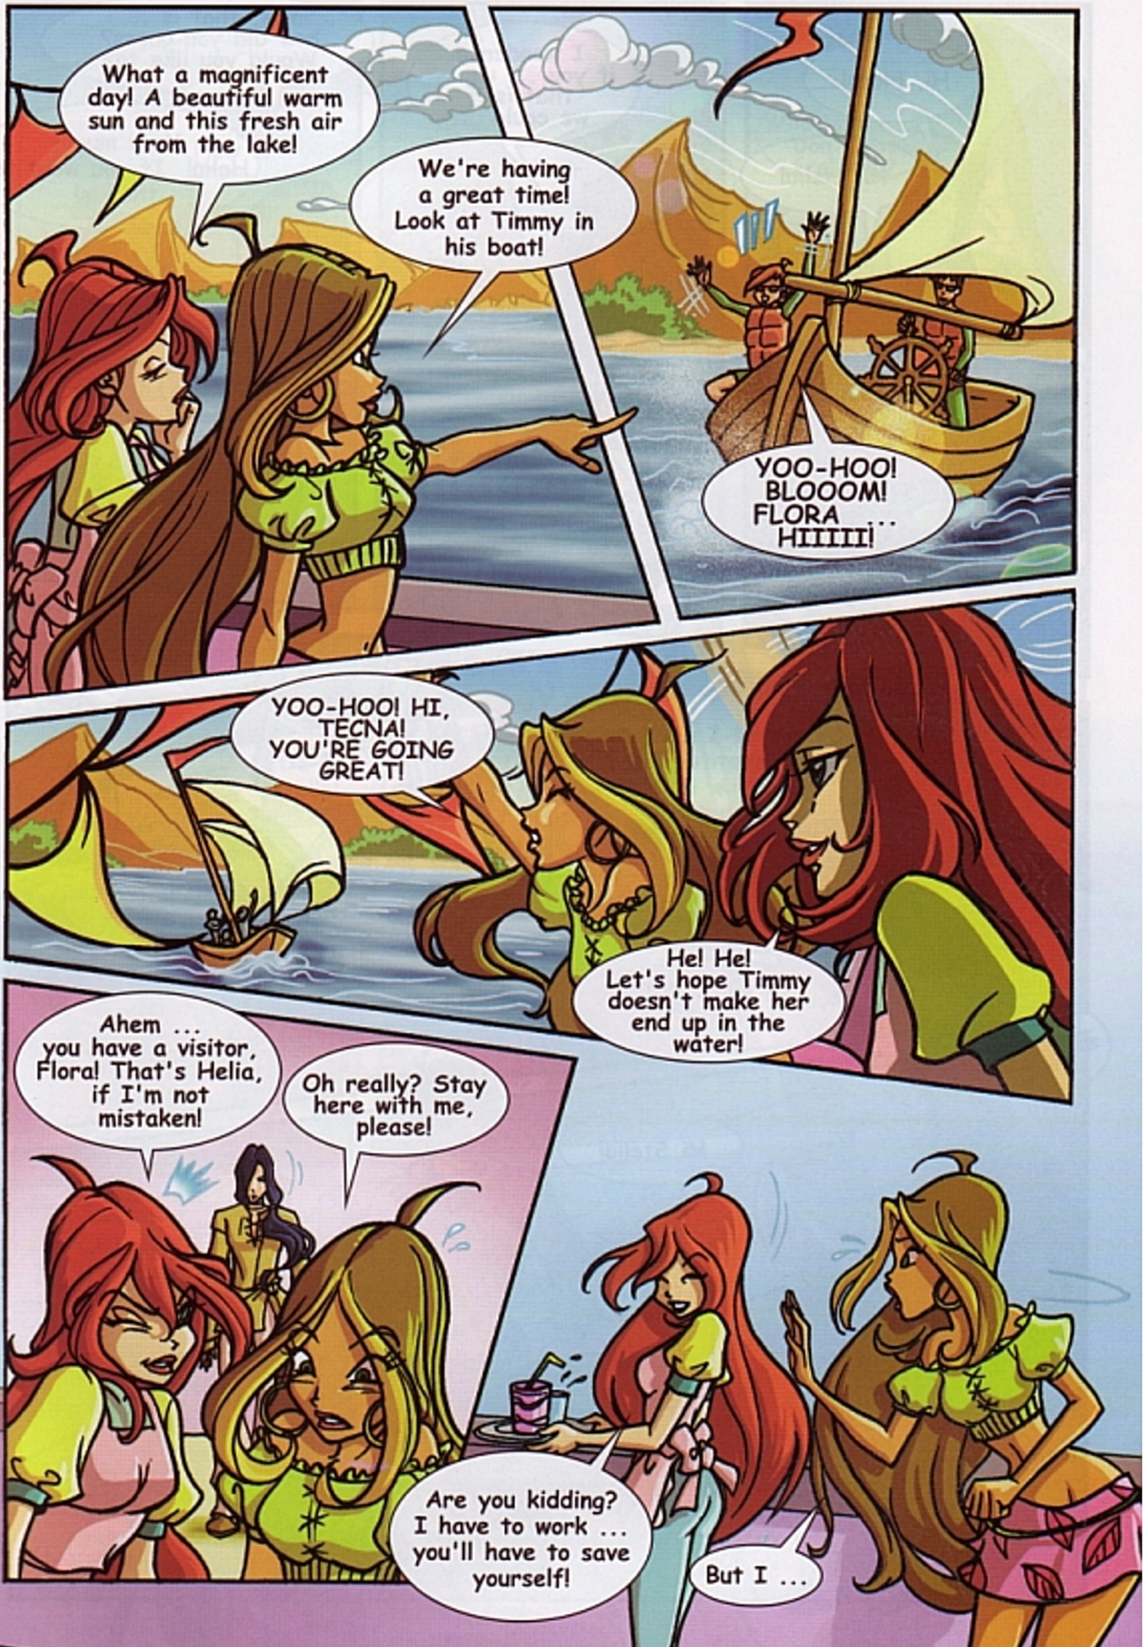
An hour later ...
These two will wake up soon! It's time to get moving!
Let's hope Icy and Stormy made it!
Don't you think you're overdoing it? How will we carry all this stuff?
We'll need it if we want to hit all of Magix!
We're back to our normal appearance! How will we get out?
You ask too many questions! Trust me and watch this!
?!?
Fill it up with gas, please ... HELIUM or HYDROGEN, I would say!



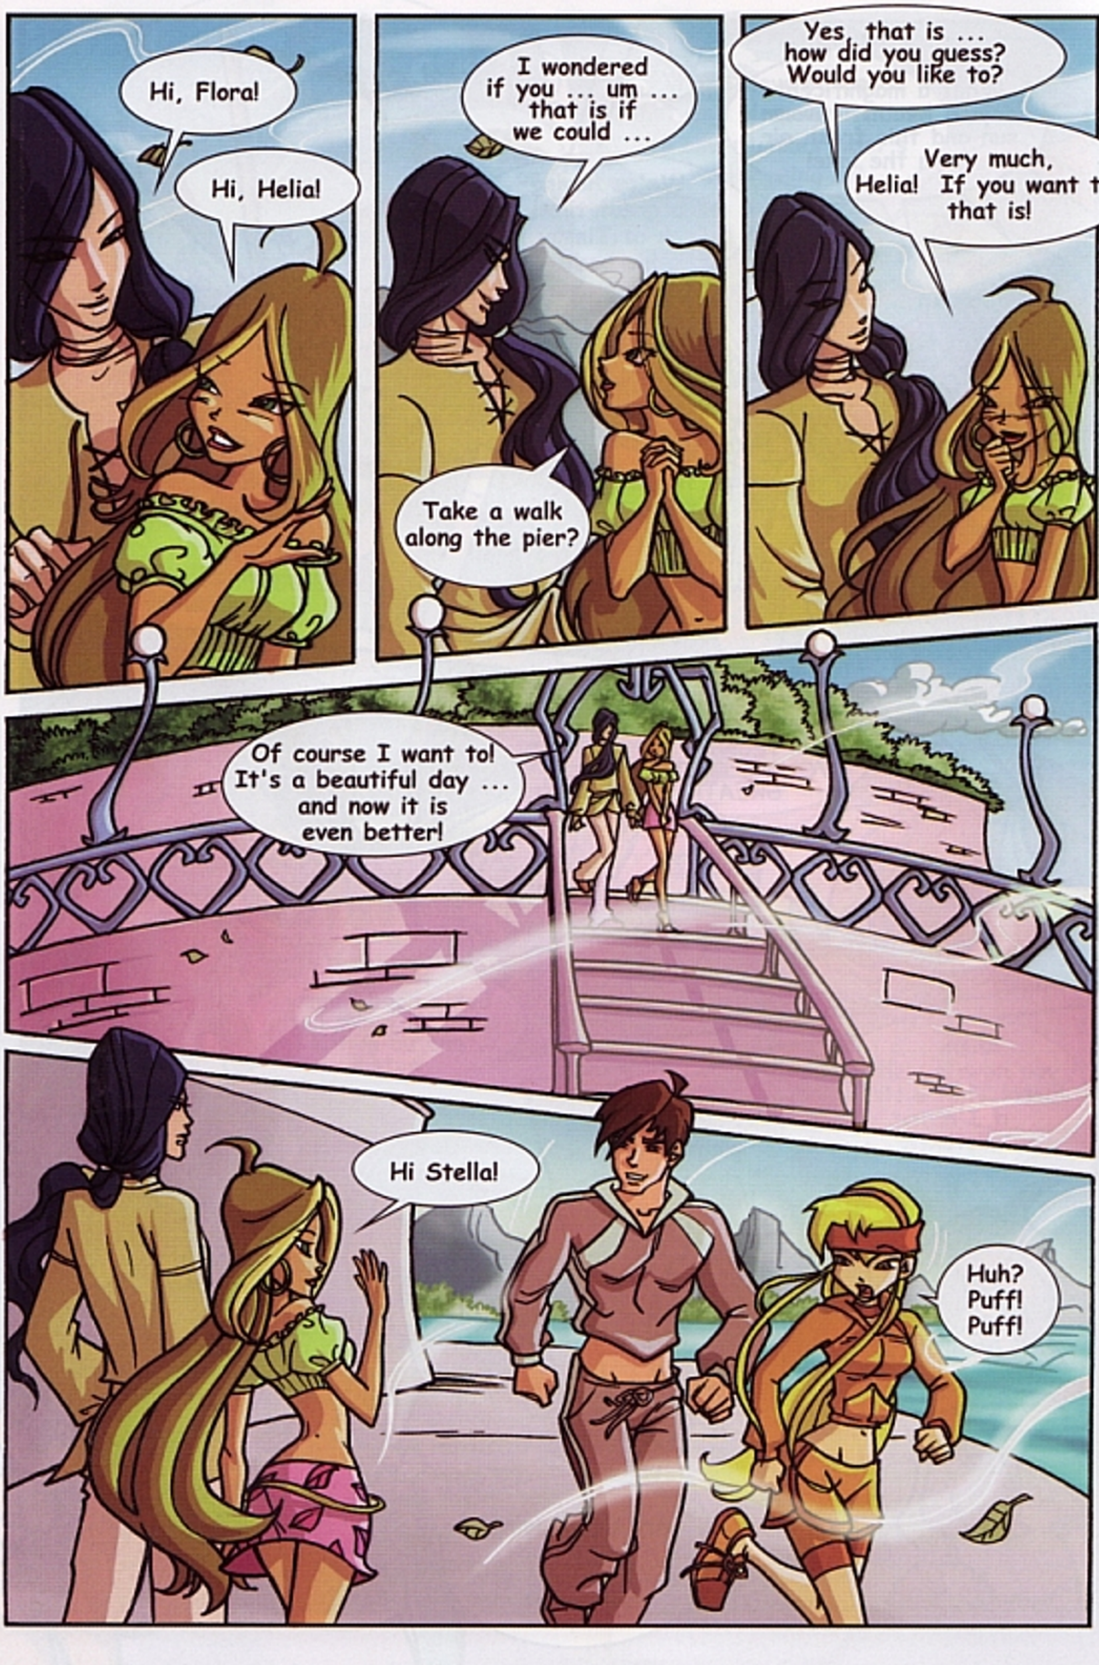
FSSTT
Aha!
Now do you
understand?
Wow!
Your turn!
We need an air
current to take us
toward the woods!
Aha! Nothing
could be
easier!
Wow! I never
expected this!
That's why
I'm the boss!
Climb on board!



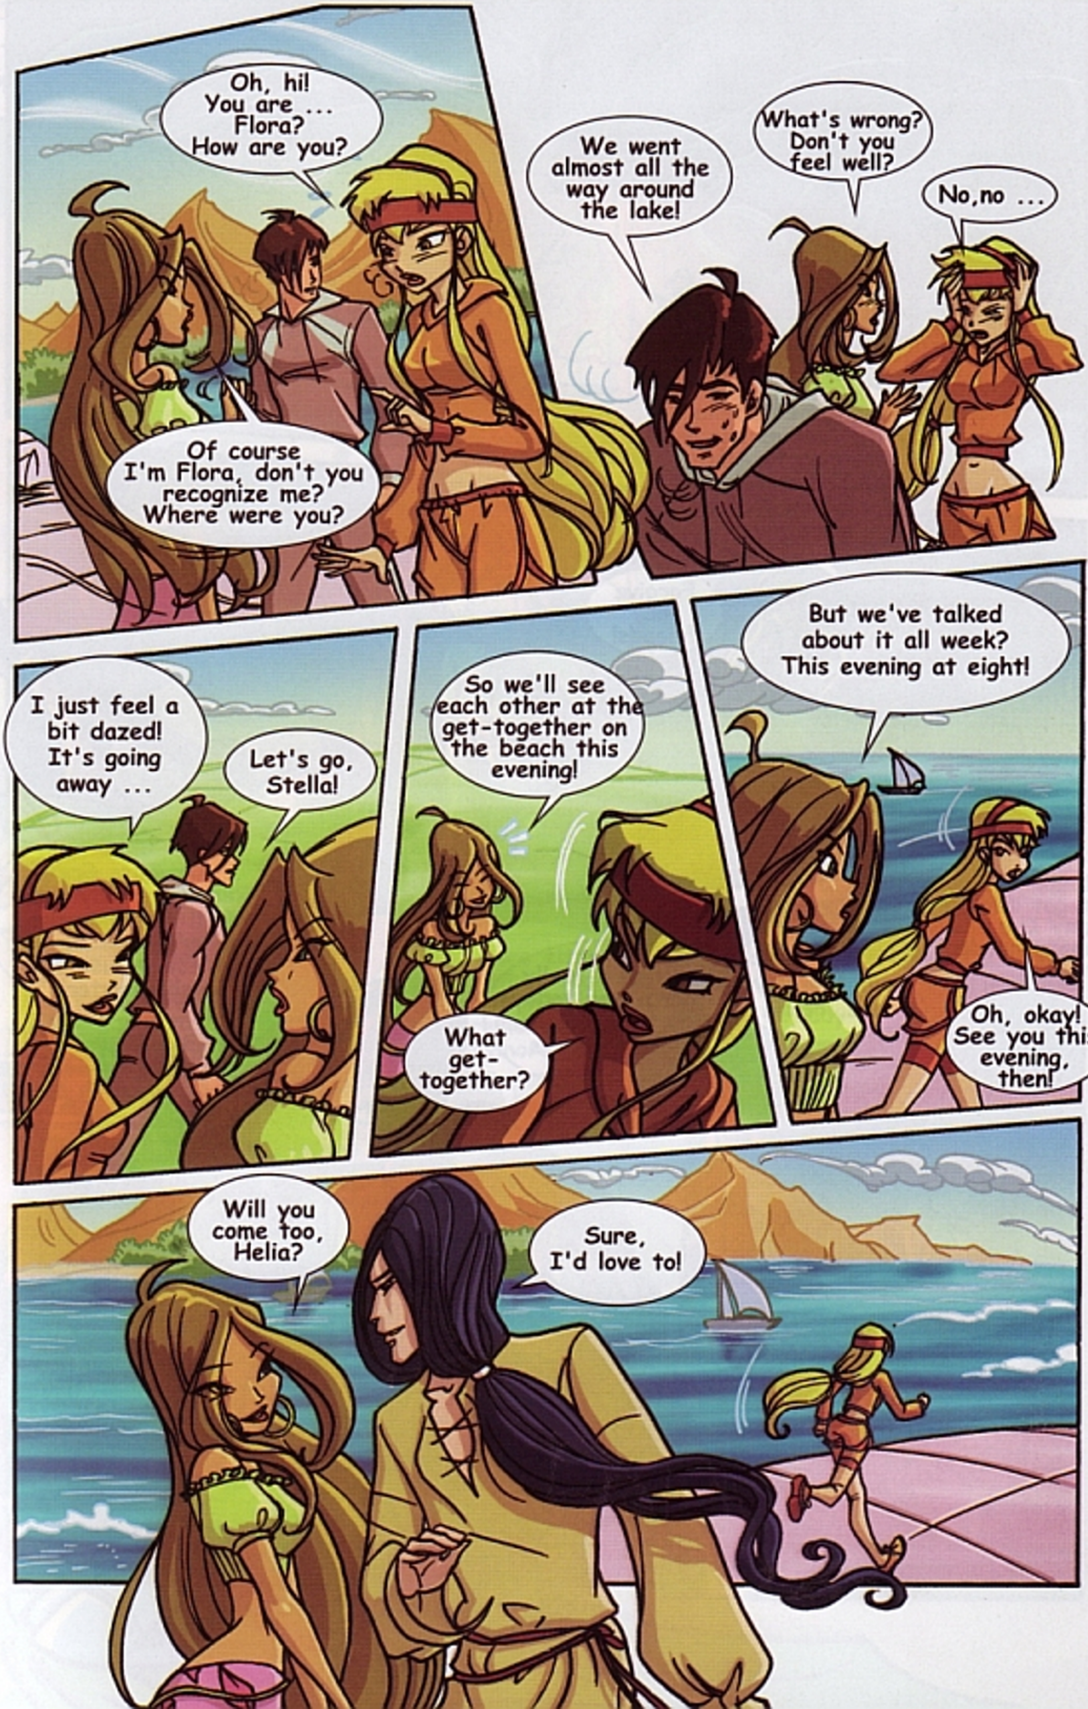
I'll need a different kind of wind from you, Stormy! It will have to cover all of Magix!
Sure! You can count on me!
It will have to be a light and pleasant wind so no one realizes what's really going on!
Some days later ...



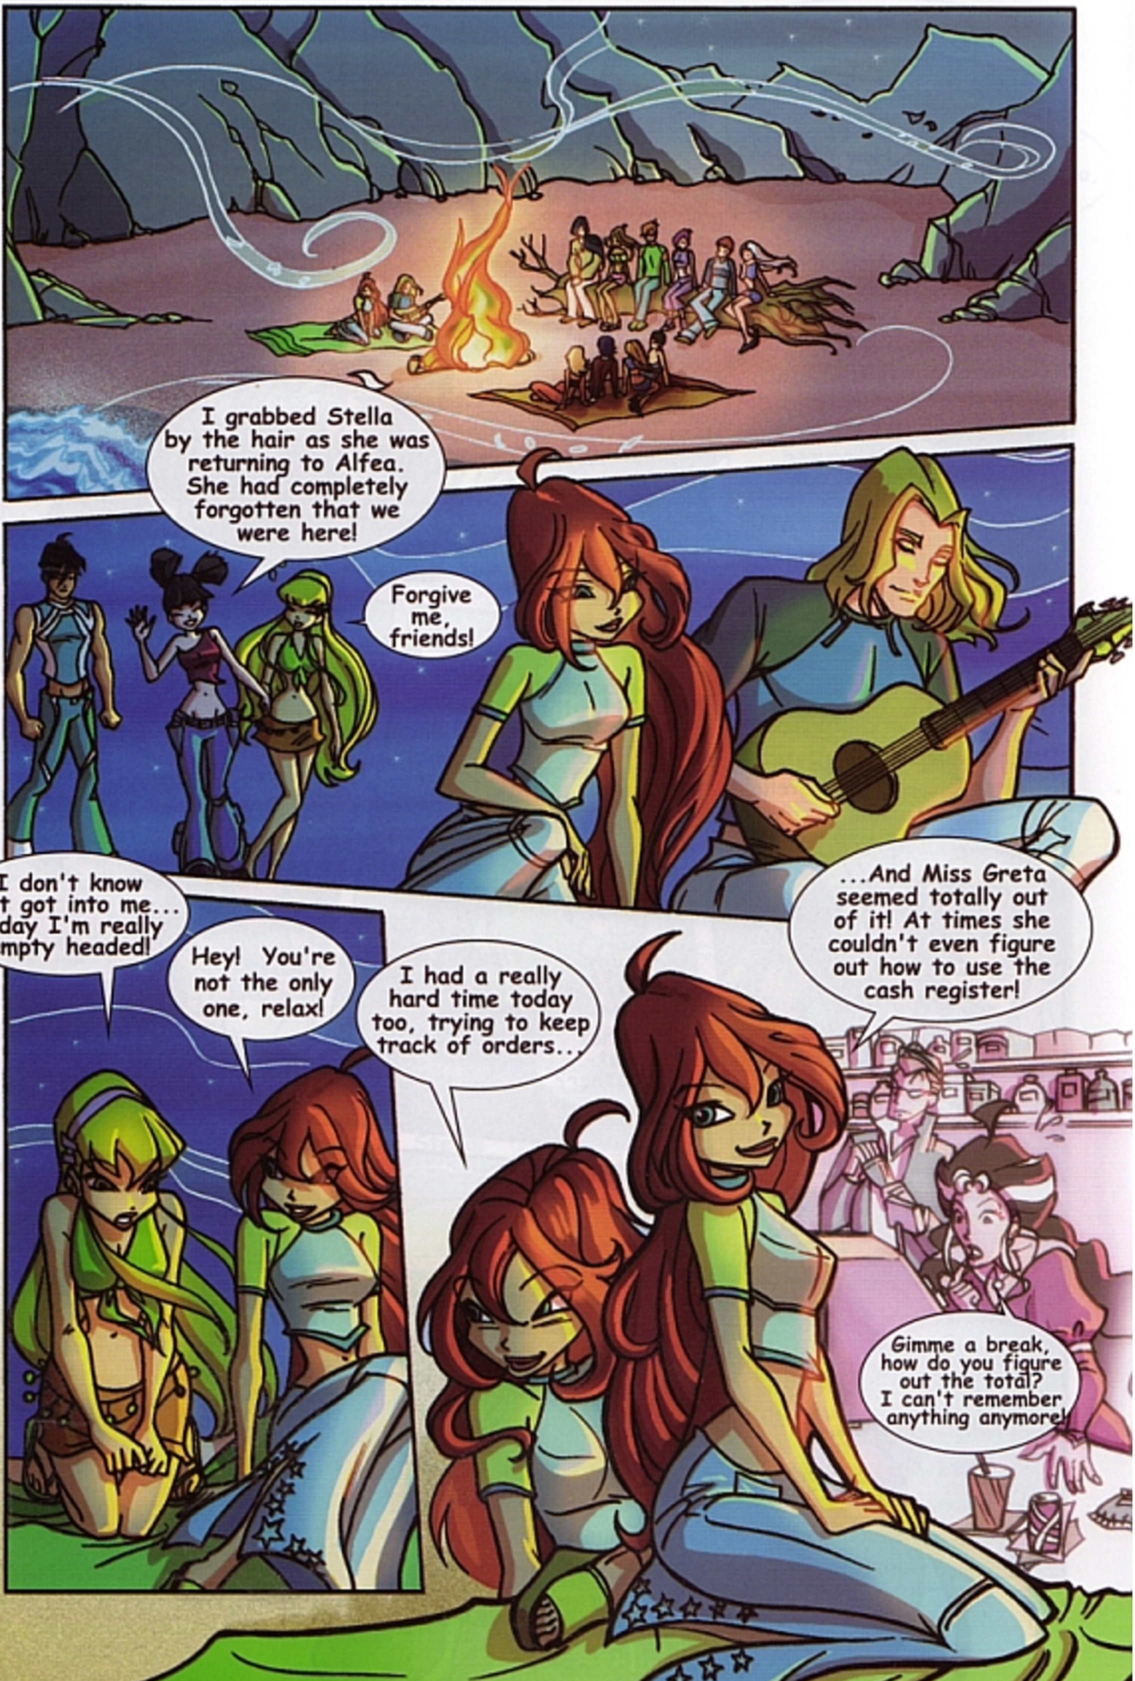
What a magnificent day! A beautiful warm sun and this fresh air from the lake!
We're having a great time! Look at Timmy in his boat!
YOO-HOO! BLOOOM! FLORA ... HIIIII!
YOO-HOO! HI, TECNA! YOU'RE GOING GREAT!
He! He! Let's hope Timmy doesn't make her end up in the water!
Ahem ... you have a visitor, Flora! That's Helia, if I'm not mistaken!
Oh really? Stay here with me, please!
Are you kidding? I have to work ... you'll have to save yourself!
But I ...



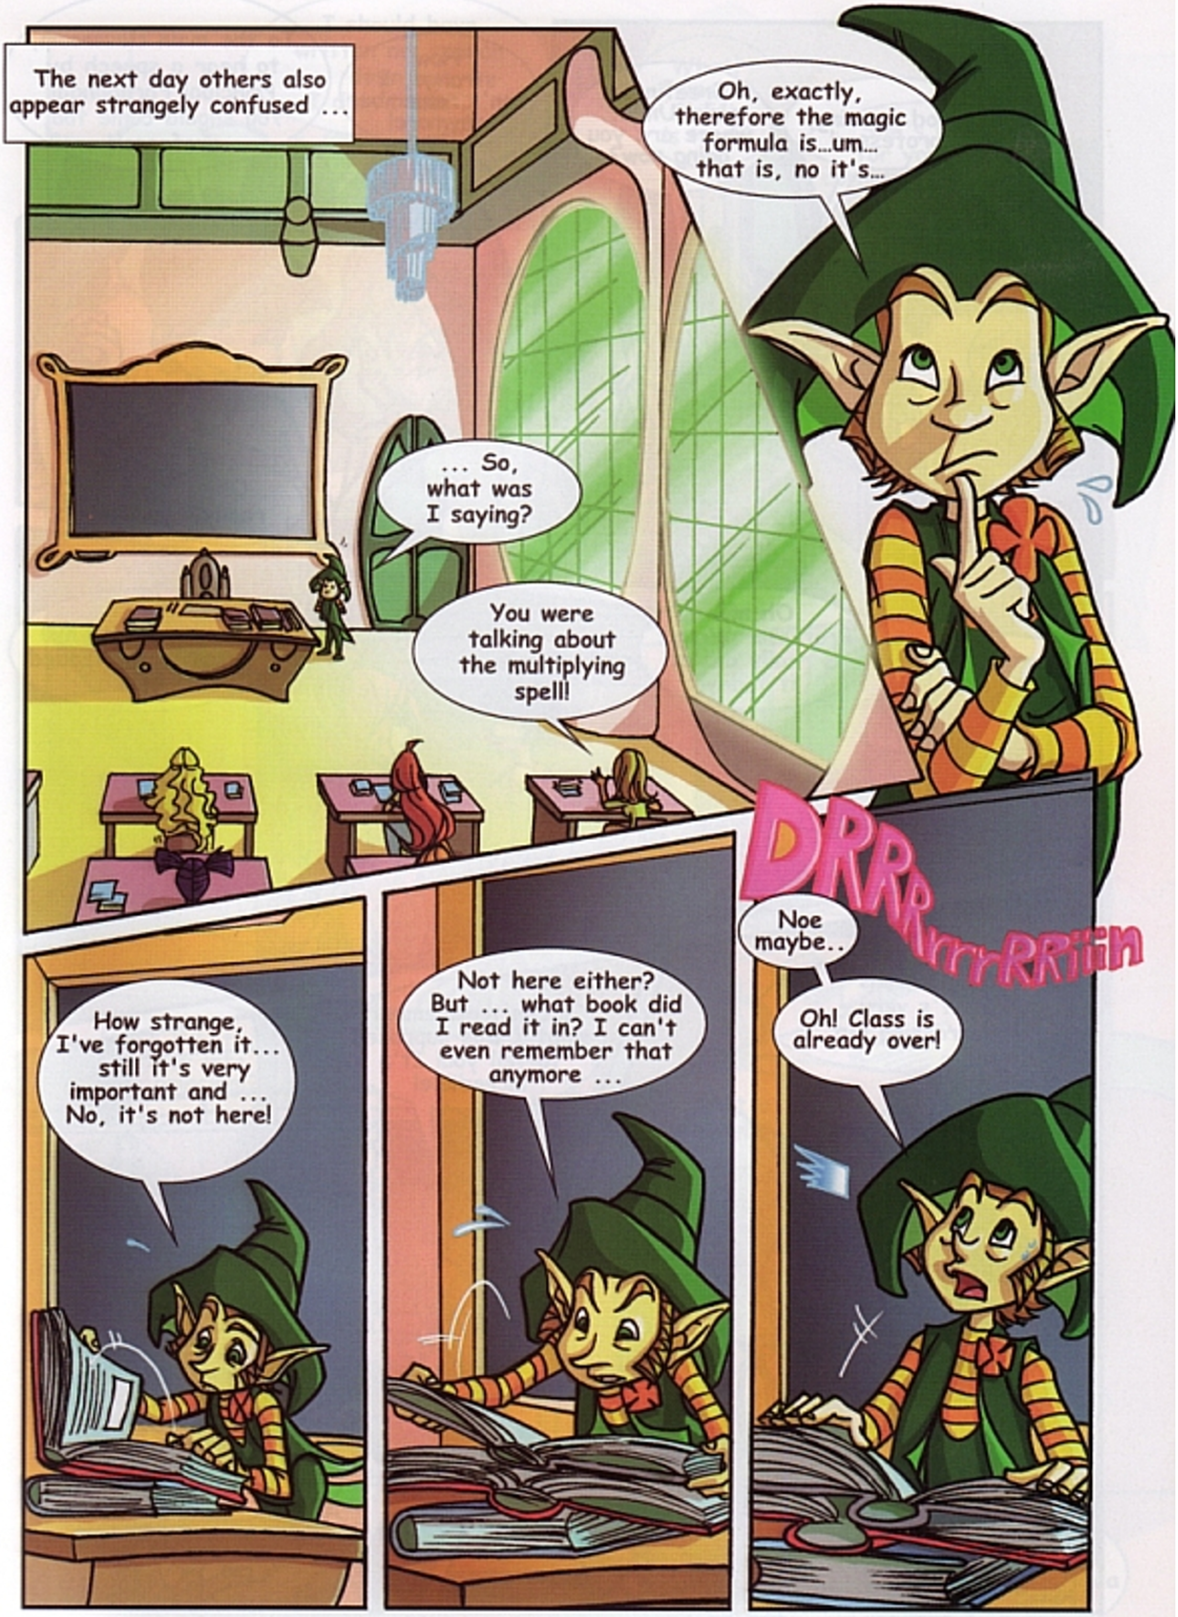
Hi, Flora!
Hi, Helia!
I wondered if you ... um ... that is if we could ...
Take a walk along the pier?
Yes, that is ... how did you guess? Would you like to?
Very much, Helia! If you want to, that is!
Of course I want to! It's a beautiful day ... and now it is even better!
Hi Stella!
Huh? Puff! Puff!



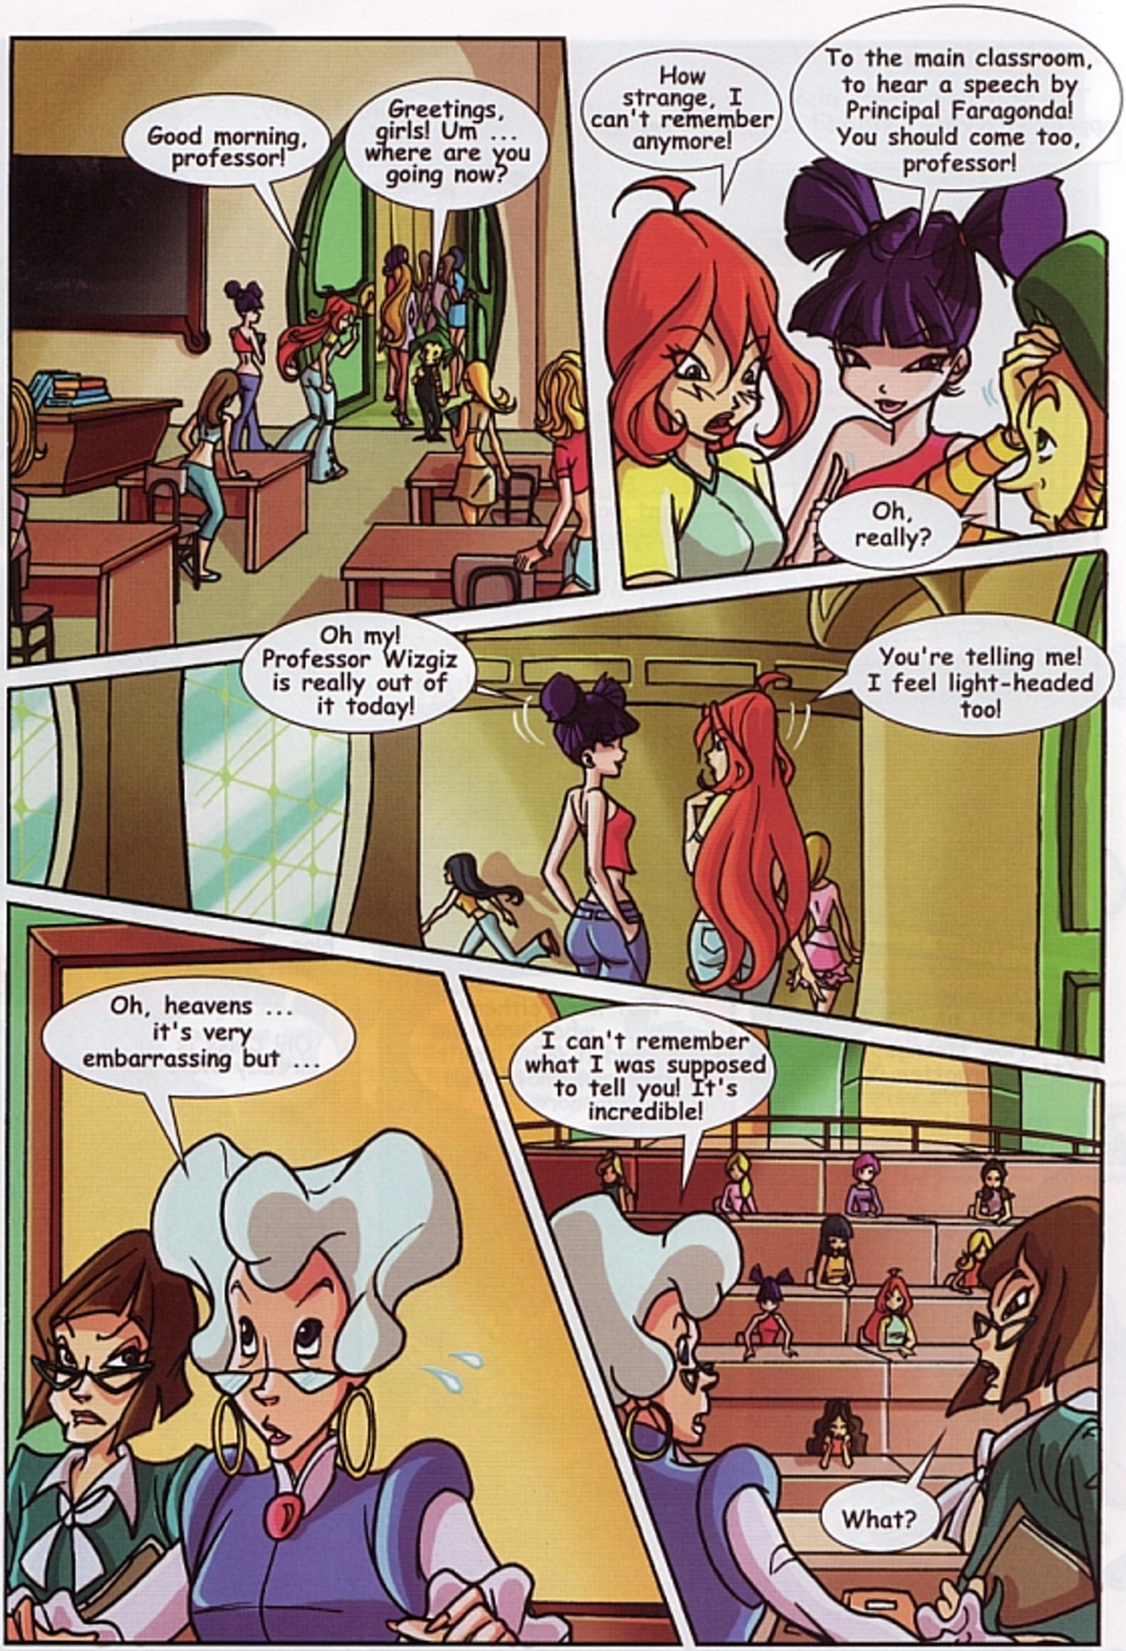
Oh, hi! You are ... Flora? How are you?
Of course I'm Flora, don't you recognize me? Where were you?
We went almost all the way around the lake!
What's wrong? Don't you feel well?
No,no ...
I just feel a bit dazed! It's going away ...
Let's go, Stella!
So we'll see each other at the get-together on the beach this evening!
What get-together?
But we've talked about it all week? This evening at eight!
Oh, okay! See you this evening, then!
Will you come too, Helia?
Sure, I'd love to!



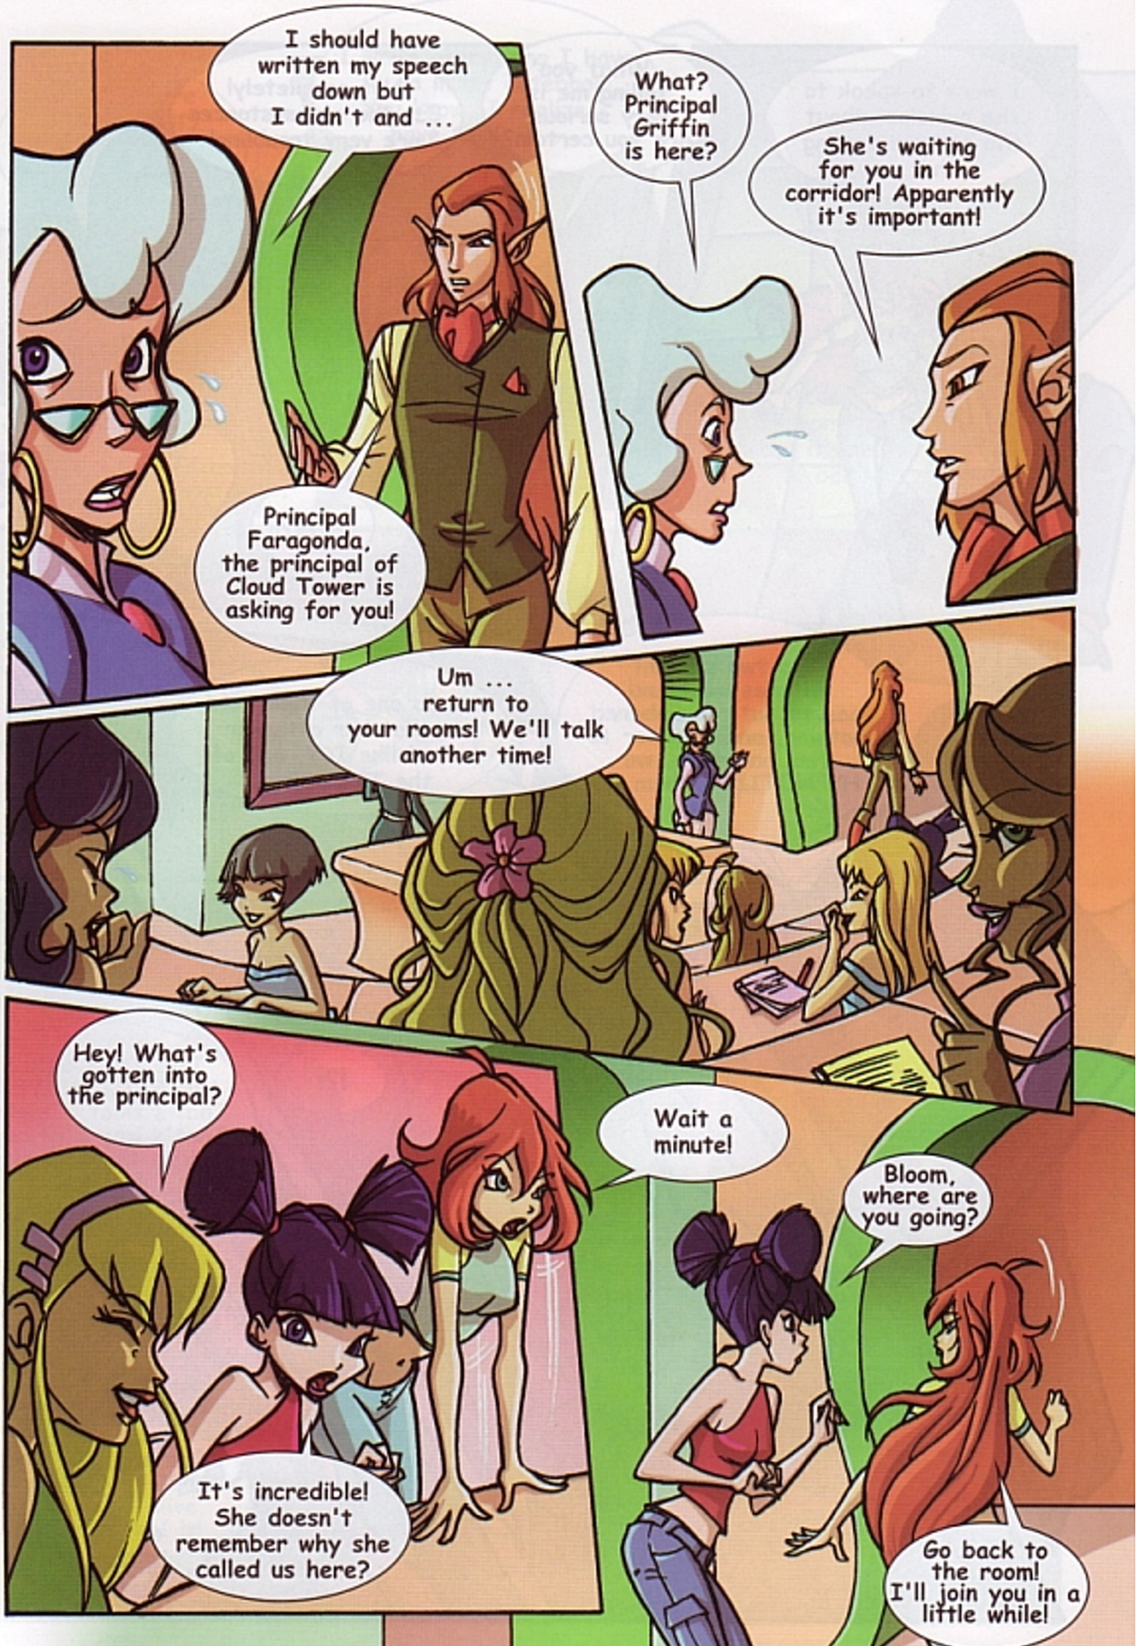
I grabbed Stella by the hair as she was returning to Alfea. She had completely forgotten that we were here!
Forgive me, friends!
I don't know what got into me... today I'm really empty headed!
Hey! You're not the only one, relax!
I had a really hard time today too, trying to keep track of orders...
...And Miss Greta seemed totally out of it! At times she couldn't even figure out how to use the cash register!
Gimme a break, how do you figure out the total? I can't remember anything anymore!



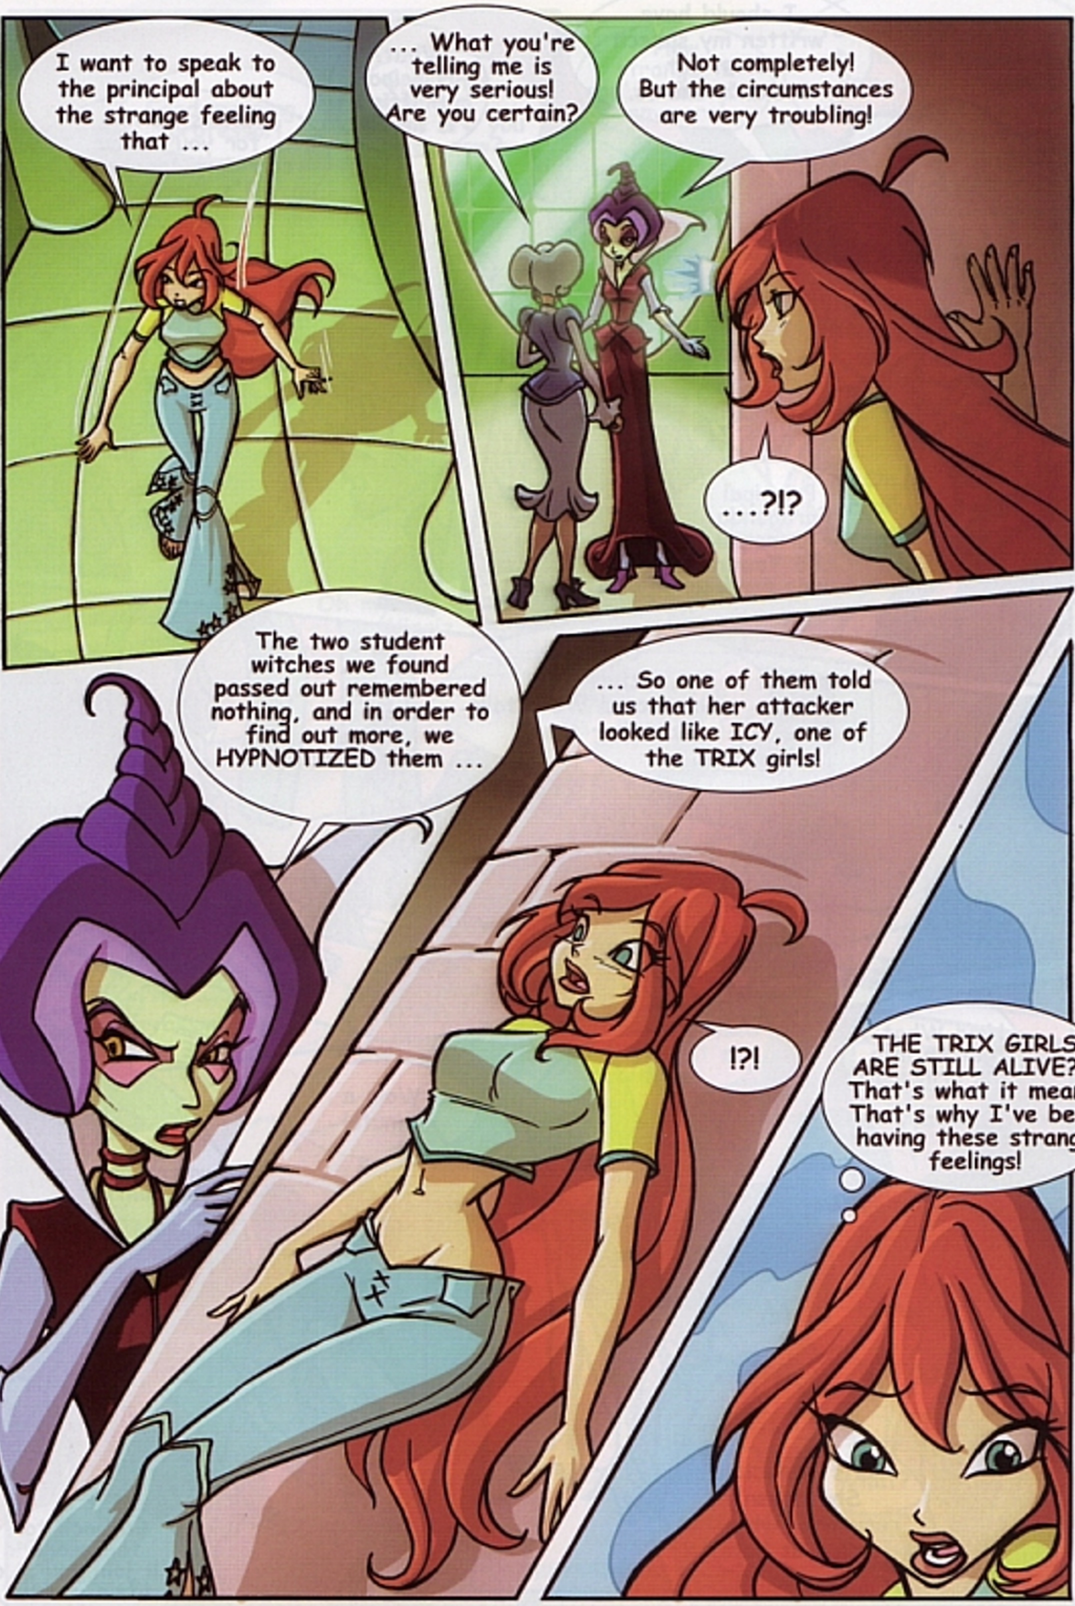
The next day others also appear strangely confused ...
... So, what was I saying?
You were talking about the multiplying spell!
Oh, exactly, therefore the magic formula is...um... that is, no it's...
How strange, I've forgotten it... still it's very important and ... No, it's not here!
Not here either? But ... what book did I read it in? I can't even remember that anymore ...
DRRRrrrrRRiiin
Noe maybe..
Oh! Class is already over!



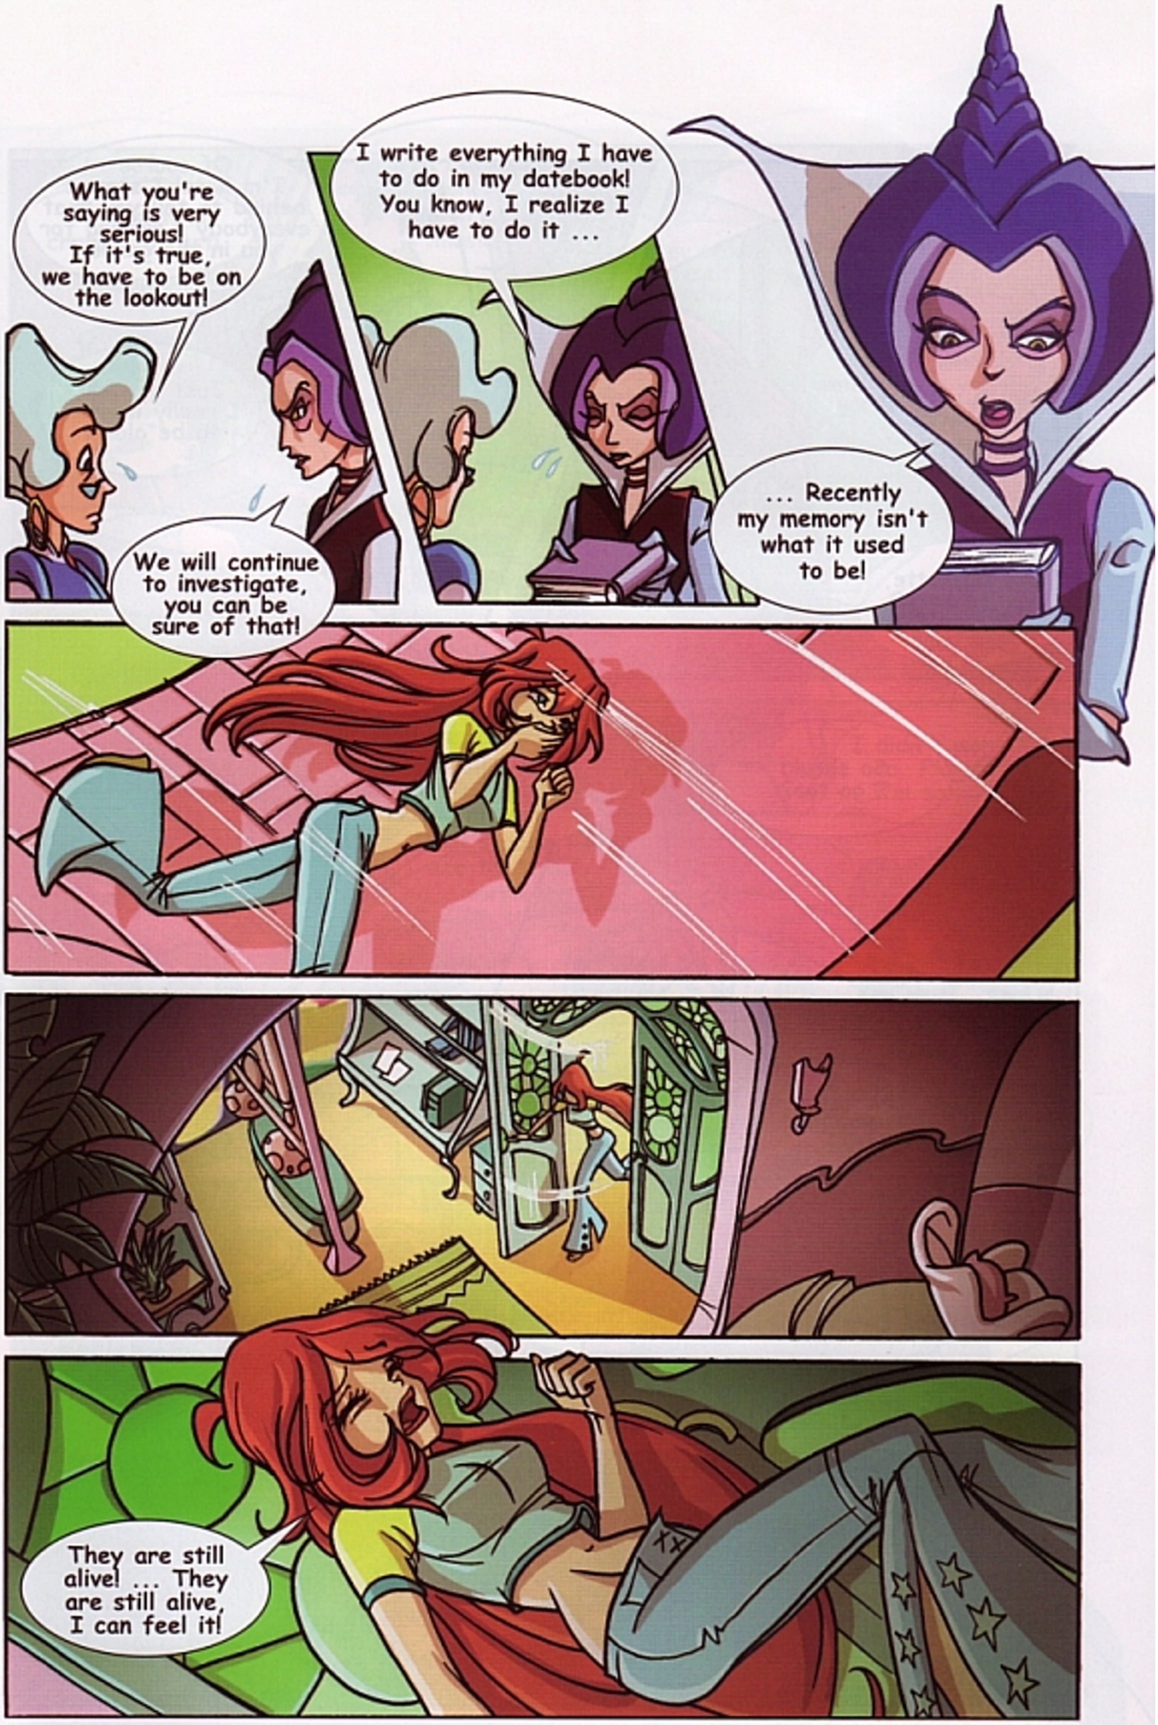
Good morning, professor!
Greetings, girls! Um ... where are you going now?
How strange, I can't remember anymore!
To the main classroom, to hear a speech by Principal Faragonda! You should come too, professor!
Oh, really?
Oh my! Professor Wizgiz is really out of it today!
You're telling me! I feel light-headed too!
Oh, heavens ... it's very embarrassing but ...
I can't remember what I was supposed to tell you! It's incredible!
What?



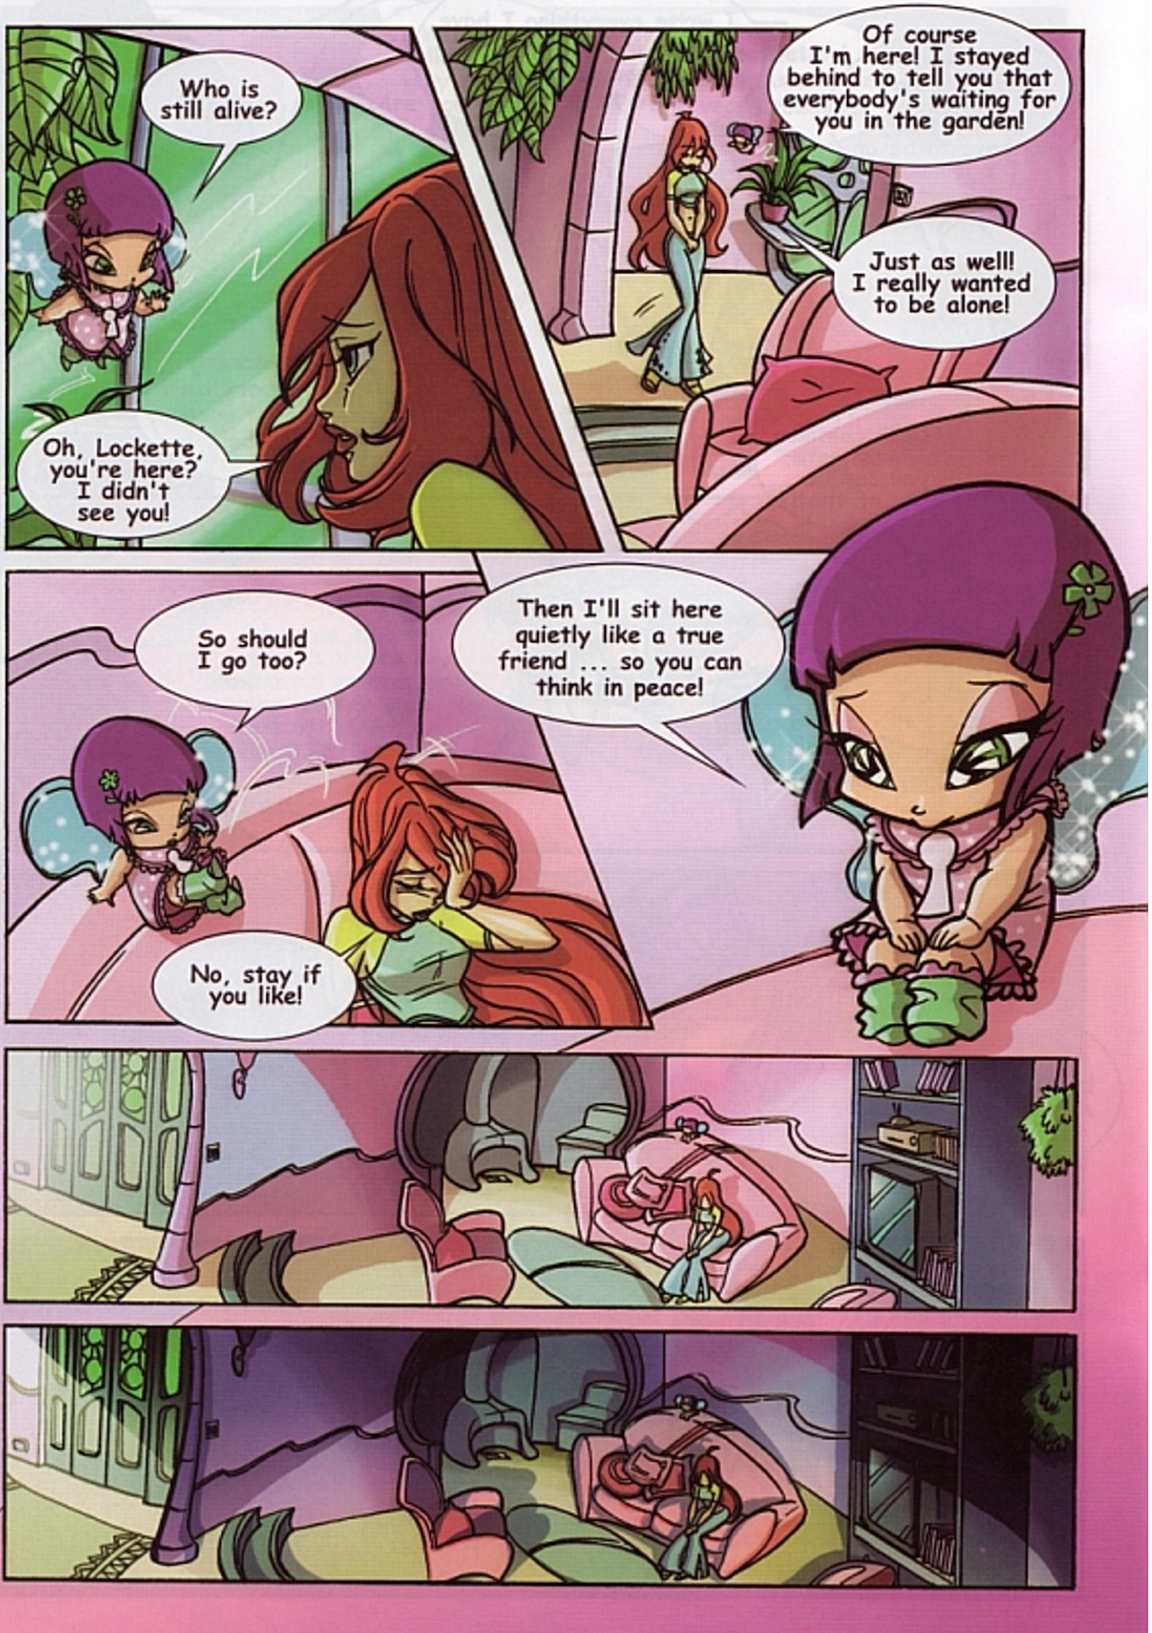
I should have written my speech down but I didn't and ...
Principal Faragonda, the principal of Cloud Tower is asking for you!
What? Principal Griffin is here?
She's waiting for you in the corridor! Apparently it's important!
Um ... return to your rooms! We'll talk another time!
Hey! What's gotten into the principal?
It's incredible! She doesn't remember why she called us here?
Wait a minute!
Bloom, where are you going?
Go back to the room! I'll join you in a little while!



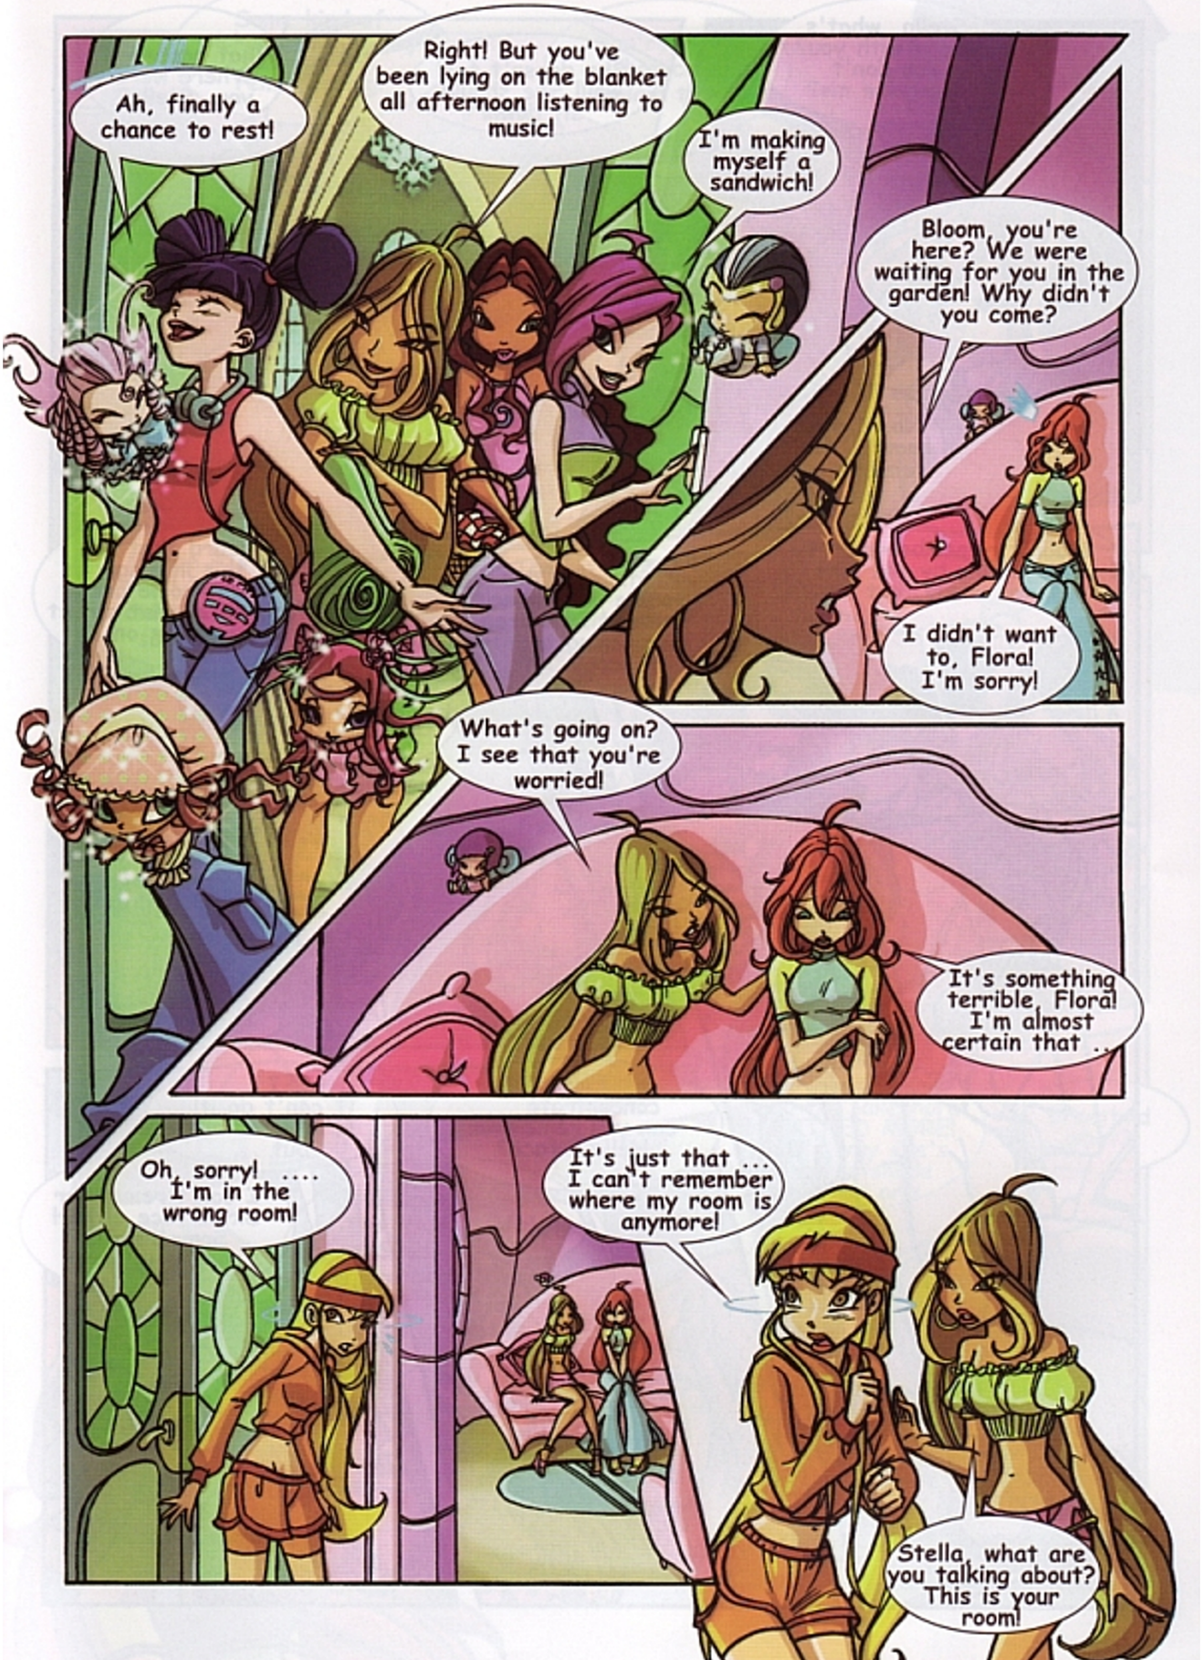
I want to speak to the principal about the strange feeling that ...
... What you're telling me is very serious! Are you certain?
Not completely! But the circumstances are very troubling!
...?!?
The two student witches we found passed out remembered nothing, and in order to find out more, we HYPNOTIZED them ...
... So one of them told us that her attacker looked like ICY, one of the TRIX girls!
!?!
THE TRIX GIRLS ARE STILL ALIVE?!? That's what it means! That's why I've been having these strange feelings!



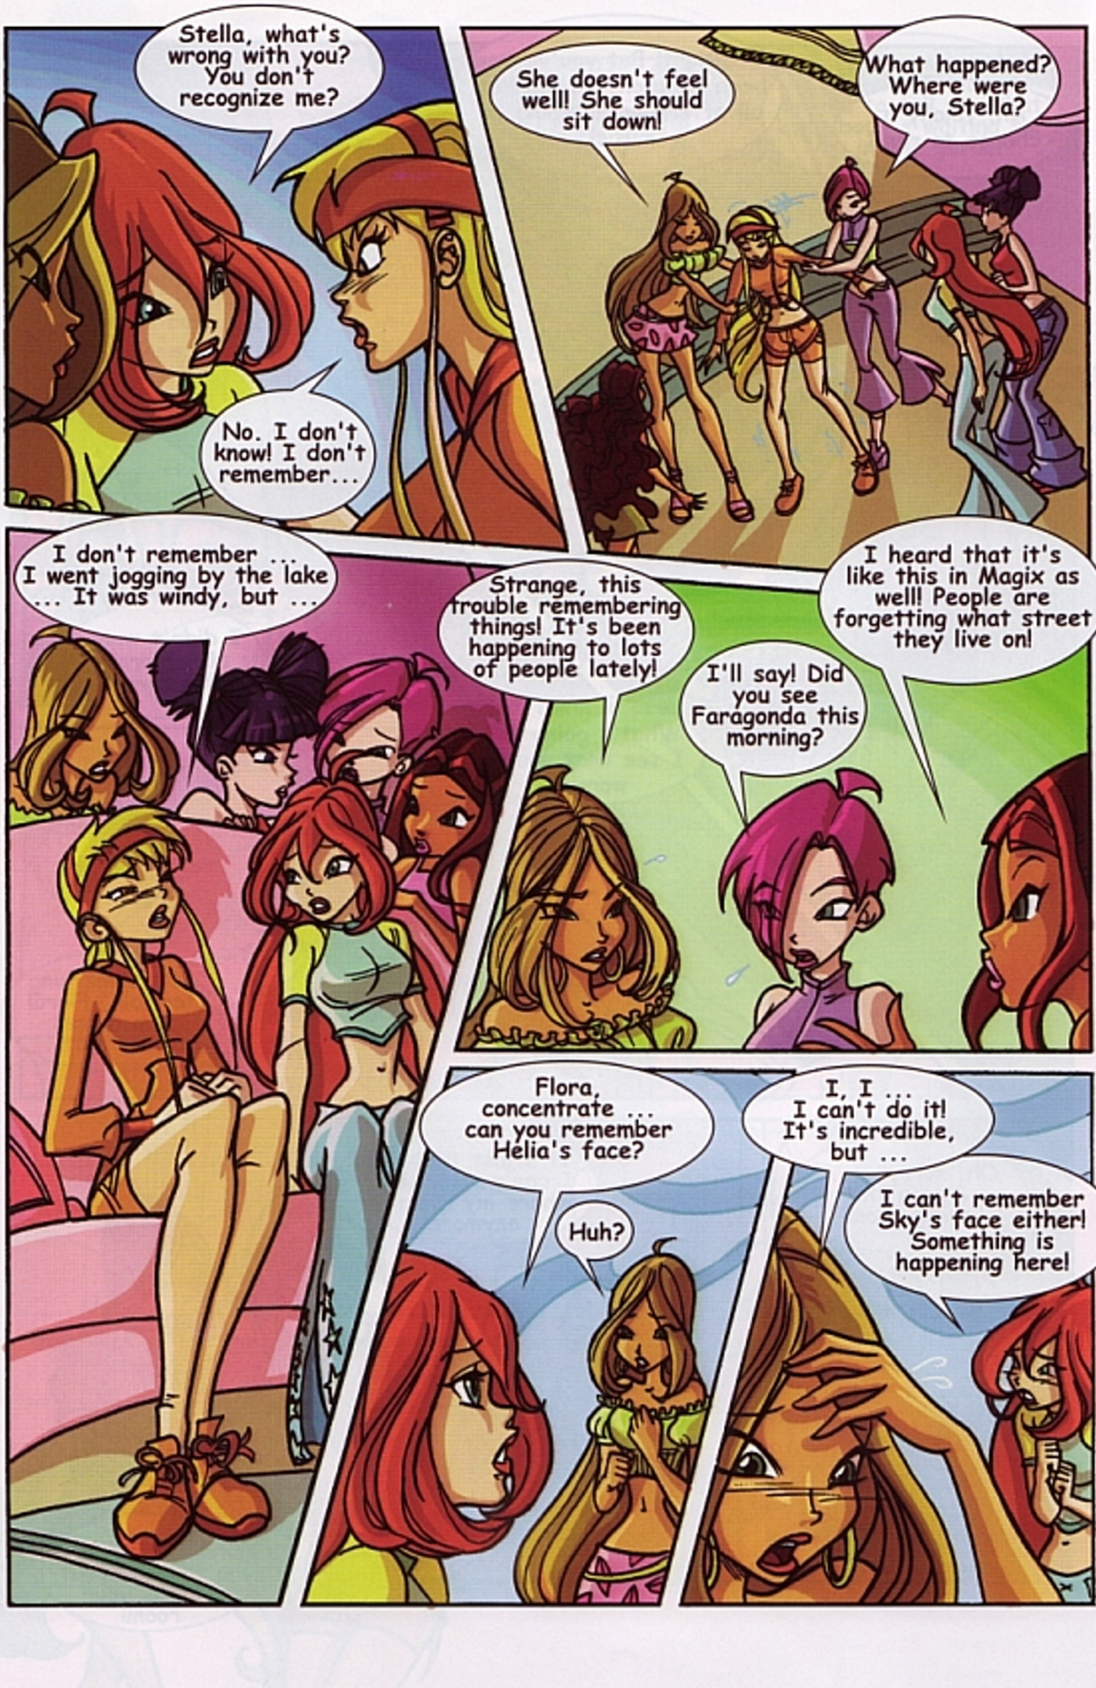
What you're saying is very serious! If it's true, we have to be on the lookout!
We will continue to investigate, you can be sure of that!
I write everything I have to do in my datebook! You know, I realize I have to do it ...
... Recently my memory isn't what it used to be!
They are still alive! ... They are still alive, I can feel it!



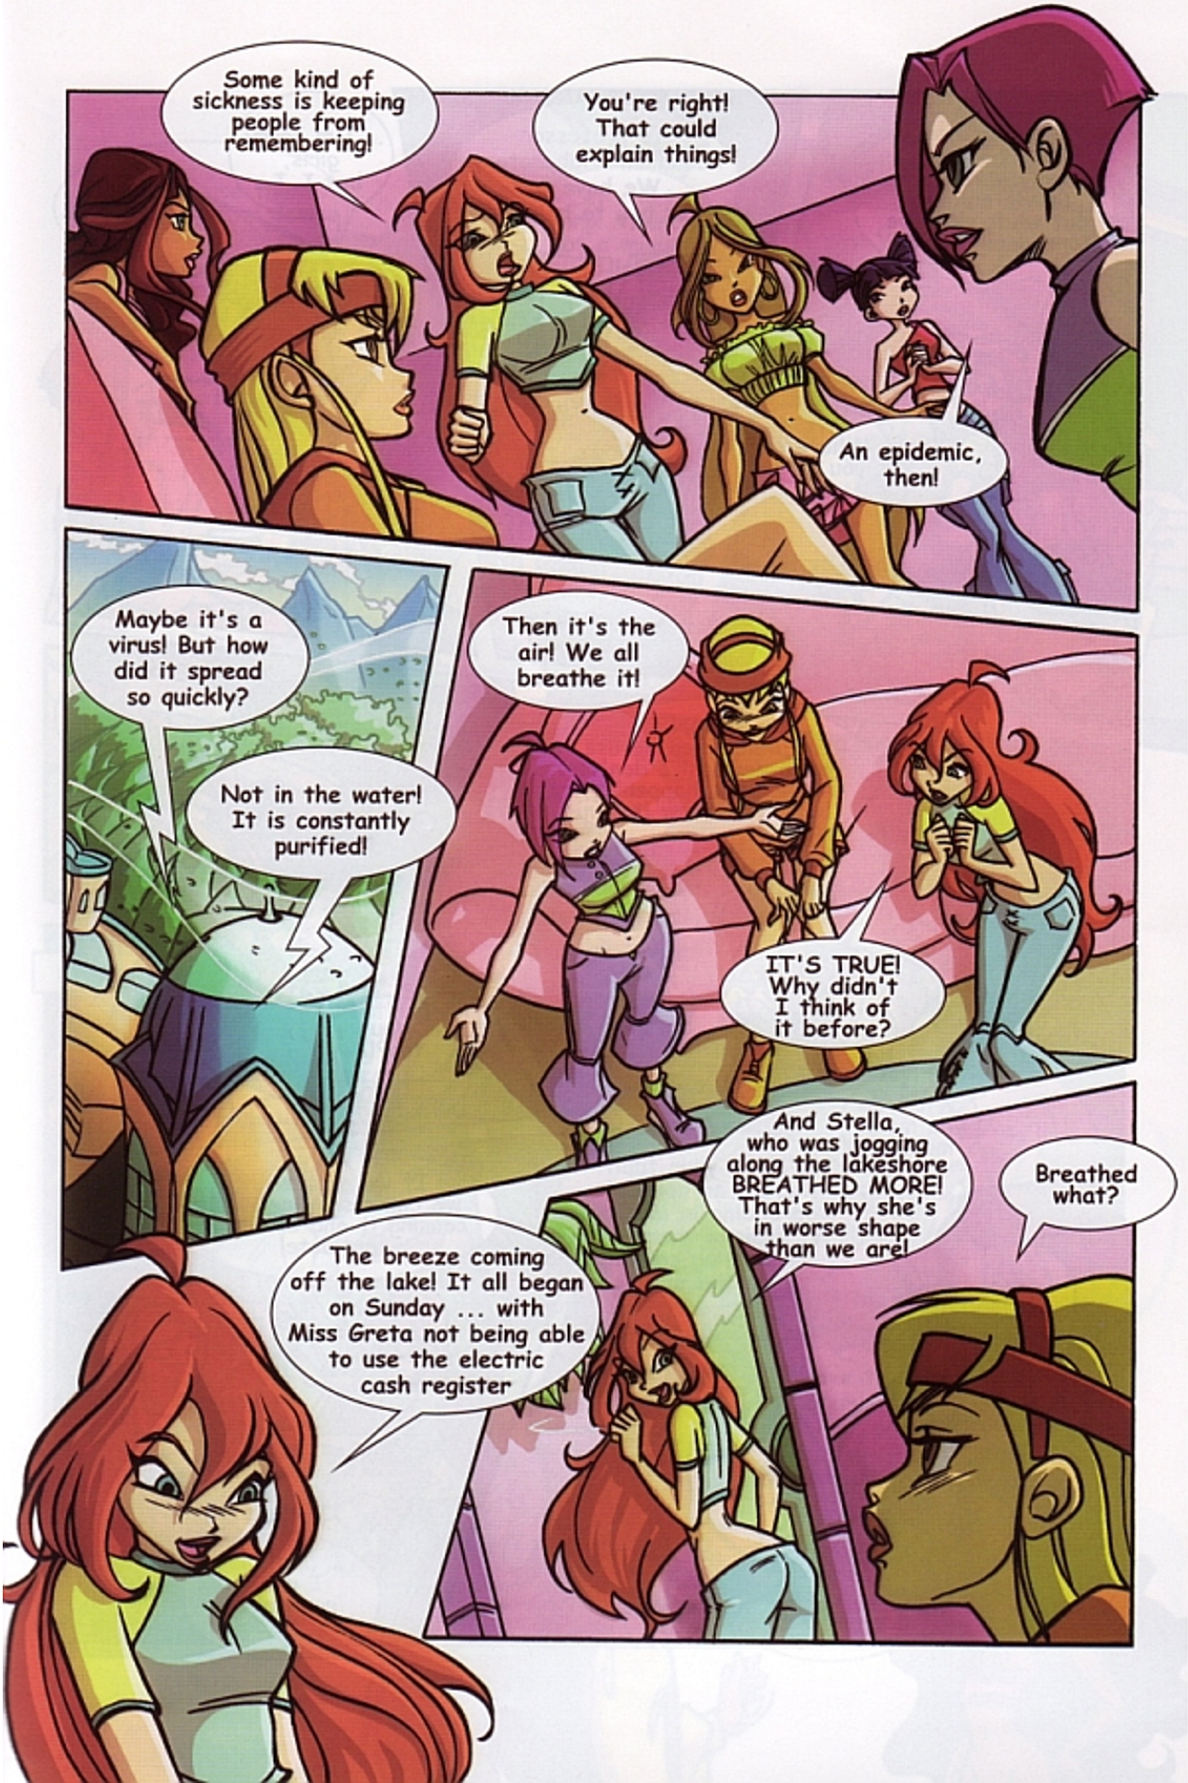
Who is still alive?
Oh, Lockette, you're here? I didn't see you!
Of course I'm here! I stayed behind to tell you that everybody's waiting for you in the garden!
Just as well! I really wanted to be alone!
So should I go too?
No, stay if you like!
Then I'll sit here quietly like a true friend ... so you can think in peace!



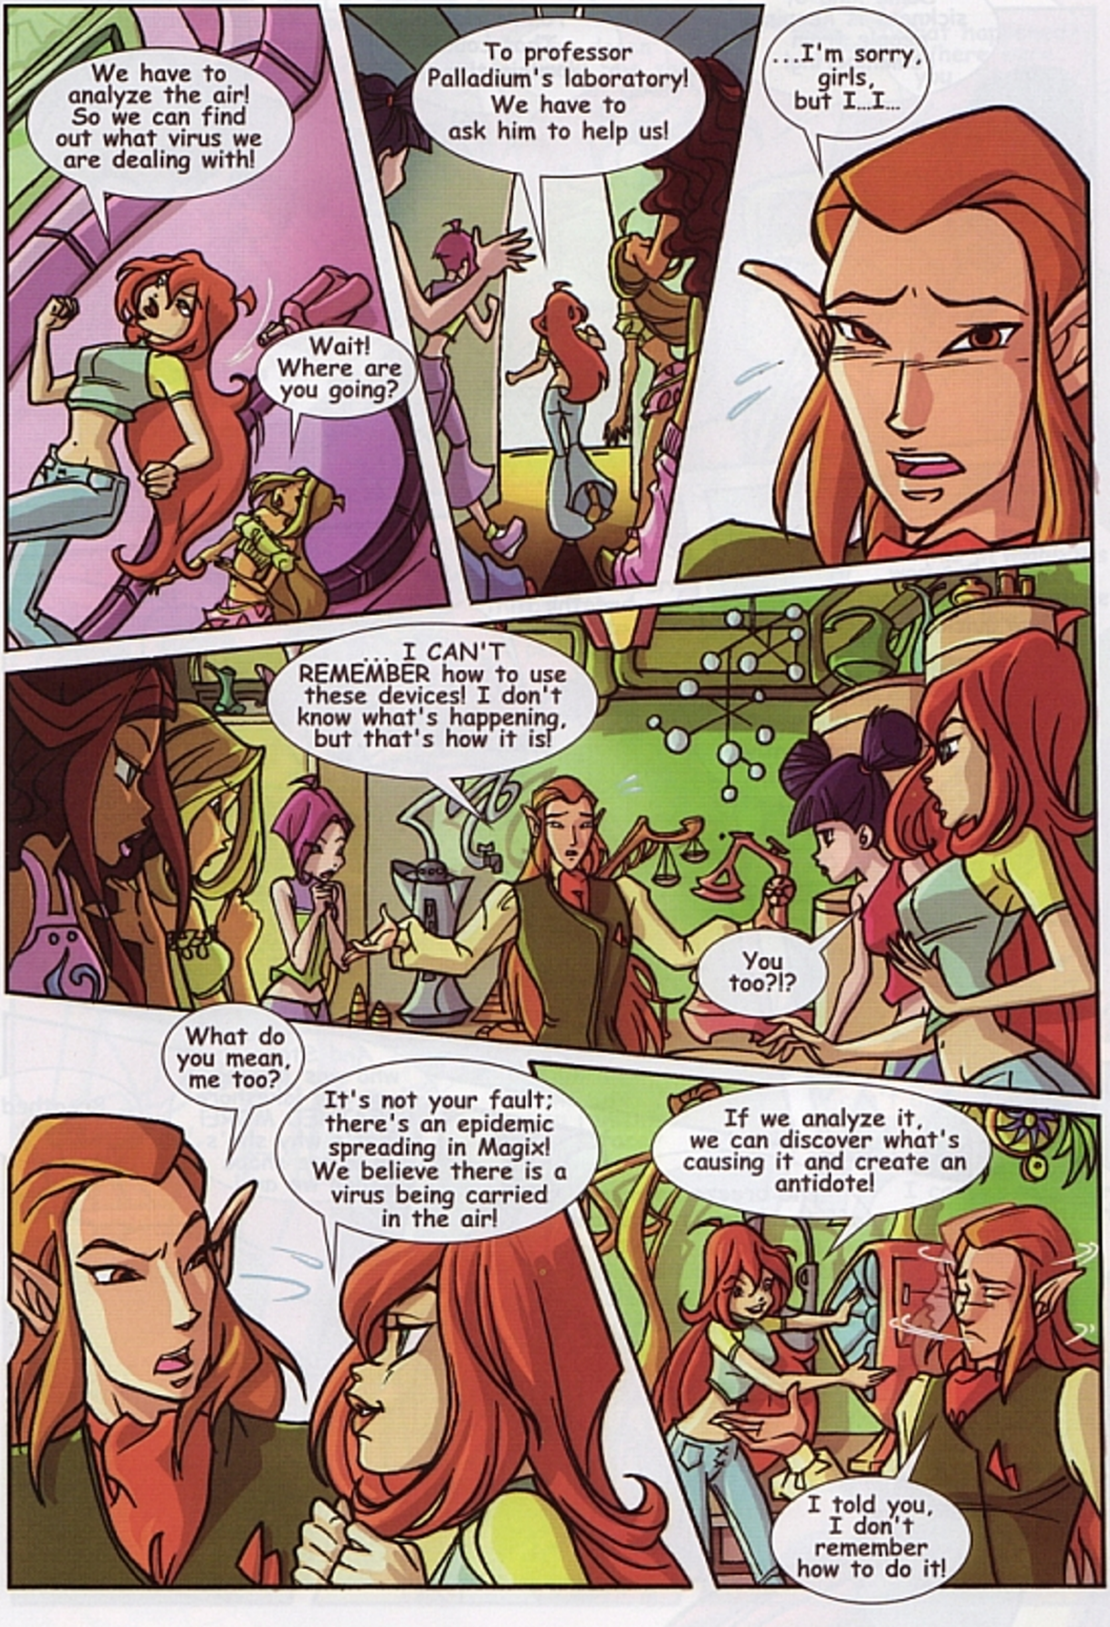
Ah, finally a chance to rest!
Right! But you've been lying on the blanket all afternoon listening to music!
I'm making myself a sandwich!
Bloom, you're here? We were waiting for you in the garden! Why didn't you come?
I didn't want to, Flora! I'm sorry!
What's going on? I see that you're worried!
It's something terrible, Flora! I'm almost certain that ..
Oh, sorry! .... I'm in the wrong room!
It's just that ... I can't remember where my room is anymore!
Stella, what are you talking about? This is your room!



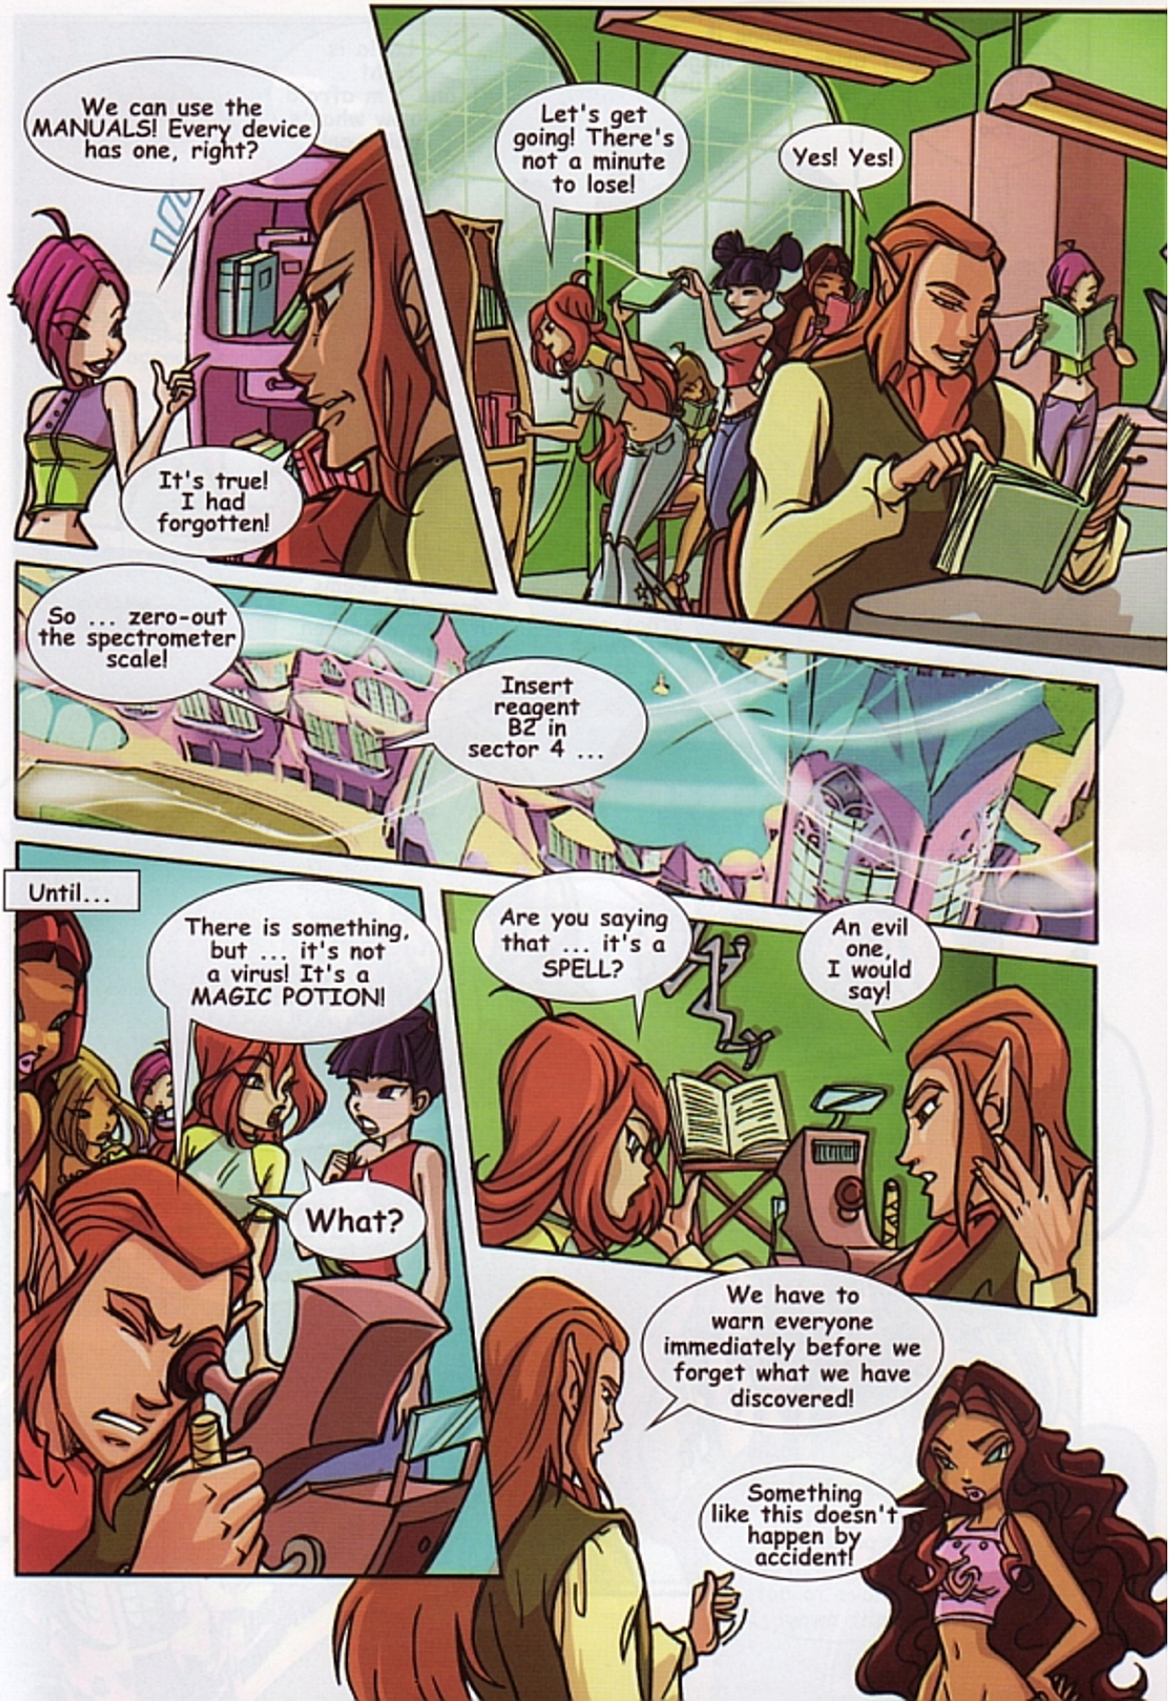
Stella, what's wrong with you? You don't recognize me?
No. I don't know! I don't remember...
She doesn't feel well! She should sit down!
What happened? Where were you, Stella?
I don't remember ... I went jogging by the lake ... It was windy, but ...
Strange, this trouble remembering things! It's been happening to lots of people lately!
I'll say! Did you see Faragonda this morning?
I heard that it's like this in Magix as well! People are forgetting what street they live on!
Flora, concentrate ... can you remember Helia's face?
Huh?
I, I ... I can't do it! It's incredible, but ...
I can't remember Sky's face either! Something is happening here!



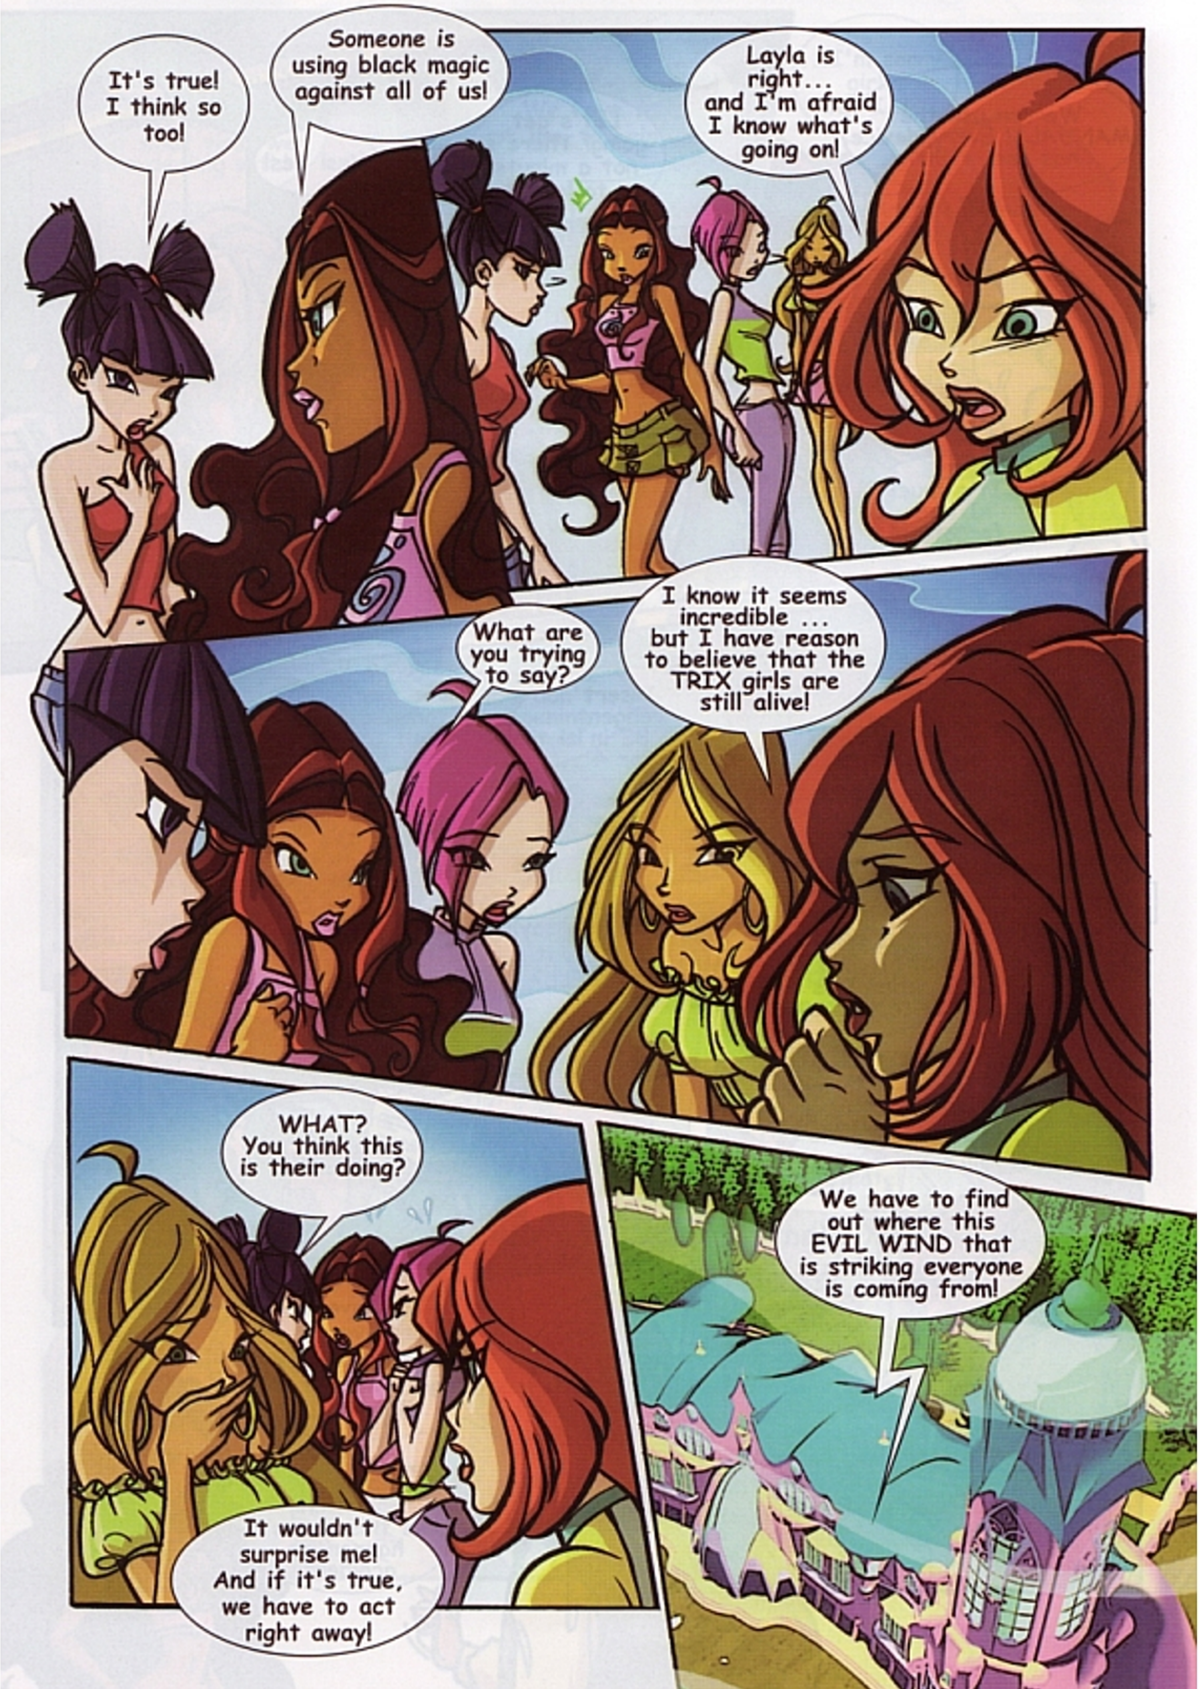
Some kind of sickness is keeping people from remembering!
You're right! That could explain things!
An epidemic, then!
Maybe it's a virus! But how did it spread so quickly?
Not in the water! It is constantly purified!
Then it's the air! We all breathe it!
IT'S TRUE! Why didn't I think of it before?
The breeze coming off the lake! It all began on Sunday ... with Miss Greta not being able to use the electric cash register
And Stella, who was jogging along the lakeshore BREATHED MORE! That's why she's in worse shape than we are!
Breathed what?



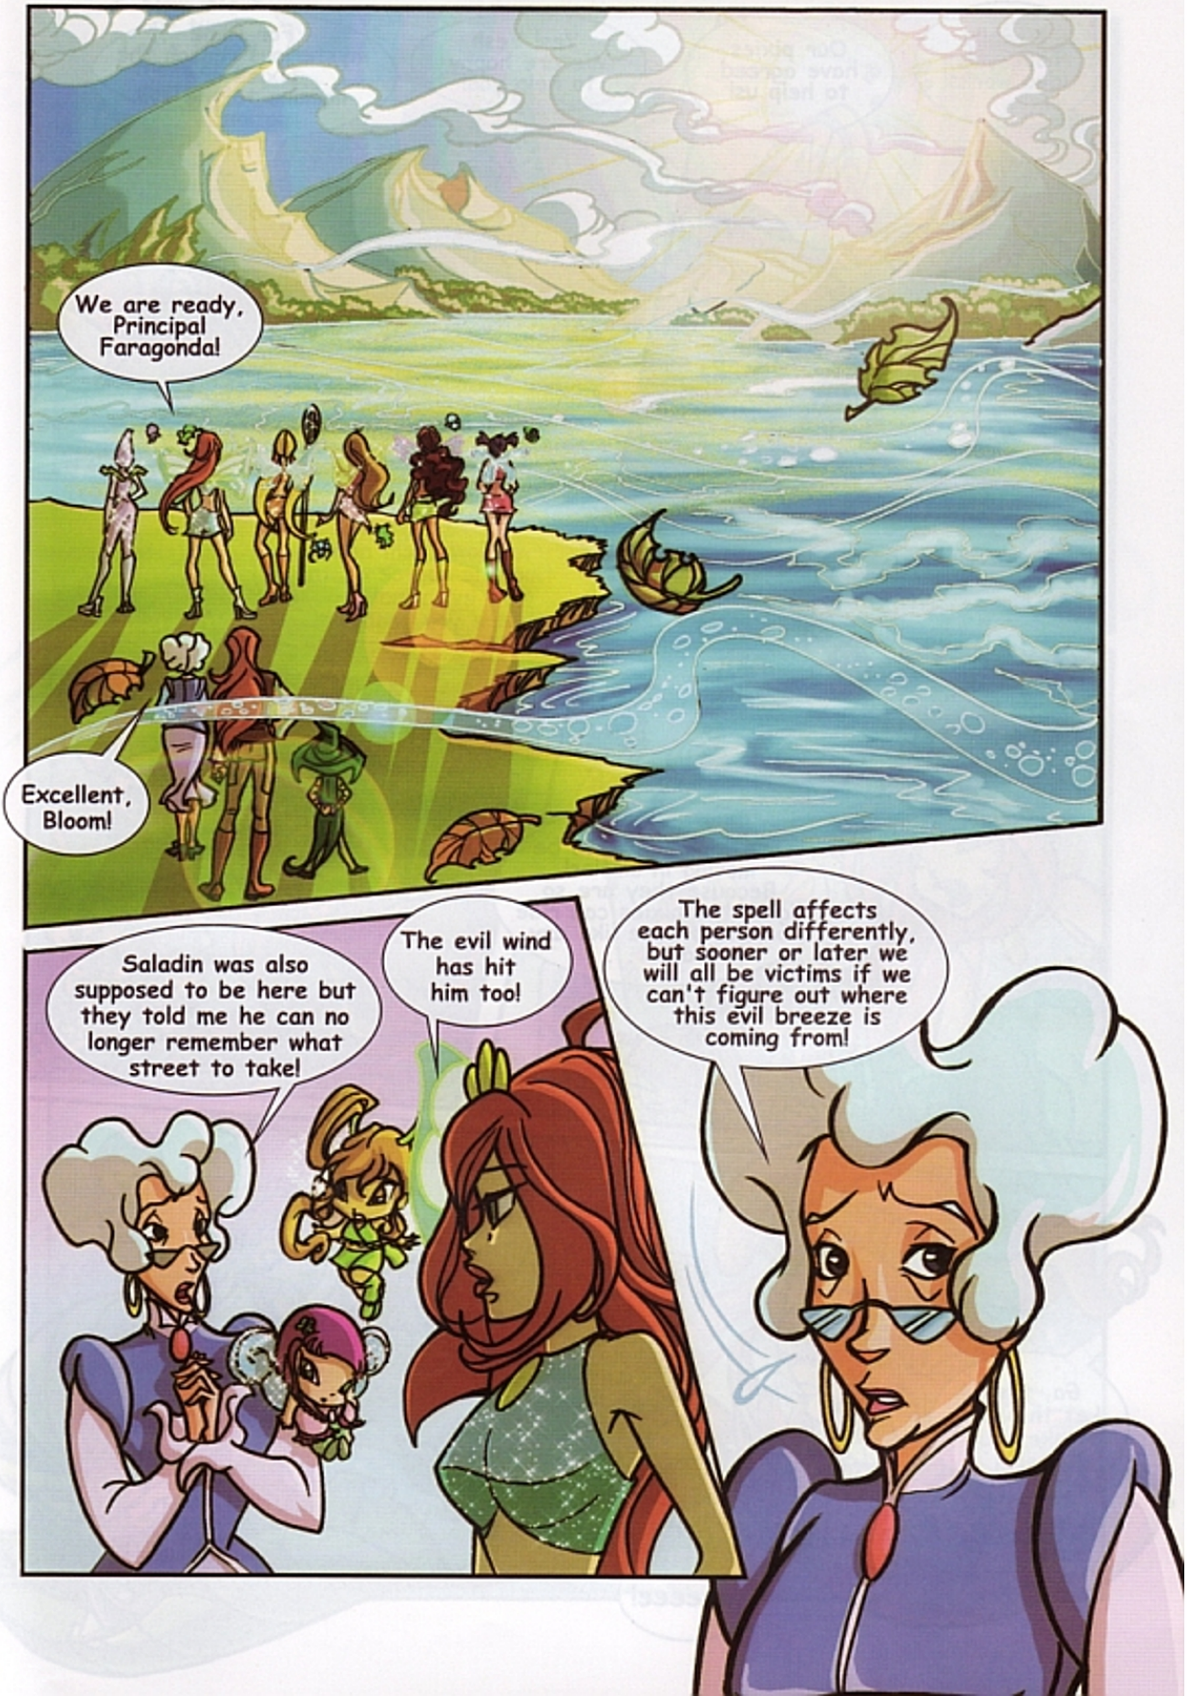
We have to analyze the air! So we can find out what virus we are dealing with!
Wait! Where are you going?
To professor Palladium's laboratory! We have to ask him to help us!
...I'm sorry, girls, but I...I...
... I CAN'T REMEMBER how to use these devices! I don't know what's happening, but that's how it is!
You too?!?
What do you mean, me too?
It's not your fault; there's an epidemic spreading in Magix! We believe there is a virus being carried in the air!
If we analyze it, we can discover what's causing it and create an antidote!
I told you, I don't remember how to do it!



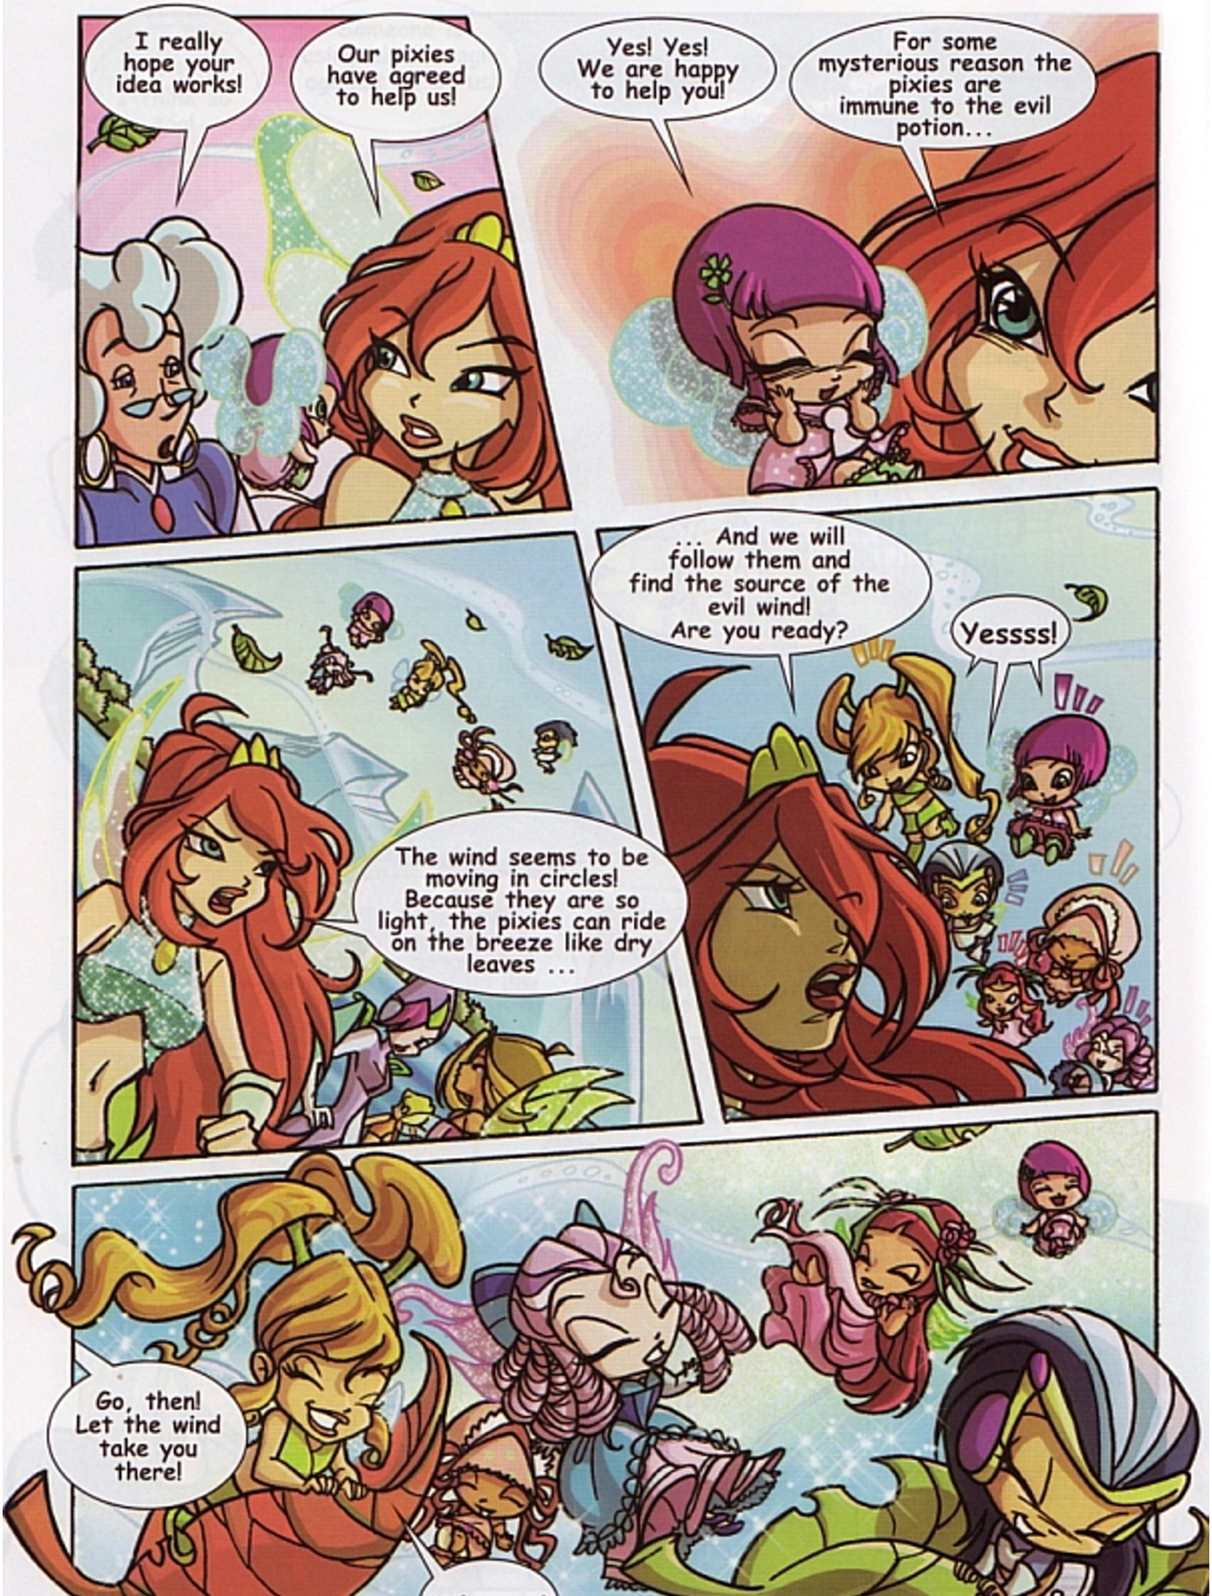
We can use the MANUALS! Every device has one, right?
It's true! I had forgotten!
Let's get going! There's not a minute to lose!
Yes! Yes!
So ... zero-out the spectrometer scale!
Insert reagent B2 in sector 4 ...
Until...
There is something, but ... it's not a virus! It's a MAGIC POTION!
What?
Are you saying that ... it's a SPELL?
An evil one, I would say!
We have to warn everyone immediately before we forget what we have discovered!
Something like this doesn't happen by accident!



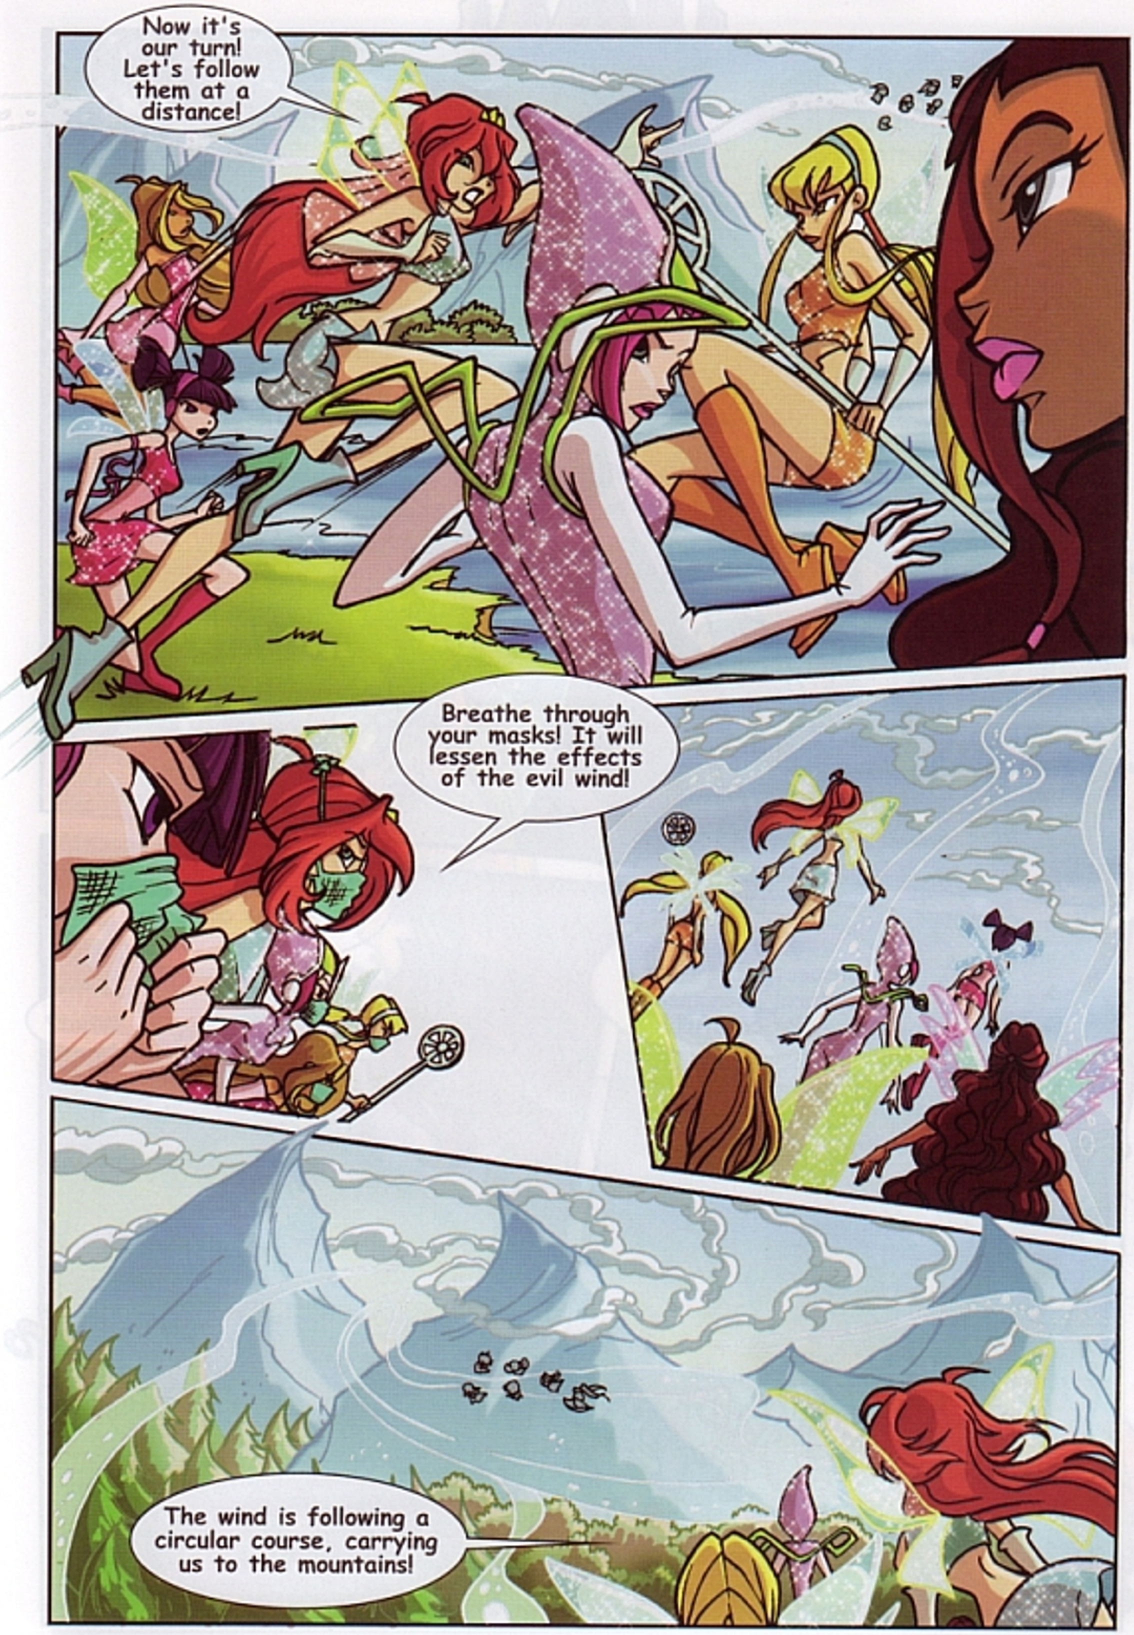
It's true! I think so too!
Someone is using black magic against all of us!
Layla is right... and I'm afraid I know what's going on!
What are you trying to say?
I know it seems incredible ... but I have reason to believe that the TRIX girls are still alive!
WHAT? You think this is their doing?
It wouldn't surprise me! And if it's true, we have to act right away!
We have to find out where this EVIL WIND that is striking everyone is coming from!



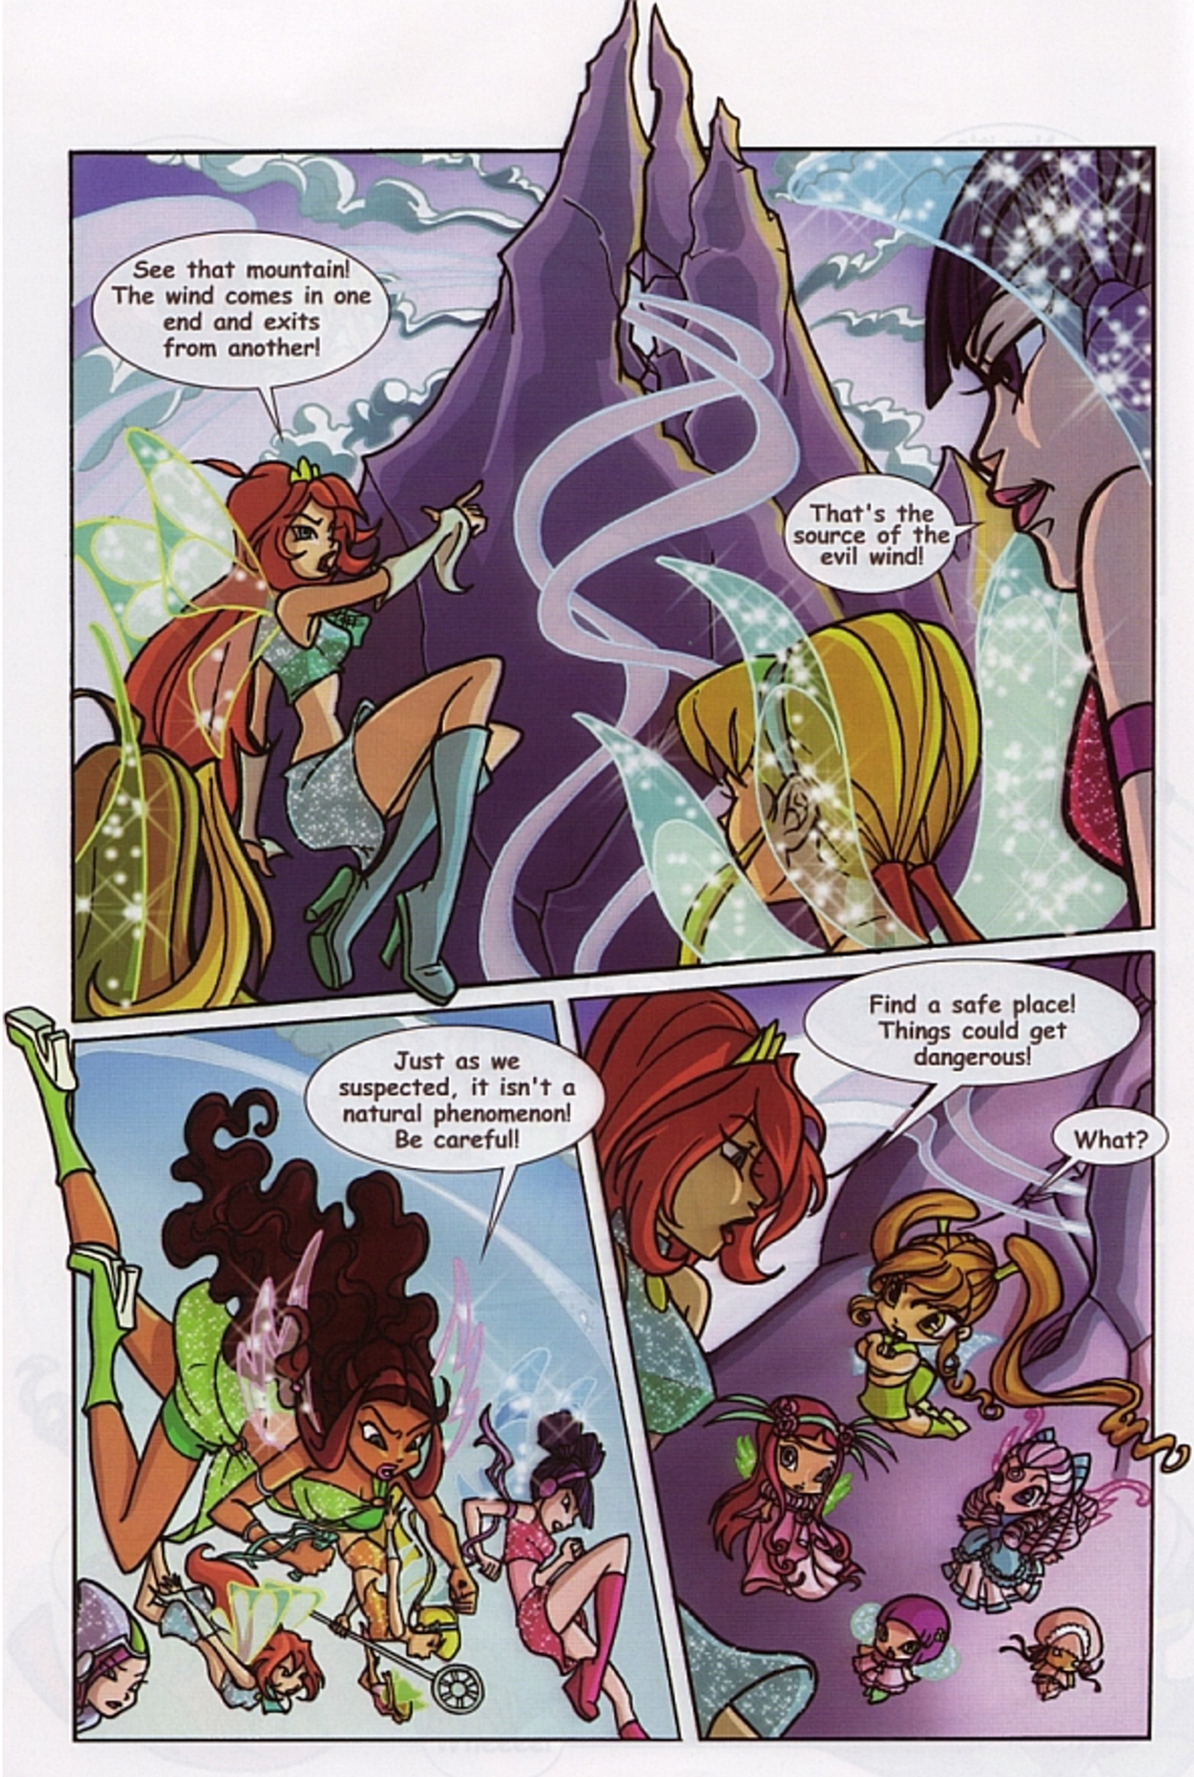
We are ready, Principal Faragonda!
Excellent, Bloom!
Saladin was also supposed to be here but they told me he can no longer remember what street to take!
The evil wind has hit him too!
The spell affects each person differently, but sooner or later we will all be victims if we can't figure out where this evil breeze is coming from!



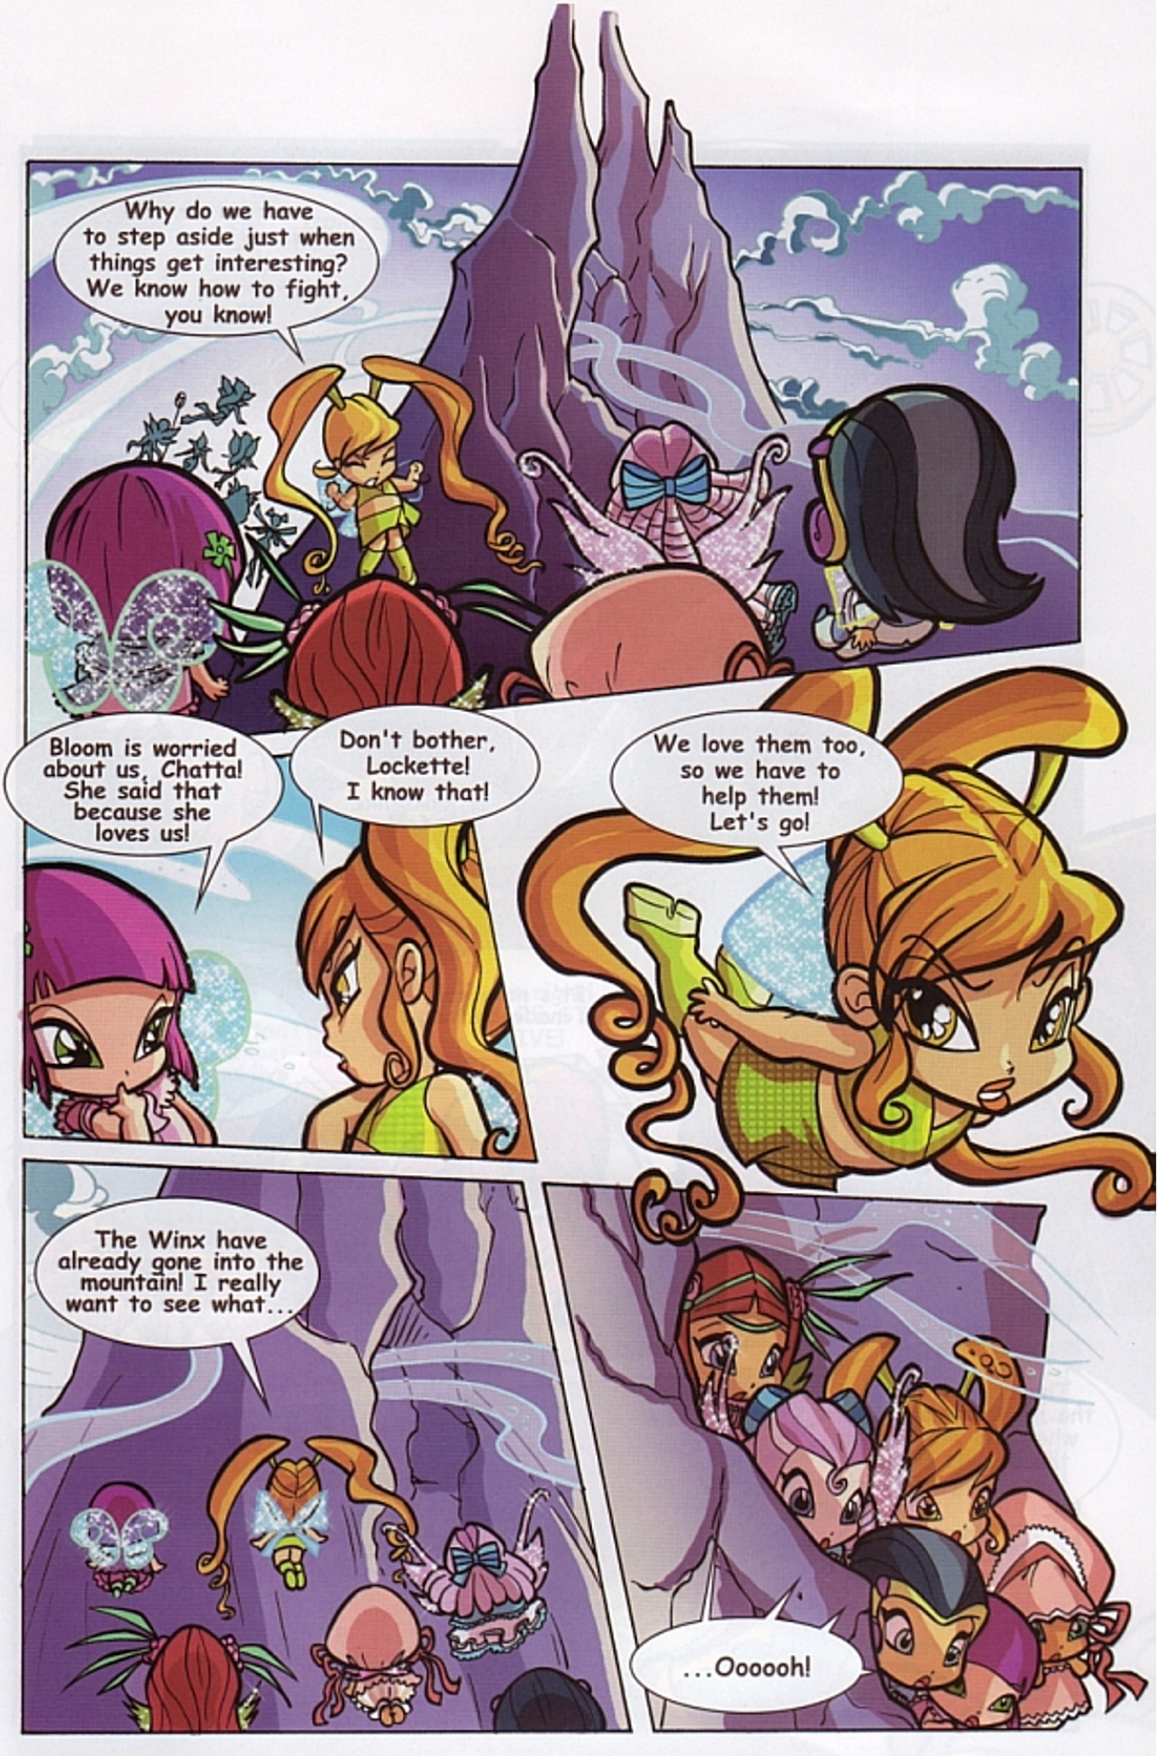
I really hope your idea works!
Our pixies have agreed to help us!
Yes! Yes! We are happy to help you!
For some mysterious reason the pixies are immune to the evil potion...
The wind seems to be moving in circles! Because they are so light, the pixies can ride on the breeze like dry leaves ...
... And we will follow them and find the source of the evil wind! Are you ready?
Yessss!
Go, then! Let the wind take you there!
Wheeee!



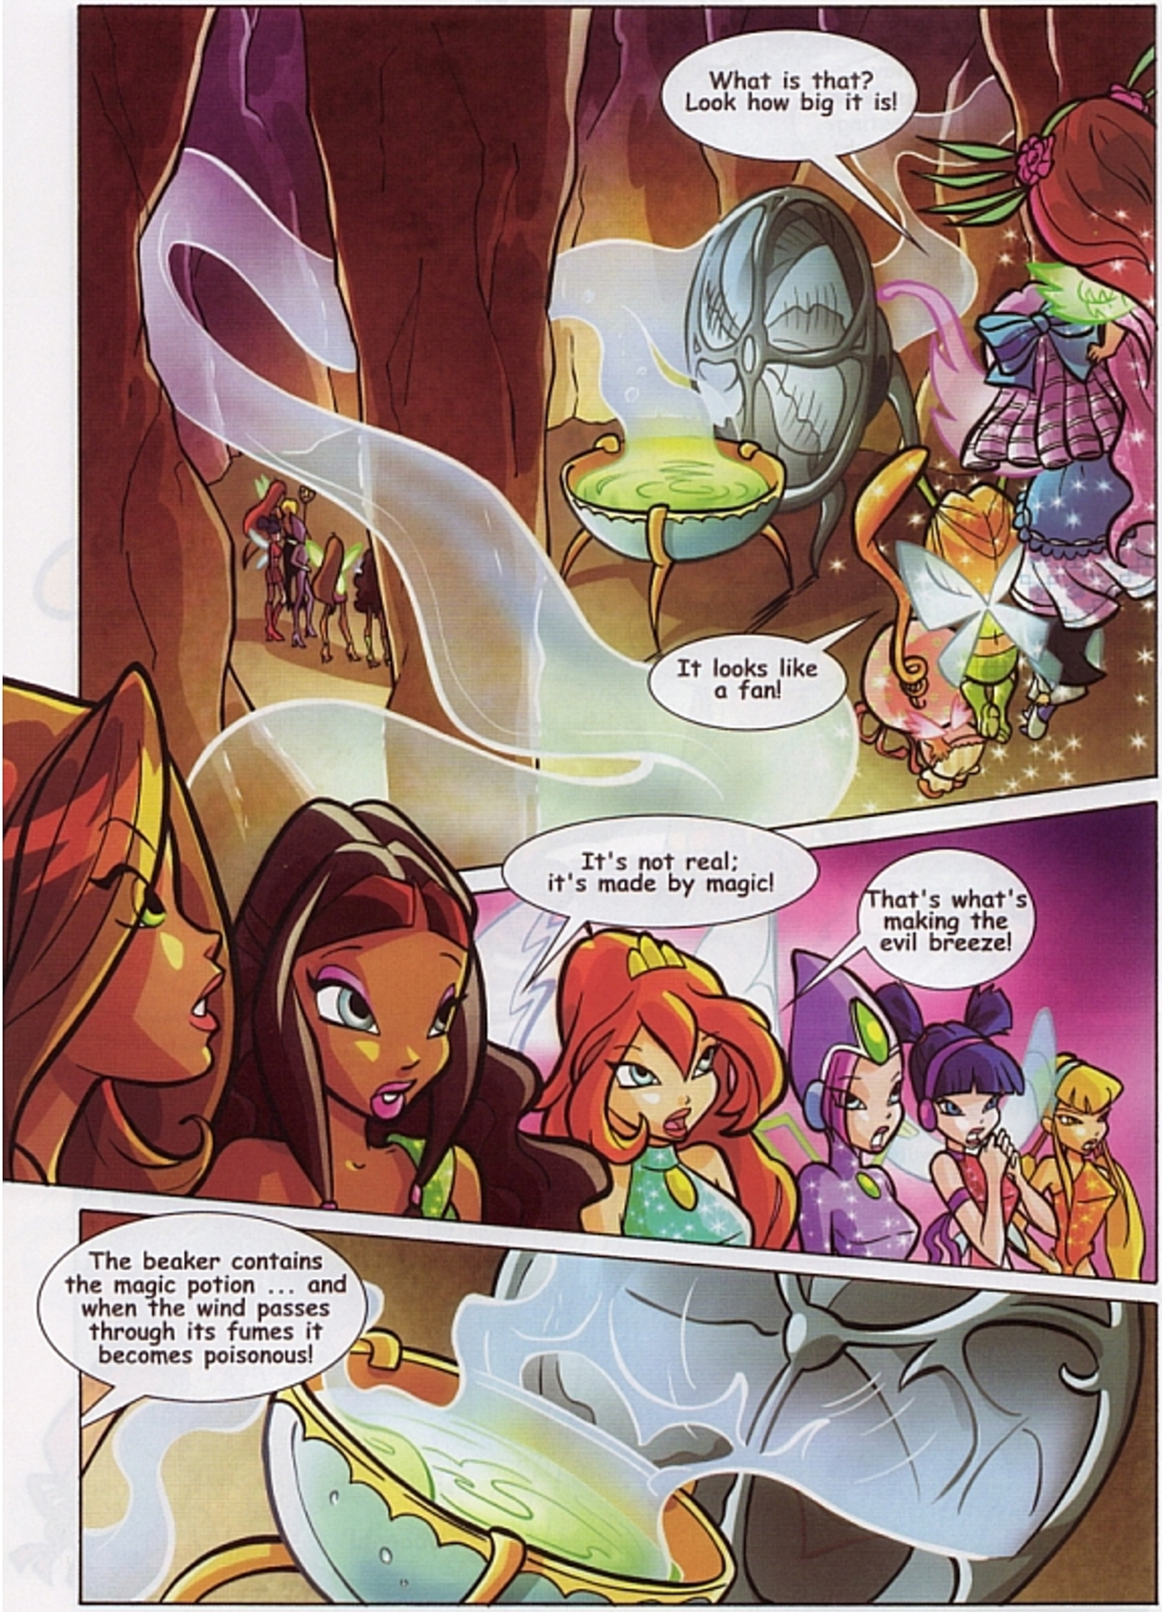
Now it's our turn! Let's follow them at a distance!
Breathe through your masks! It will lessen the effects of the evil wind!
The wind is following a circular course, carrying us to the mountains!



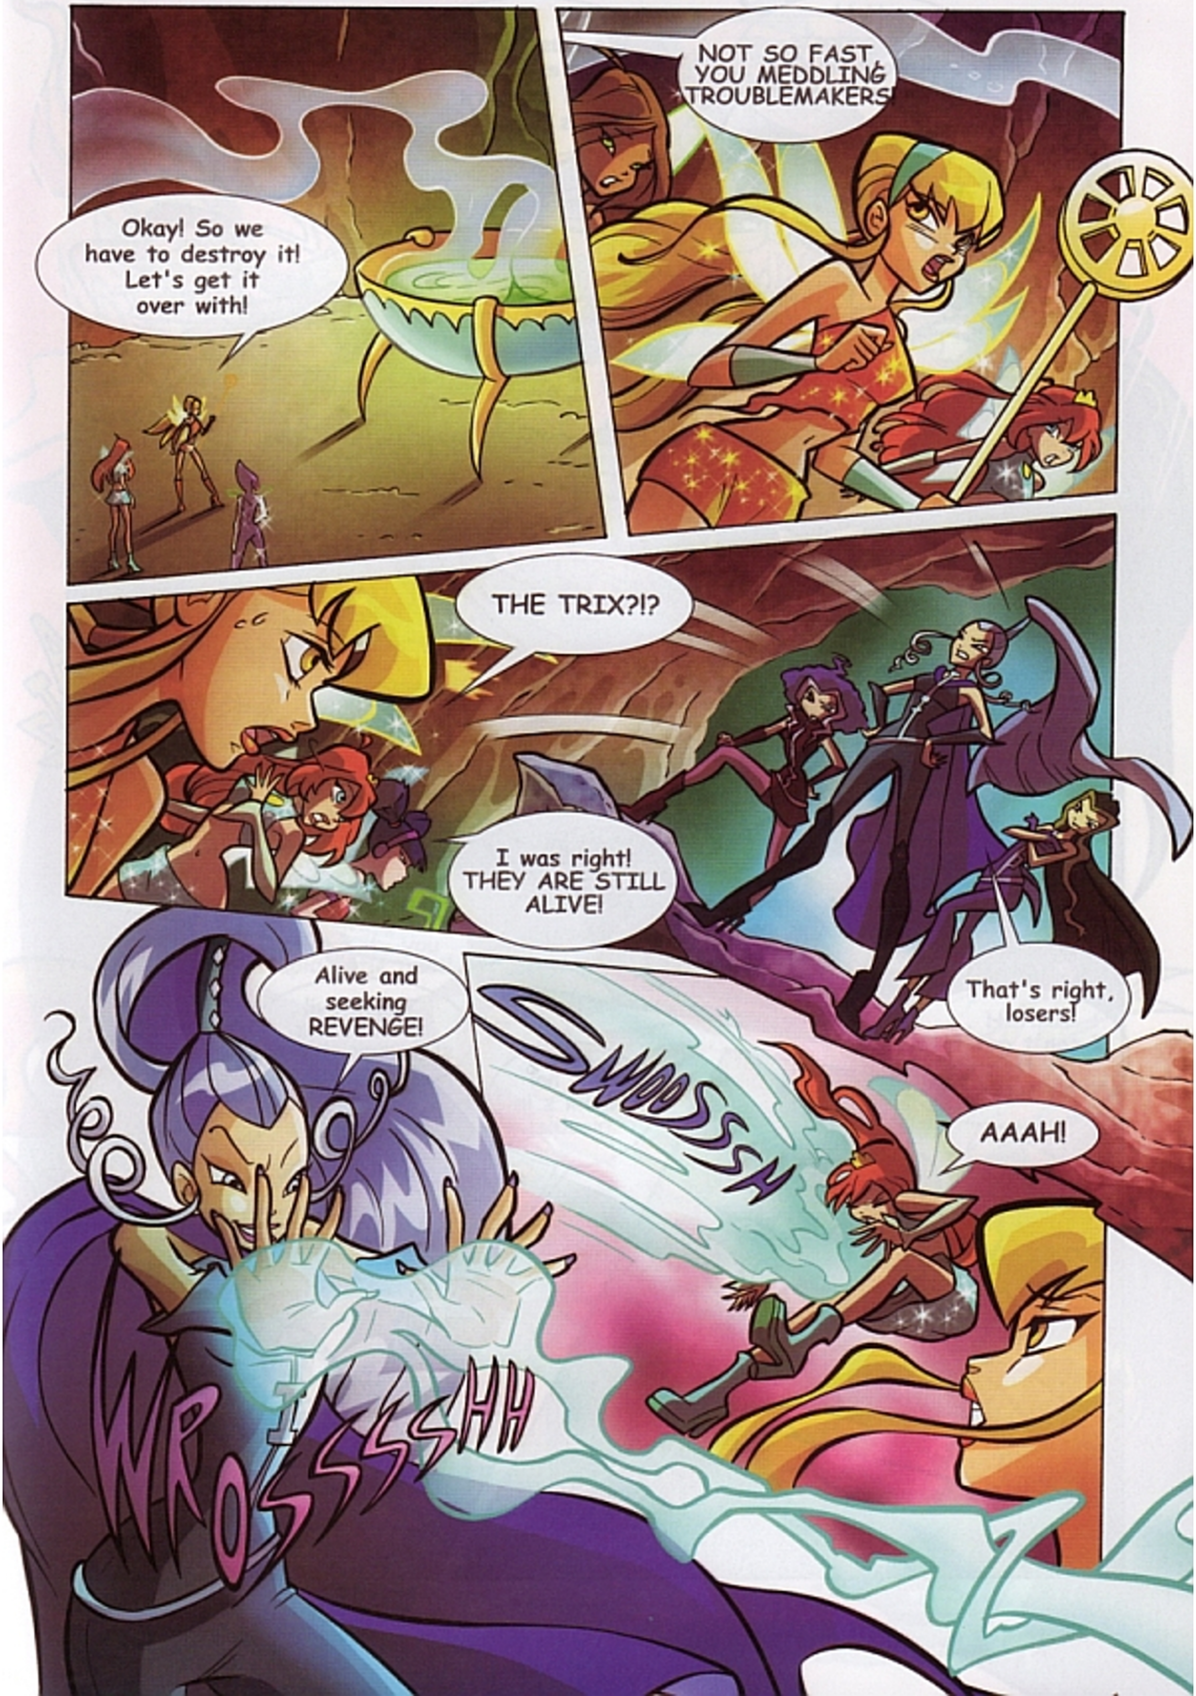
See that mountain! The wind comes in one end and exits from another!
That's the source of the evil wind!
Just as we suspected, it isn't a natural phenomenon! Be careful!
Find a safe place! Things could get dangerous!
What?



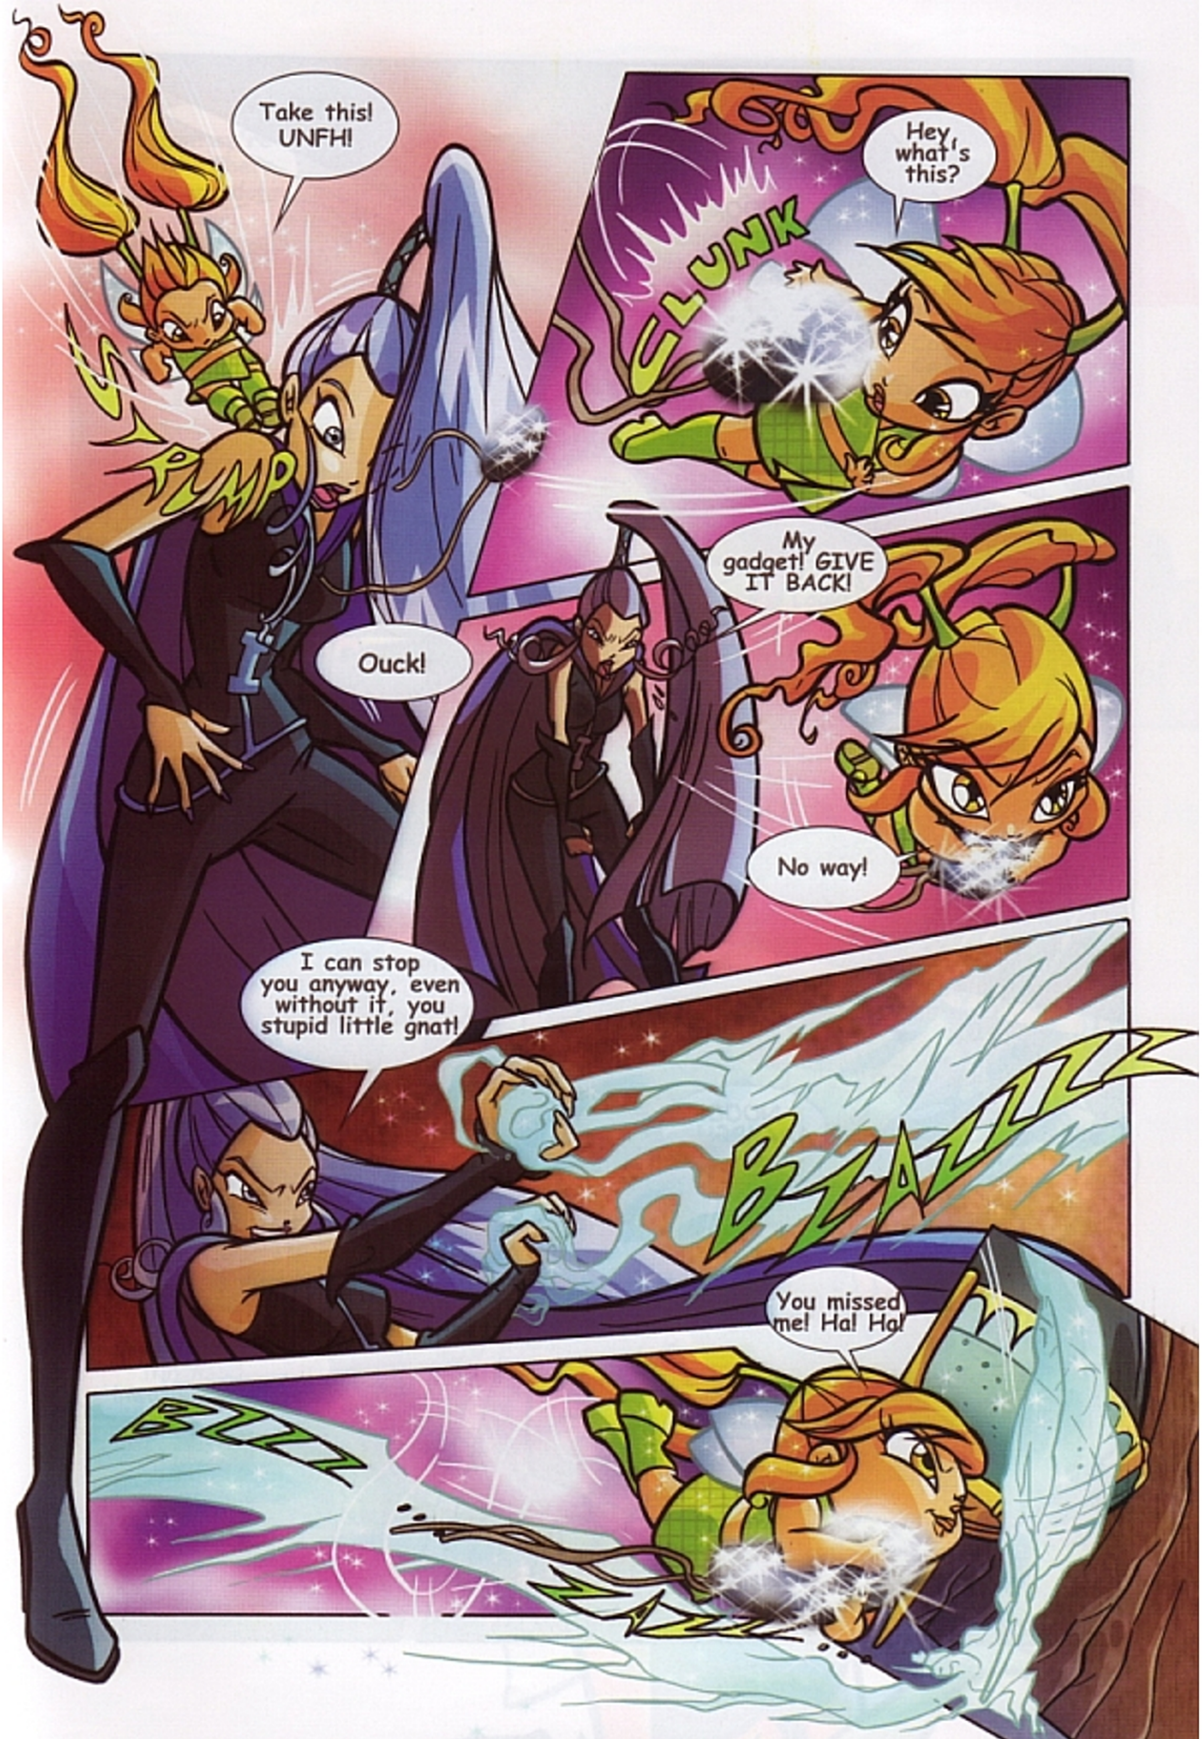
Why do we have to step aside just when things get interesting? We know how to fight, you know!
Bloom is worried about us, Chatta! She said that because she loves us!
Don't bother, Lockette! I know that!
We love them too, so we have to help them! Let's go!
The Winx have already gone into the mountain! I really want to see what...
...Oooooh!



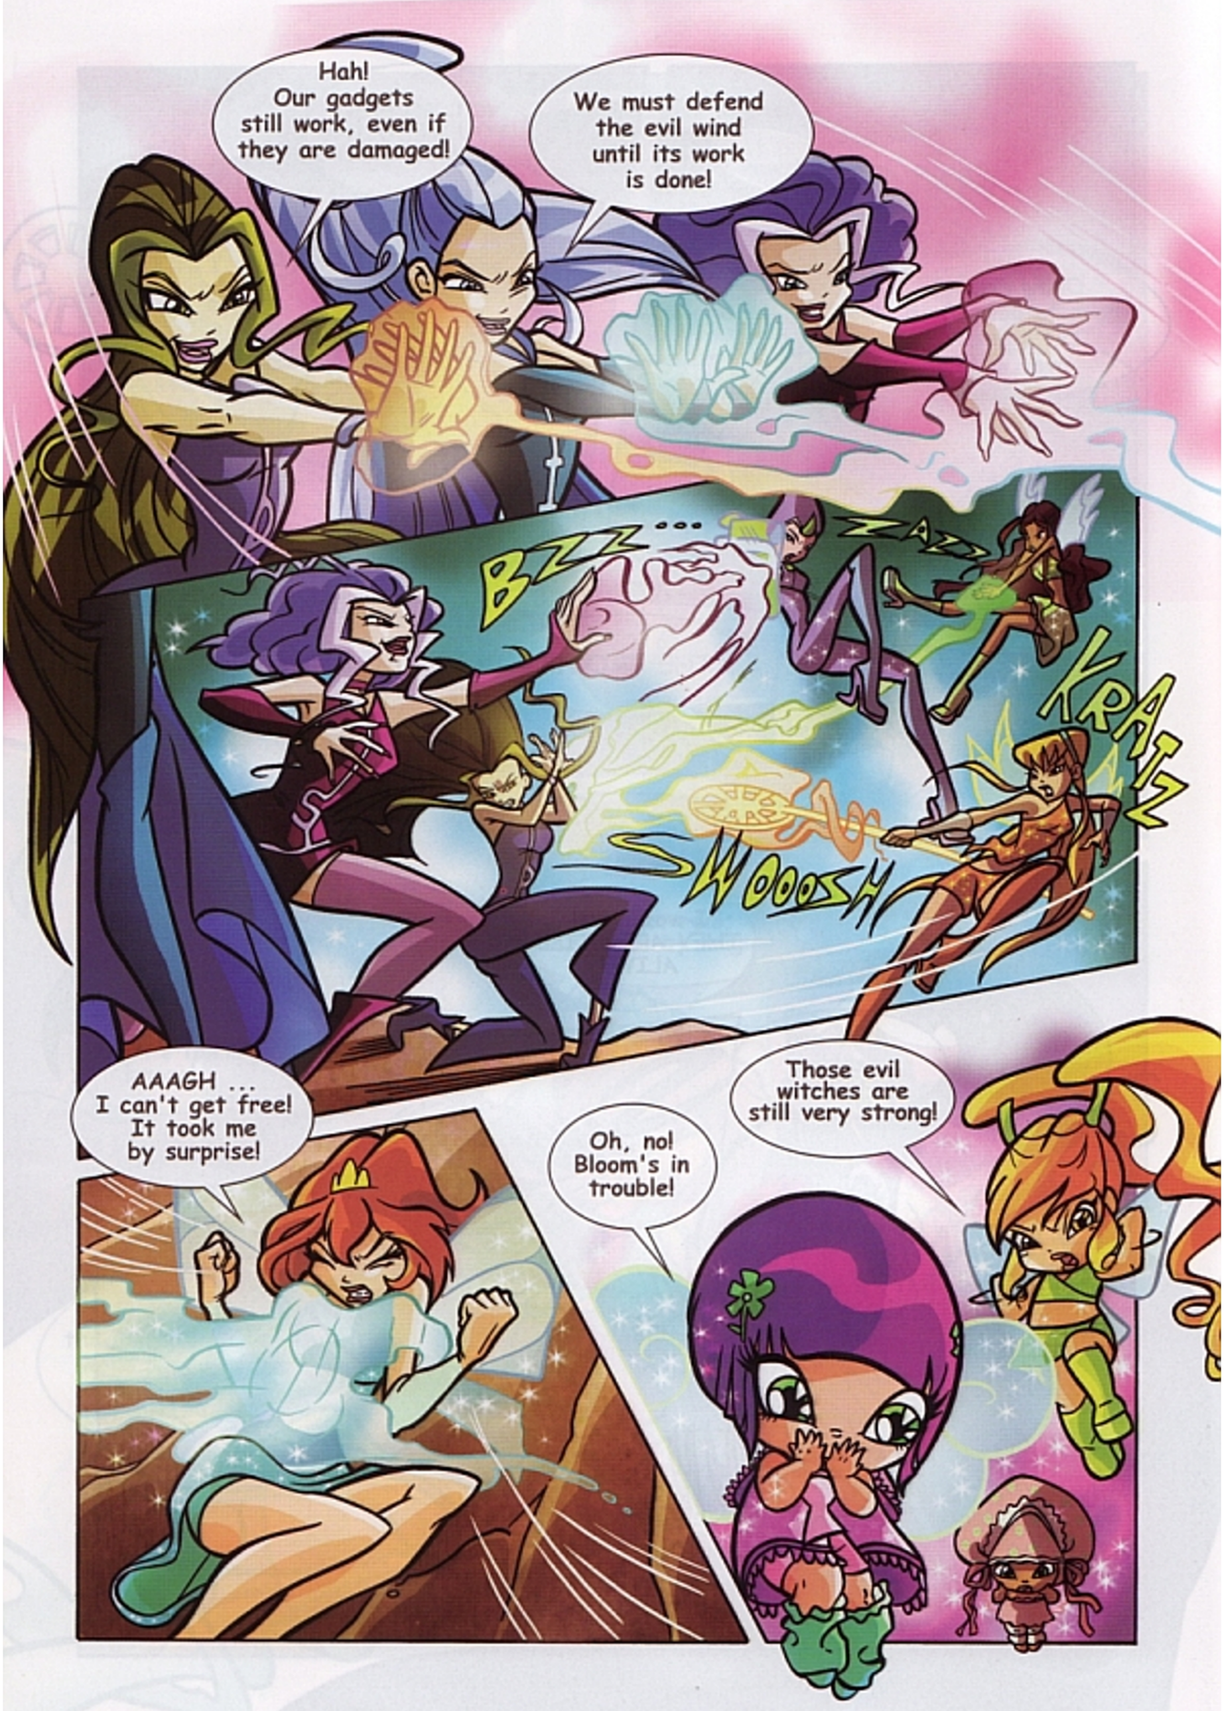
What is that? Look how big it is!
It looks like a fan!
It's not real; it's made by magic!
That's what's making the evil breeze!
The beaker contains the magic potion ... and when the wind passes through its fumes it becomes poisonous!



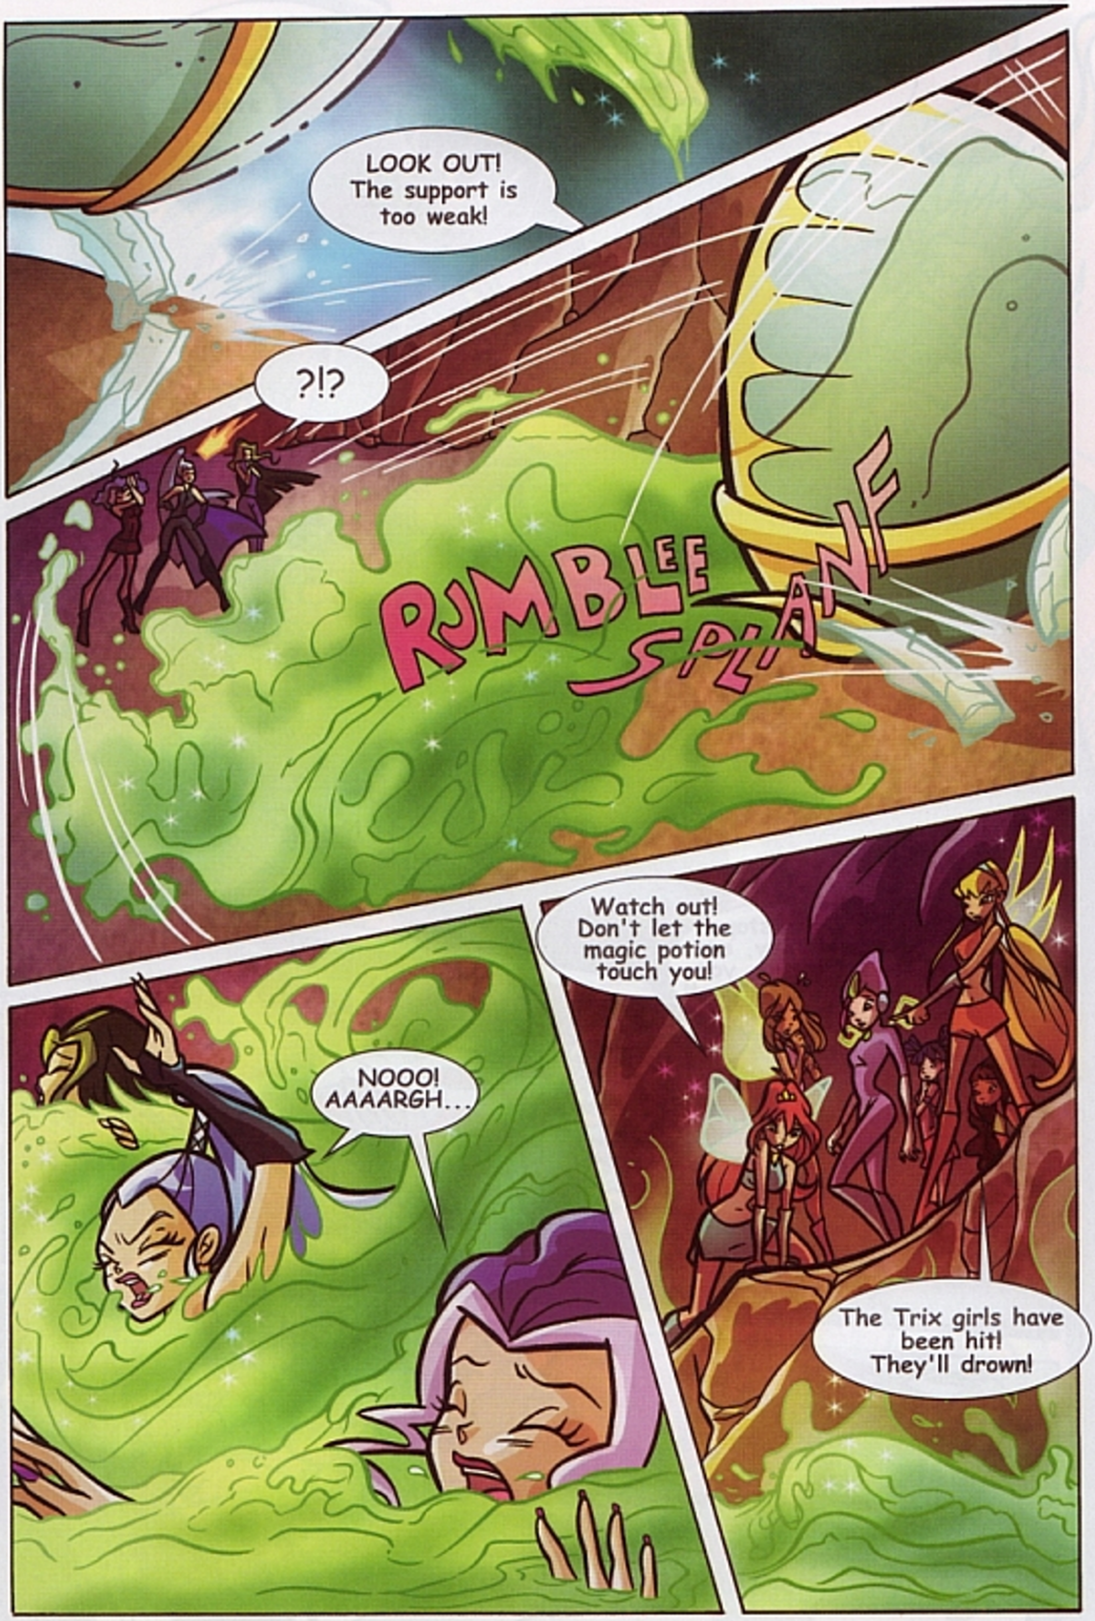
Okay! So we have to destroy it! Let's get it over with!
NOT SO FAST, YOU MEDDLING TROUBLEMAKERS!
THE TRIX?!?
I was right! THEY ARE STILL ALIVE!
That's right, losers!
Alive and seeking REVENGE!
SWOOSSSSH
AAAH!
WROSSSSSHH



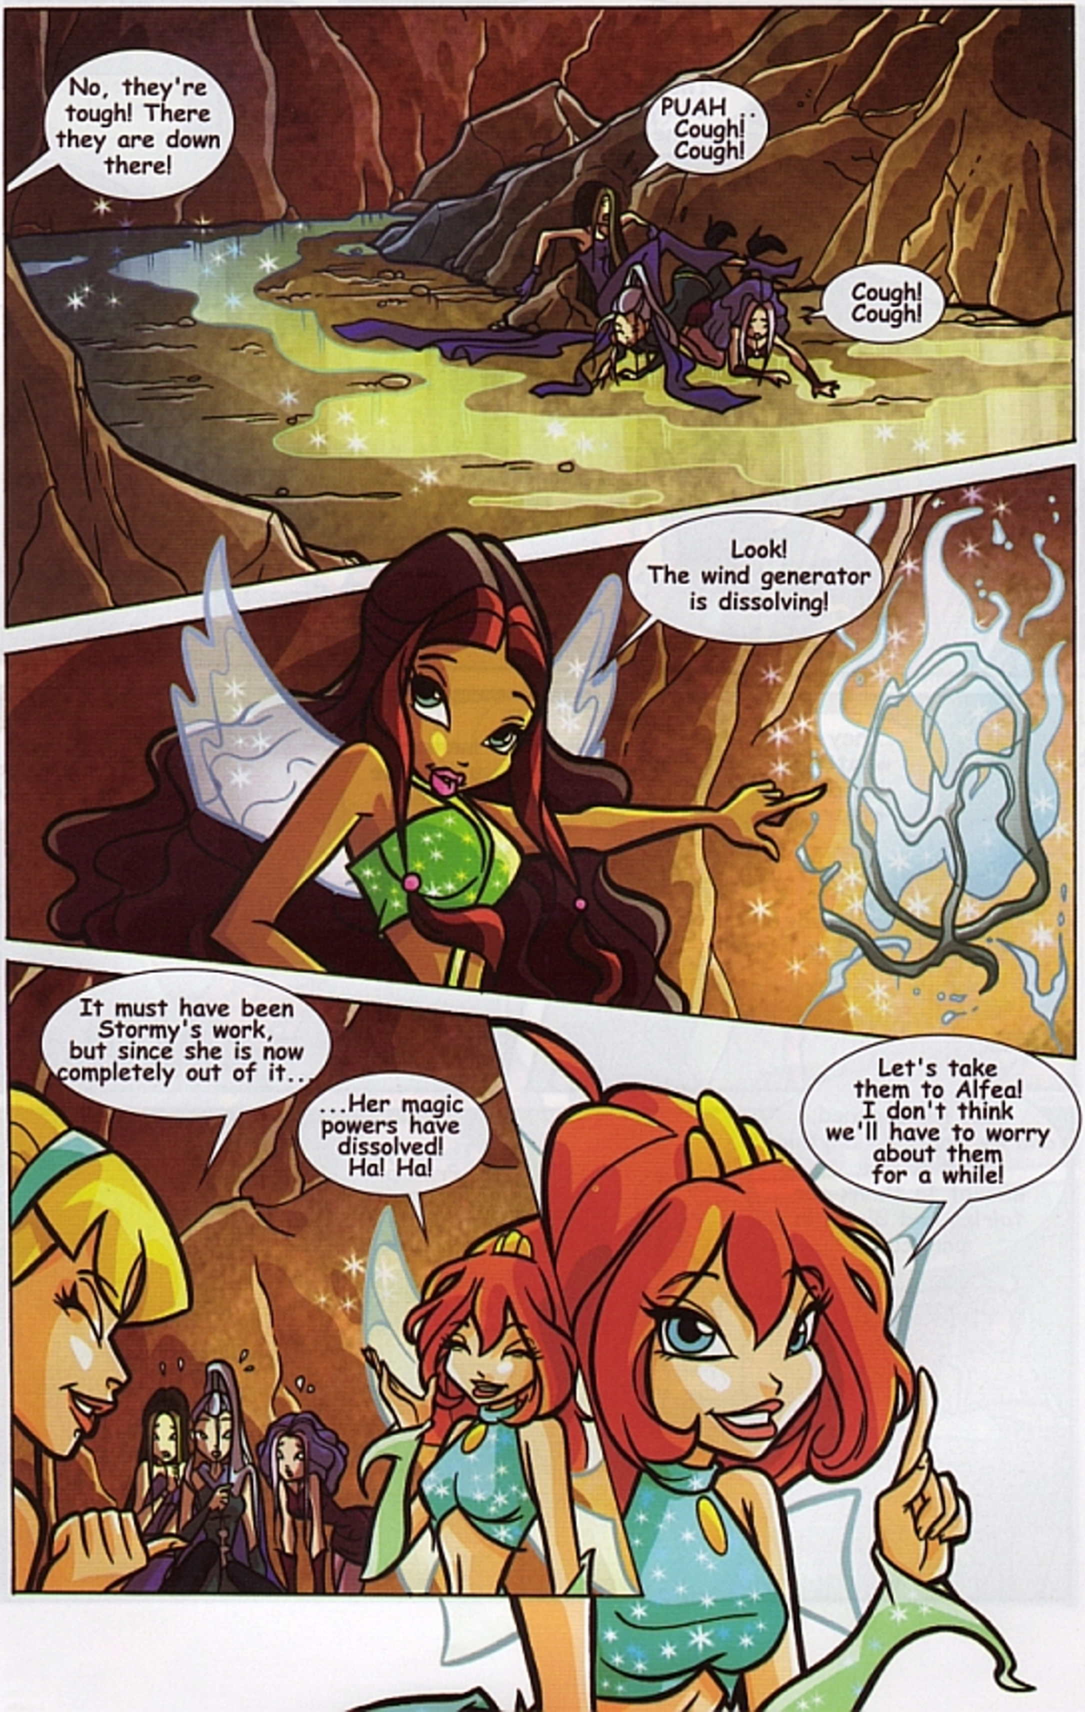
Take this! UNFH!
STRUMP
CLUNK
Hey, what's this?
My gadget! GIVE IT BACK!
Ouck!
No way!
I can stop you anyway, even without it, you stupid little gnat!
BZAZZZZ
You missed me! Ha! Ha!
BZZZ
ZZZ



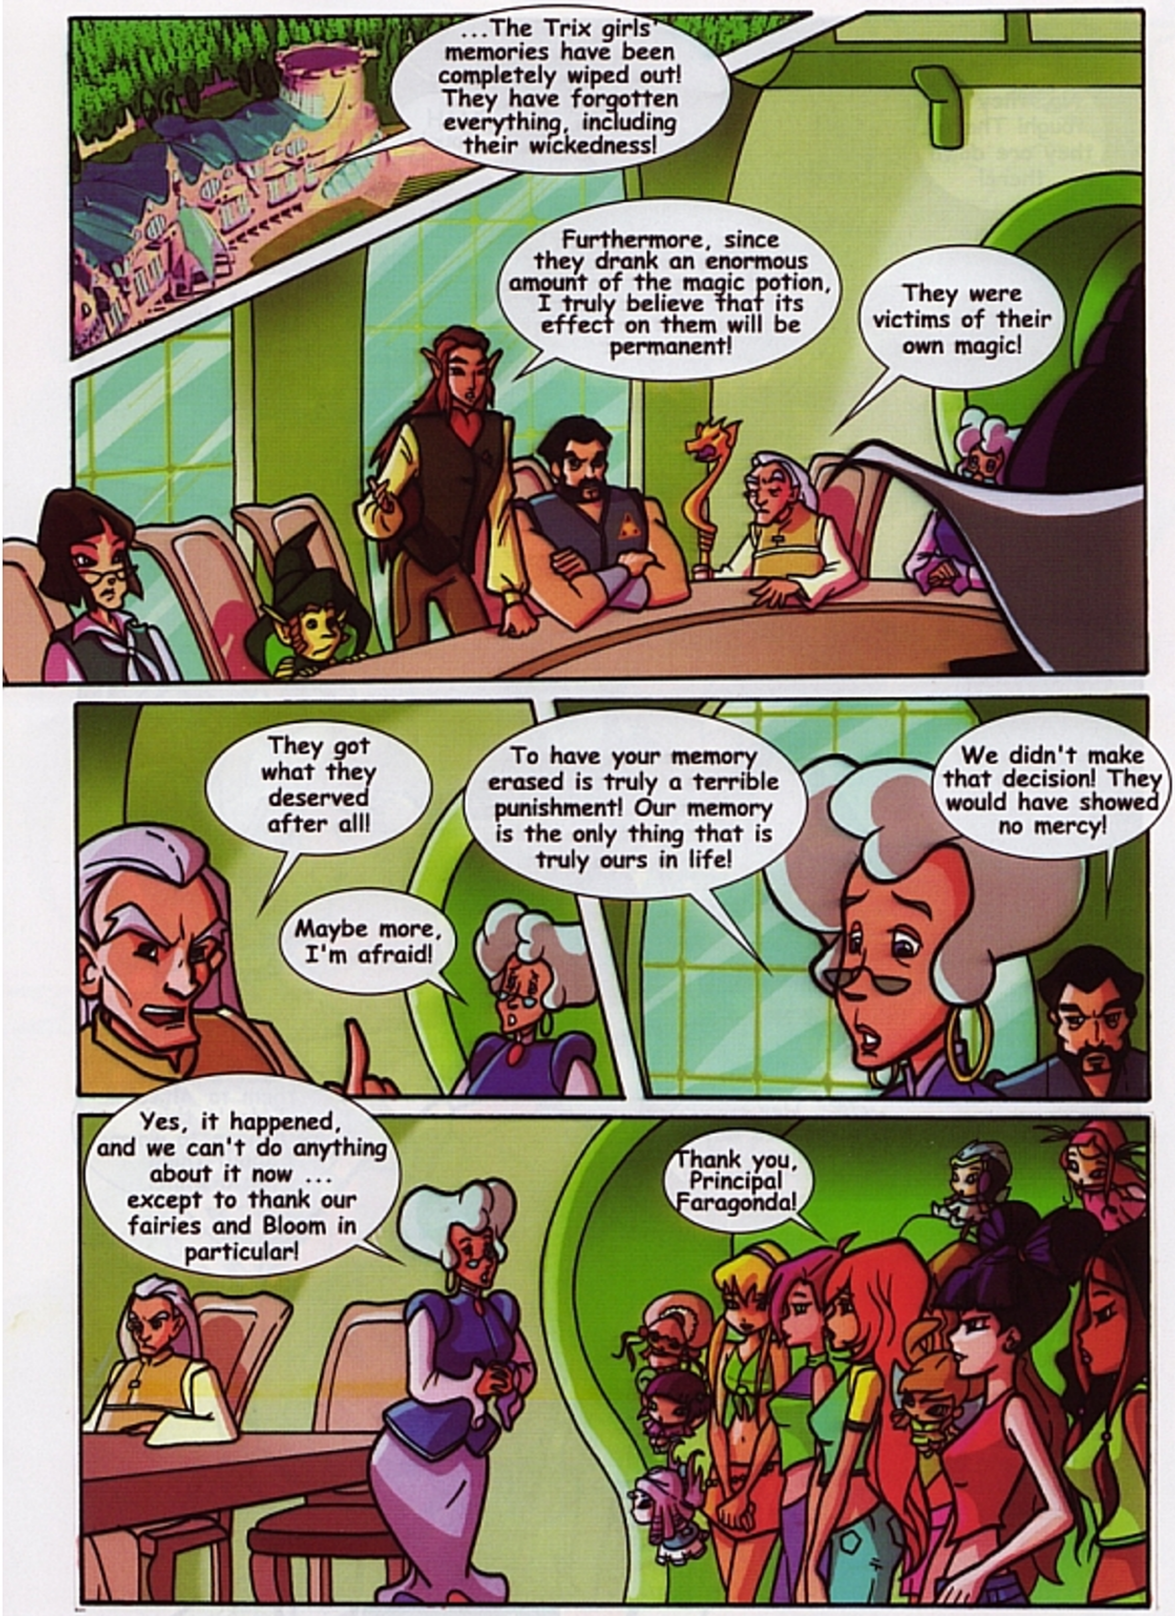
Hah! Our gadgets still work, even if they are damaged!
We must defend the evil wind until its work is done!
BZZZ...
ZAZZ
KRAIZ
SWOOOSH
AAAGH ... I can't get free! It took me by surprise!
Those evil witches are still very strong!
Oh, no! Bloom's in trouble!



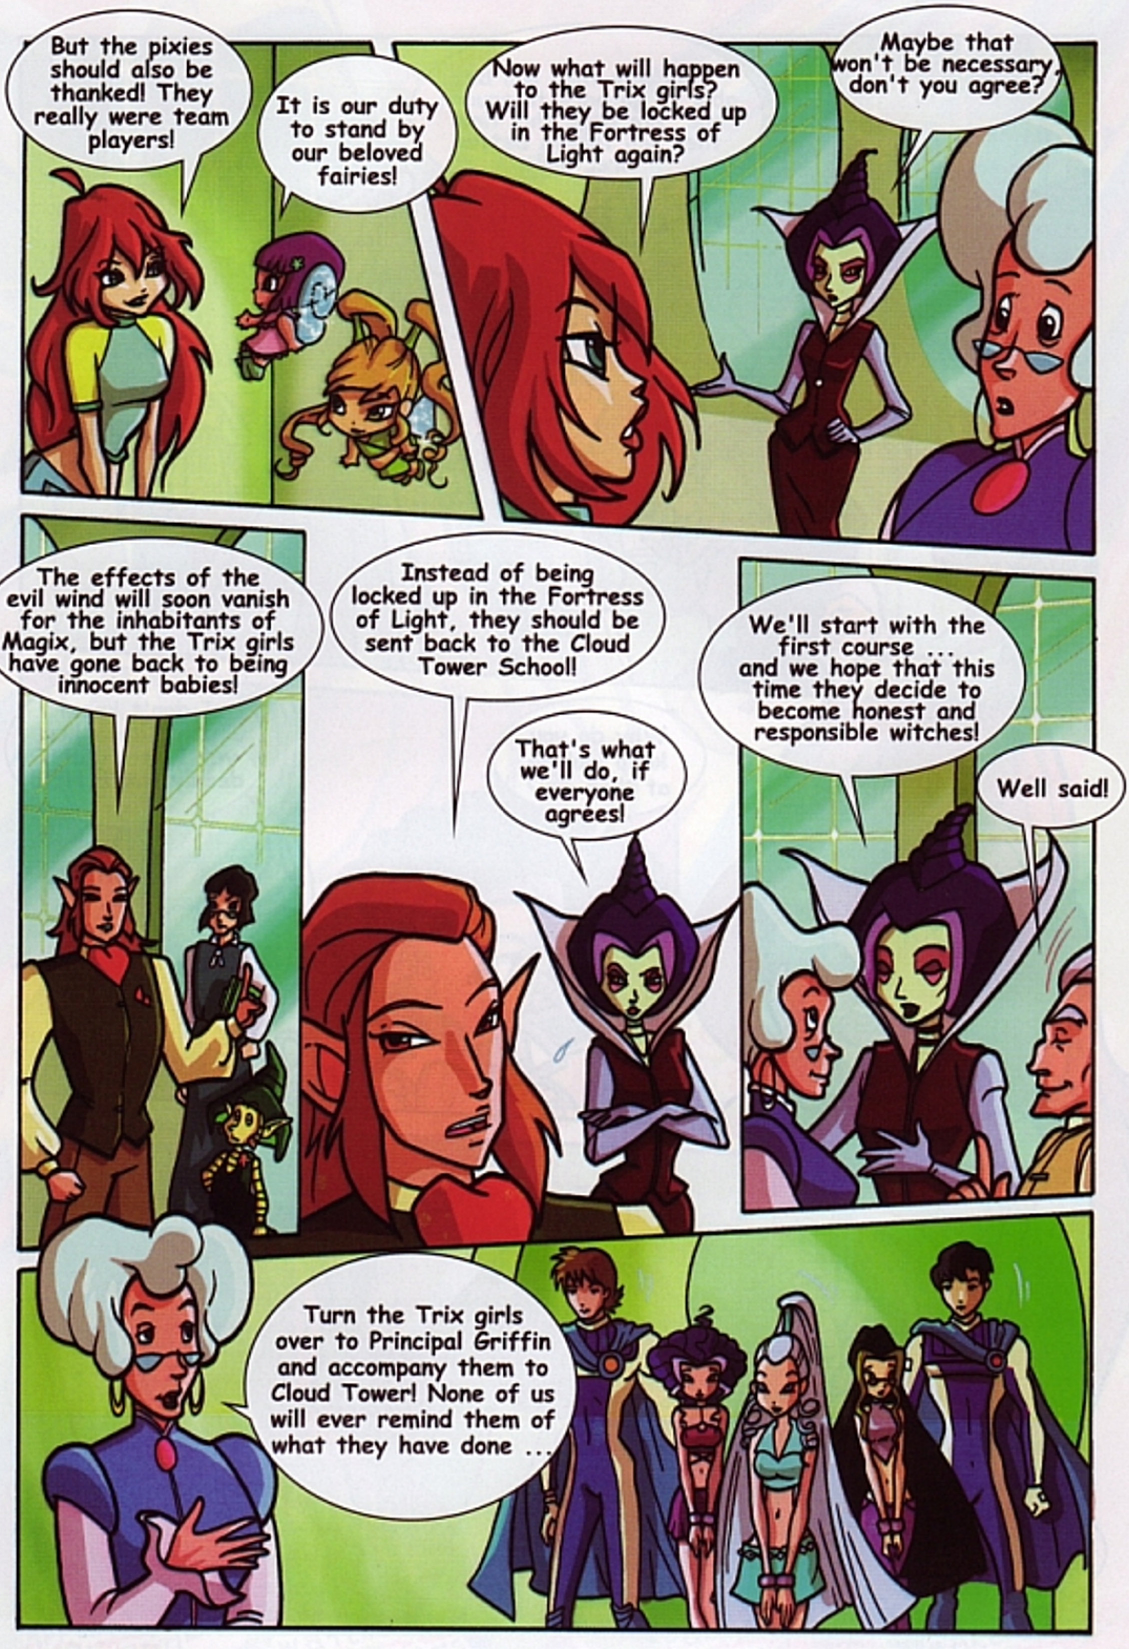
LOOK OUT! The support is too weak!
?!?
RUMBLEE SPLIANF
Watch out! Don't let the magic potion touch you!
NOOO! AAAARGH...
The Trix girls have been hit! They'll drown!



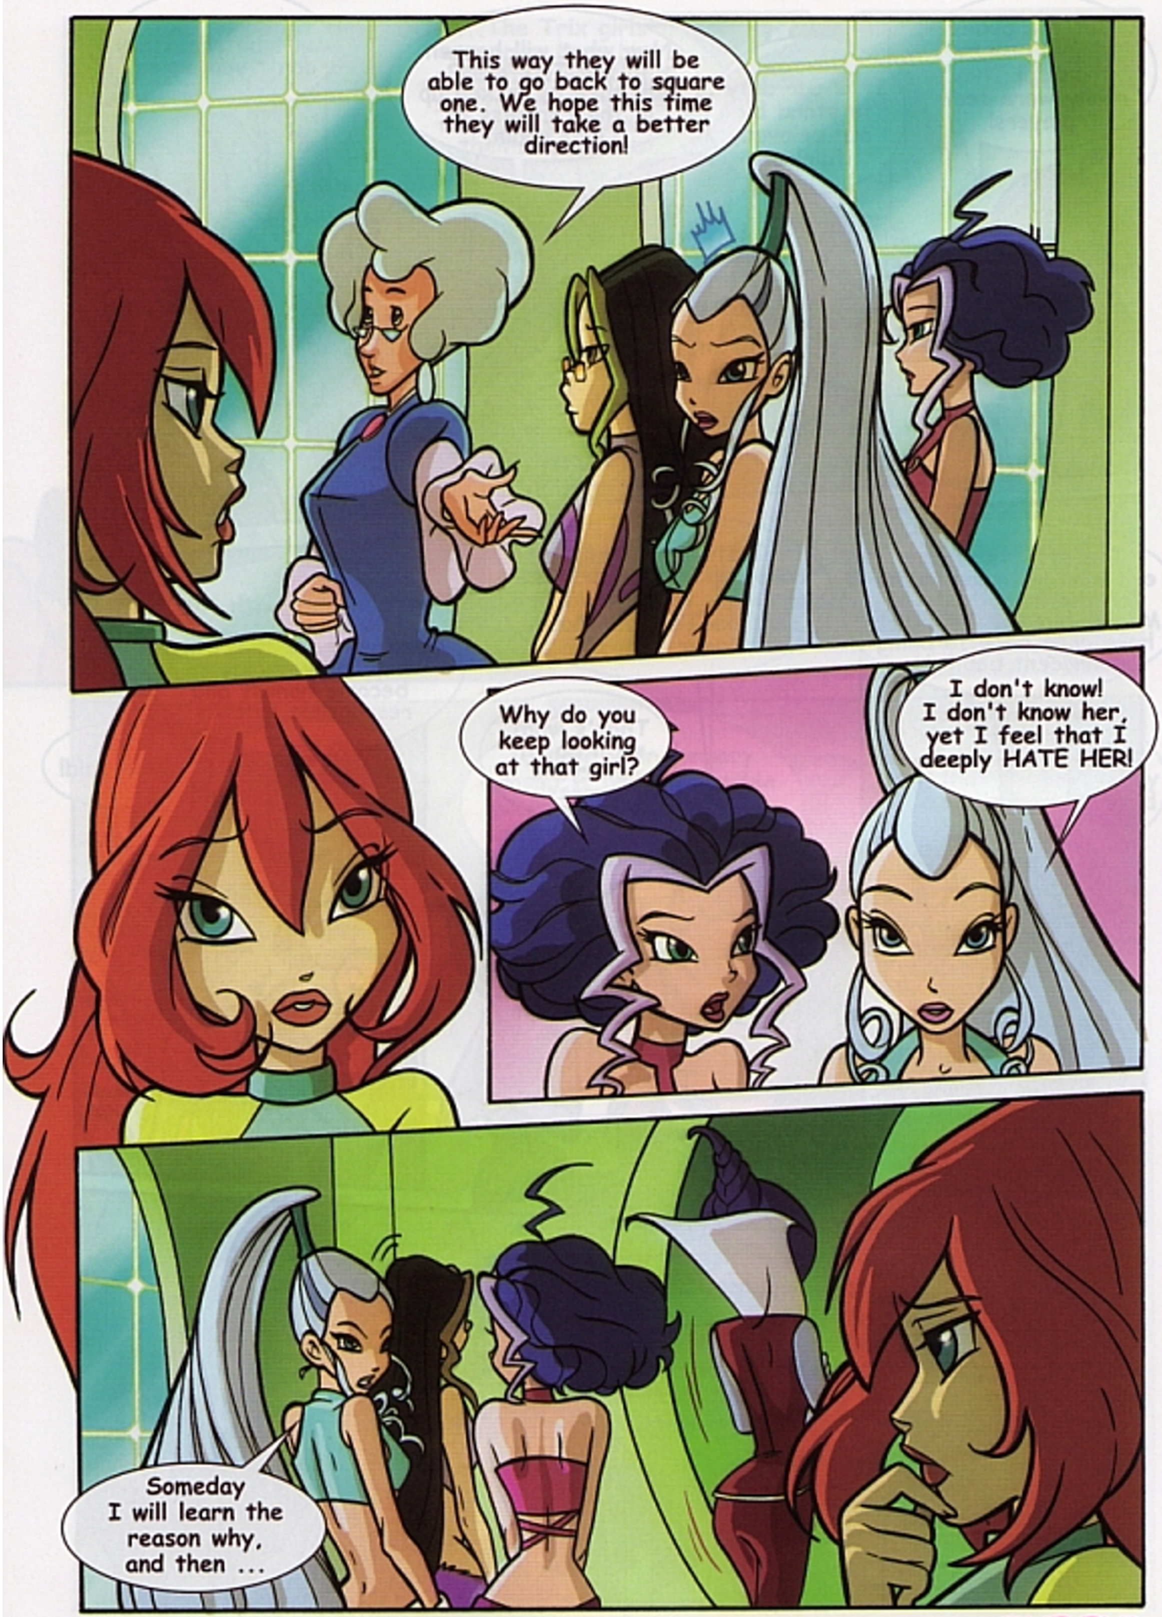
No, they're tough! There they are down there!
PUAH.. Cough! Cough!
Cough! Cough!
Look! The wind generator is dissolving!
It must have been Stormy's work, but since she is now completely out of it...
...Her magic powers have dissolved! Ha! Ha!
Let's take them to Alfea! I don't think we'll have to worry about them for a while!



...The Trix girls' memories have been completely wiped out! They have forgotten everything, including their wickedness!
Furthermore, since they drank an enormous amount of the magic potion, I truly believe that its effect on them will be permanent!
They were victims of their own magic!
They got what they deserved after all!
Maybe more, I'm afraid!
To have your memory erased is truly a terrible punishment! Our memory is the only thing that is truly ours in life!
We didn't make that decision! They would have showed no mercy!
Yes, it happened, and we can't do anything about it now ... except to thank our fairies and Bloom in particular!
Thank you, Principal Faragonda!



But the pixies should also be thanked! They really were team players!
It is our duty to stand by our beloved fairies!
Now what will happen to the Trix girls? Will they be locked up in the Fortress of Light again?
Maybe that won't be necessary, don't you agree?
The effects of the evil wind will soon vanish for the inhabitants of Magix, but the Trix girls have gone back to being innocent babies!
Instead of being locked up in the Fortress of Light, they should be sent back to the Cloud Tower School!
That's what we'll do, if everyone agrees!
We'll start with the first course ... and we hope that this time they decide to become honest and responsible witches!
Well said!
Turn the Trix girls over to Principal Griffin and accompany them to Cloud Tower! None of us will ever remind them of what they have done ...



This way they will be able to go back to square one. We hope this time they will take a better direction!
Why do you keep looking at that girl?
I don't know! I don't know her, yet I feel that I deeply HATE HER!
Someday I will learn the reason why, and then ...

THE END
